### Jean Smith says

Immortal Ops takes a new spin.

*Midnight Echoes* is perfect for that bedtime treat yourself to romance moment. Take a moment to escape into the world of *Immortal Ops* with this first story in the *Crimson Ops* series. A world where the immortal races are threatened by an evil group called The Corporation. In

In *Midnight Echoes* Bhaltair is a member of the Crimson Ops, a group of vampire immortal ops. Once upon a time Bhaltair wasn't such an above the board vampire. Then his master got mated and decided to clean up his act. Now Bhaltair travels the somewhat straight and narrow. As an operative he fights the machinations of The Corporation and protects his master's family. The last few years though have become a struggle as his master's granddaughter, Meena reached maturity and became his number one temptation. A temptation Bhal must avoid at all costs in fear of doing her harm in her frail state of humanity. His only hope is that with sexual maturity her latent powers might become unleashed... powers there are no guarantee of. The thought of Meena with a human is hard enough but when the possibility that she might be seeing another supernatural come to light... all bets are off.

Meena has spent her life in a supernatural household descended from vampire and fae lineage. But unlike her sister she appears to have no supernatural powers of her own. Rather she is frail, clumsy and all too human. Her frail humanity has encouraged her to become rather bookish and boring in the eyes of her sister. Of course her lack of supernatural powers does her no good when it comes to the one man she is interested in, Bhaltair. The taboo possibility of a relationship with a supernatural holds all kinds of appeal for someone who feels like an outsider in her own home.

Destiny and fate have different plans for Bhaltair and Meena. Where there may seem to be no path, destiny will create one, for these two are definitely fated to be. *Midnight Echoes* is an enjoyable read and a great introduction to the *Crimson Ops* series. If you like paranormal military ops romances you're going to enjoy this one.

#### **Midnight Echoes great quick read!**

Keenan and Bhaltair are an unlikely couple but once you know the truth about them they make perfect sense. He is a vampire who has known her since birth and she is a human...or is she. Mandy Roth can spin a tale with the best of them and you will be riveted to your seat when you read any of her books. Every time I read one of her books I am amazed at her detailed character development. She makes you believe her stories and care deeply for her characters. Even though this is a quick read you care for the characters and want the HEA ending for Meena and Bhaltair. You must read this author she is so good.

### Taming the Vampire Anthology

Meena is a human born from a vampire and half fae. Bhaltair is her grandfather's second in command. They are drawn to each other but hold back because of these circumstances. When Meena is attacked they are both forced to admit what is between them.

The story wasn't terrible but it seems like it belongs in the middle of something. It is written like I already know these characters and I don't so the way they speak to each other just seemed weird. The lovey dialogue was all awkward and just made me cringe. Just didn't come together.

### ***Bhaltair and Meena***

Another series from the Immortal Universe Ops, Midnight Echoes

Finally I was able to meet one of the Fang Gang, though I was hoping to meet the whole team but instead get to meet an entire family...

The story maybe short but still intriguing enough and will get you hooked at once.. Bhaltair, Bhaltair, Bhaltair... All I can say is I want more of him.. Not enough and I hope he'll still be featured on the other books in the series... ??

I dont know what is it about Mandy Roth's book that it got me stupidly hooked and cant get enough of them ??

At last the Fang Gang has arrived and another sexy Scot has claimed my heart from Striker!!

Meena is the pure human relation to the Vampire leader. Her sister somehow managed to be Human with..extras but not quite vampire but she drew the short straw and training to defend herself can leave her literally broken! Bhaltair is her grandfather's right hand man and has been involved in her life since she was a baby. She would give anything to have him see her as anything but a frail and fragile human.

Talk about reformed bad boy! Bhaltair is dark, dangerous and totally droolworthy )He is Scottish so I'm going to be biased!!)

Meena had tried her best to stay away from the training room while her sister trained, cause she always felt when he looked at her it was if he looked too hard she just might break. But lately she had found herself drawn to the room, not because of Rose, it was her grandfather's second-in-command who was doing the training, Bhaltair. But he gets his boxers in a bunch when he finds out Meena has plans to date a wolf! Sure the guy may be a meek and mild professor but he is not the man for Meena. Bhaltair wants to be that man but he is terrified he'd hurt Meena, inadvertently or not. Then there is the small matter of his best friend, Meenas

grandfather, and her father killing him once they found out what he did!

