## Love Will Find You Iris Blobel

Can their new love survive the scrutiny of the public eye?

After his father's heart attack, Australian Football League player Tyson Gaspaldi takes his parents on holiday to a small place at the New South Wales coast.

One morning, following a surfing session, he comes across a crying woman on the beach. Everything about her intrigues him, and he can't walk away. She's not only sexy and humble, but, as he soon finds out, vulnerable as well.

It's only been a few months since Katie Cassidy lost her sister in a car accident.

Still overwhelmed by the loss, a chance encounter on the beach with an attractive stranger awakens unexpected emotions inside her. She's instantly drawn to his caring nature, but also his looks.

However, Tyson's past quickly catches up with them, causing Katie's childhood demons to return, and the road to romance becomes anything but smooth.

## From Reader Review Love Will Find You for online ebook

### Emilia says

I did not expect this to be such a page turner! :) I've already read the 2nd book in the series, so I kind of had an opinion as to what to expect - but I am very pleasantly surprised, as I think this one is much better :D Two lives, that fate wanted to intertwine, but before they can start one together, lots of things has to happen... Old inclarities have to become clear, shaky emotions and feelings - strong ones. There is hurt pride, money (non)issue, growing up, settling down, and one sudden but strong Love that has to overcome it all. It also evokes whole bunch of emotions in a reader - from smiling, through laughing out loud, getting annoyed, getting upset, to - possibly - shedding a tear or two :)

Sometimes you luck out with free Amazon Kindle books, and this was one of these times.

The prologue begins with Tyler winning the Brownlow medal however being too upset about his girlfriend who should've been there and wasn't. We then begin the story to find out how these characters got to this point.

Iris did a great job of representing Melbourne in this book (my home town) with the characters spending a day visiting Southbank, Yarra river, Crown casino , Fed square, Eureka tower, all iconic places from my home town (which I passed whilst reading this book on the way to work). For these reasons *Katie adored Melbourne* and a lot of readers will hopefully have the desire to visit.

At the beginning I really liked Katie's character, however during the middle of the book she seemed to get lost, and caught up in the drama and rather than trusting and listening to Tyson ( a gorgeous AFL player...hello) she got caught up in dramatics pushing him away instead of trying to work it out. I mean come on Katie, he's an AFL player, he has options but he **choose you** and not many people would drive **eight hours** for just a "hook-up". Tyson on the other hand was a great character, he has strong friendships, a real family man, and ultimately an AFL footy player, what's not to love! He was a strong character who rightly so wouldn't stand for Katie's bullshit and called her out on it *No need to think abt a move to melb if u really think I slept with her* .

In the end, as these stories do, it all worked out the way it was meant to, and I'm looking forward to continuing the story and learning more about Tyson's friends Oliver & Markus.

A delightful romance rich with atmosphere.

As a reader in the US being able to read about an Australian couple was a rare treat. I quite enjoyed the dialog and descriptions. This is a touching book about a young couple struggling with the media, family loss and fame. On top of all that these two kids are working to try to build, and maintain, a long distance relationship. Ms. Blobel brings us a sensual read with some spicy scenes but nothing overtly erotic or explicit. Overall it's a highly enjoyable novel that any fan of sports romances should enjoy.

### **Ri The Ravenous Reader says**

Stumbled on this book half cut last night on wine and gave it a proper go.

Tyson was a man I could get behind. I grew up in regional QLD in Rugby League country however, I am a massive fan of AFL due to marrying my own Victorian hottie.

^ something Ri does with her blonde haired blue eyed husband while madly flirting with him... still, after 7 years. Rrrawww....

Anywho... back to Tyson....

Tyson is a famous AFL football player in Melbourne who met Katie on a vacation up north with his family.

Suffice to say, he didn't tell her but she found out through "Google" anyway.

Now as expected cue the...

Katie, Katie, Katie.

Her insecurities ate her out alive. Poor Tyson did nothing to convince her of anything but his love for her yet she doubted him and let him down the whole way through the book.

She seemed to have a major jealousy issue that was completely imagined and in her head. There was no one else for him but her yet she kept pushing him away constantly.

I understand she was grieving but girl! Calm down.

She blew every little thing, every single text, every single magazine article out of proportion completely.

A man does not drive 8.5 hours to have sex with a woman that he isn't serious about!

No vagina alive is worth a 16 hour round trip in the middle of football season for anything less than love.

I should know. I can't even get my hot husband off the couch while WATCHING the game, let alone if he was actually participating.

By the end of the book I couldn't stand her whiny, non-committal, flaky ass.

Her lack of faith in their relationship over something as simple as him being famous or fairly recognisable made me completely lose a connection with her character. Maybe I just like someone who is confident and self assured.

Tyson needs Ride or Die NOT a Flaky Katie.

\*3 stars for Tyson only

I really enjoyed this book. The main characters popped off the pages right from the start and the author sprinkled a fun and quirky set of secondary characters throughout. I always like a male lead that knows what he wants and goes for it - and a female lead strong enough to know when she's wrong. Add in Australia and football and I'm hooked.

GENRE: ROMANCE—Love Will Find You by Iris Blobel

Ms. Blobel understands the essence of romance. At its heart a good romance has to be about the emotional connection between two people. Katie and Ty's story is a poignant reminder that it is easy to fall in love, but building a relationship takes time, trust, and a willingness to open your heart. As a reader, I appreciate that there is much more to the story than sex. Yes the characters do steam up the sheets, but the scenes are tastefully done. The real story is about love's rollercoaster ride, and it's healing power. I won't summarize the plot, nor belabor the point that this is a genre romance. In my humble opinion, reviews should tell you whether the book is worth reading, and this one is. Love Will Find You is the perfect book to take to the beach and read while soaking up the sun. I look forward to reading more of Ms. Blobel's books.