Crimson Ops (Fang gang) series has started with a bang and I'm intrigued to know what happens next. Rose seems to be a bit of a Mean Girl and I'm not sure I like her yet so not sure how that's going to work out. Whitney, Meena's father's best friend, almost steals the show with his surfer boy looks but Bhaltair holds his own. I'm already trying to figure who gets who for a mate and my head is reeling! Great characters and now we finally get to see the Fang Gang in action!

Another form of Immortals Vampires and not ones like the early Vampires, these are definitely different. Vampire and Crimson Operative Bhaltair hasn't always played for the side of good. He's walked a fine line throughout his immortally long life and has very few regrets. He's always had everything he's ever wanted—that is until Meena. As a human descendant to the master vampire he serves. Now he finds that he might loose her to another Immortal, will he fight to keep the woman he has come to love and care for, will Meena accept him for what he is, a great story and a great adventure to loose one self in.

#### **A great love story**

The attraction between Meena and Bhaltair is electrifying.

It a sweet love story, I only wished it as longer.

The attack in the library was so realistic.

Good read

### **Lindsey Jindra says**

I was pleasantly surprised by how well this novella was written! I generally don't like how fast and cliche novella story lines develop, but Mandy Roth developed this nicely. "Guard turned lover" has been done before, but the twists and plot development in this novella kept me reading and wanting more! I love how they each deny the love they have for one another right up until the end.

#### **In Denial**

Midnight Echoes is Bhaltair's story. Bhaltair has been alive for centuries! He spent most of those years on the wrong side so when it comes to the blessing of a mate he doesn't believe he deserves one. He is strong and loyal to a fault so being attracted to his master's granddaughter is a betrayal he can't have.

Meena was born human which is an oddity since her dad is a vampire and her mom is a Fae. Meena is tired

of being different and longs to be like everyone else. Things aren't always how they seem so when her life is threatened and Balthair gives her his blood to save her life he set her powers free!!

Ooooh, I liked this one. I liked it a lot. And since it's part of a very large world, I have LOTS to look forward to when I dive in.

Now, I'm not normally a fan of a hero making decisions for the good of the heroine. But. BUT. I kinda got where Balthair was coming from with his choice to stay away from Meena. I mean, the fact he could break bones and hurt her badly if he got a little too enthusiastic is a bit of a mood killer. But I also think he probably should have tried to explain things instead of just avoiding the lady.

FYI, I don't particularly like Meena's sister. Her attitude toward Meena set my teeth on edge.

But that's neither here nor there. I really liked the world. I liked how the two ended up together. \*thumbs up\*

Loved this book and did not put it down! It had me hooked. I have read every I-Ops world book and this one was wow as I expected it to be.

Balthair has known Meena since she was born, before then really. He is very protective of her, he does not want to harm her. His feelings towards her change when she becomes of age but why as she is only human. He could hurt her or worse, kill her, if he gives in.

Meena has been having fantasies about her Grandfather's friend Balthair . Yes he is old, but he is a vampire.

I loved the push and pull of these two. She wants to be more than human and he wants to be more human. When Meena mentions another man, oh all hell breaks loose. But Balthair does not know why he is acting this way (duh MATE).To be as old as he is he is a little dense. Then Meena's life is in danger and oh crap on a cracker the crap hits the fan again.

There is a HEA with this one, but no spoiler zone here. This is one of those books that I did not put down.

## **Barbara Stewart says**

I really really like all these books so far they really kept my interest I just hate that they're so expensive and they're such short stories they cost more than what the book is worth. And this one Meena and Bhaltair come to terms that they are mates. She is only human he's a vampire and frayed that he's going to hurt her. So he stays away. Till he finds out there's a guy that she's going to meet at the library and he's a paranormal Anna with shifter and there's no way in hell he's going to let her go by herself. The book was good like I said I really liked all the books just too short for what the price