### **N.N. Light says**

Love Will Find You by Iris Blobel is one of those books that reaffirms my belief in love and romance. AFL star Tyson takes his parent on holiday so his father can heal after a heart attack. While there, Tyson, meets Katie on the beach. She's having a difficult time dealing with her sister's death. Sparks fly and just when things are moving forward, Katie finds out who Tyson really is. Can they make it as a couple in the spotlight or is Katie about to lose another person she loves? A heart-felt emotional romance, Love Will Find You

grabbed ahold of my heart-strings and didn't let go. I loved both Tyson and Katie. Blobel is quickly becoming my favorite romance author, not only because she writes beautiful romances that make me swoon but the setting of Australia becomes a minor character in each of her books. Highly recommend!

My Rating: 5+ stars

One my favourite books I've ever read!

Tyson is the typical Aussie football (and prefect book boyfriend). While taking a break he meets a crying Katie his world is upended and he doesn't even shy away from the tears that stream down her face.

Despite reservations and distance, Tyson pursues Katie with the same vigour and persistence that have made him the hottest thing in football.

Tyson's relationship with his grandmother is adorable and just makes him even a little more perfect, if that is at all possible

The perfect summer beach read for those wanting a little bit of romantic innocence

### **Helen Pollard says**

As an avid romance reader, the most important thing for me is always the two main characters. They need depth, and I need to be able to empathize with them. This was no problem in *Love Will Find You* – I was invested in Tyson and Katie from the start. They're likeable and earnest, and I found myself rooting for their romance to work right from the get-go. The sexual chemistry between them was neatly woven in so it added to the romance rather than distracted from it.

Katie's grief over her sister's recent death, and Tyson's reticence towards his celebrity status and the publicity circus that comes with it – along with an unwanted face from his past – were all realistic threats to their tentative romance. I would have liked to know more about Katie's childhood demons to help me understand some of her actions a little better, but it's a minor quibble.

I enjoyed the Melbourne and New South Wales settings, and although I was a little worried that I know nothing about Tyson's sporting world and the AFL, there was nothing technical in here waiting to catch me out!

If you're looking for a character-led romantic read with realistic emotion, then I can definitely recommend *Love Will Find You*.

I received a copy of this book in exchange for an honest review.

### **Michelle Quintana says**

I think I would have liked the story better if Katie had not gotten on my nerves. She didn't start off that way but by the end of the book she drove me nuts because she came across as being immature. When Tyson first meets her, she is trying to get over the death of her sister. I can understand how she was acting at that time, even though I thought they had moved kind of fast. Tyson wants to be with her and keeps trying to prove it to her. No matter what, she keeps pushing him away for the stupidest things and acts like a teenager instead of an adult. Was disappointed in the ending of the book. It just kind of ended and left me thinking, that's it?

#### **Hot footy player!!**

Ty is this sexy Australian football star but super sweet guy who falls for a sweet but slightly broken Katie..... Distance and a horrible ex railroad the couple a few times but this is definitely a HEA!!! Loved Tyson very much!!!

3.5 stars

this was a good paced romance and generally I liked it.

I liked Tyson a lot - he was a great romantic hero. Katie was lovely, however there wasn't really enough about her motivation. Yes, she's suffered a tragedy, but it wasn't clear why she was reluctant to share that and what the impact it had on her relationship with Ty.

I thought her descriptions of AFL and Melbourne were good. Its my game so I know it well and the author did it justice

But what really let the book down was the dialogue. It was stilted between most of the characters but with Ty and his friends it was just plain stupid - I don't think the author has spent much time with Aussie boys/men chatting. And if she has she needed to listen to them more - it was almost kind of funny.

### **Stacey says**

After reading the Prologue I was hooked - I had to know what had happened to get the characters to this point. I found the two lead characters engaging and they were well supported by the ancillary characters. The heat has been "turned up" in this new series and was done in a way that complimented the story. I will definitely be adding the remaining books in this series to my Wishlist.

### **My Thoughts - Story**

What a cute and sweet read that I devoured in a matter of hours! I wasn't just interested in the storyline but also the descriptions of Australia, and now I want to go on a trip there to see the sites myself.

Ms. Blobel did a wonderful job of developing her characters but...sorry...Katie started to irritate me with her jumping to conclusions and not trusting Tyson.

Other than that...I thoroughly enjoyed this story and got so wrapped up in the romance!

## **Lily Malone says**

I was offered an ARC of Love Will Find You by the author, and I finished it last night, after several lazy nights of reading to end my kids' school holidays.

It's an uncomplicated love story, with authentic characters and a grandma who almost stole the show for me. I love my AFL footy. (Love most sports actually), so I had no reservations about the sport in this book and I'm glad to hear it's part of a series as I'm sure I'll enjoy the other two.

For me, because I do like the football so much, I could have used a bit more interaction/description with the hero, Tyson, and his game. A bit of footy rough and tumble would have been good fun. I would also have enjoyed going a bit deeper into what makes Katie tick. The book begins with her grieving after the death of her sister and Tyson finds her having a cry on the beach. Katie's job, some more about the things she enjoys in life, a greater sense of what she wants to do and become - some of those details I would have enjoyed. I

found Katie just a bit hard to identify with.

This is the third of Iris Blobel's books I've read, having also read the first 2 of her 'Beginnings' series, set in Tasmania.

She has a very warm writing style and although this one is a bit 'racier' than either of the Beginnings books, the sex or language level certainly isn't over-done.
