Combine one sassy biker chick with one badass Australian rocker for a full throttle ride in ONE WILD RIDE, a Three Little Words novella...

Mercedes Carson has spent her entire life in the destructive wake of her irresponsible big sister. Just once, she longs to break free of the shackles of being a good girl... and she finds her chance with Levi Sinclair, the bad boy drummer of the hot band Three Little Words.

Levi needs something that most women aren't willing to give him. At first glance he's sure that pretty little ice princess named Mercedes will be the same...

He is so very wrong.

Please note: this story contains piercings (his), hidden fantasies (theirs), a whiny biker ex and a lot of naughty touching.

This story is a novella. It was previously published in the Riding Desire boxed set. It is part of the Three Little Words series.

Cute story. Would have been good as a book length tale. Editing issues abound and kept pulling me out of the story. Sentences that were re-worded but still contained original text.

Leisa Prater says

Ended a little abrupt but great writing and good heat! Def will make me look at other books in the series.

Short but good!

This was part of the Riding Desire anthology. My main issue is it's not a complete story, it's more of an excerpt. I truly can't even say it's a cliffhanger, it's that short. The good news is that it's an intriguing glimpse into what could possibly be a kickass story. The bad news is that it's not finished or even started really.

30 pages?!?! ARGHH!! Such a tease!

A few firsts for me with this story.

I haven't read anything from Lauren Hawkeye before today, and I feel totally ripped off!

And, I have not had a story where the bad ass bossy biker has been the one who wants the pain, talk about pantie-dropping HOT!!!

At the end of the story, she asks if we want more of the guys from Three Little Words, that she would love to know, well Levi is from Three Little Words so

Lauren, I want more of Levi please!!

Mercedes is at a biker rally, with her "sort of" boyfriend Trey, her last bid to freedom and wildness before going back to her life and settling down.

When Trey ditches her in the middle of everything, she decides to just let go, be free and dance along to the band that is tearing up the stage.

That's when she notices she has caught someones eye, the sexy dark haired drummer.

Levi is in quiet a sour mood, after watching his band mate happy in his poly relationship, being who he truly is, really gets under Levi's skin.

He has his own desires, fetishes, ones he is sure he will never have.

Until he spots her, the stunning blonde dancing in the crowd.

Dancing just for him, or so he thought, until she was gone.

Mercedes stalks off in an effort to find her boyfriend and clear her head after her seductive ways with the drummer, something that was a first for her, she doesn't expect what she finds.

Levi can't let it go, he searches for the golden beauty, finding her a pent up rage, and decides he must have her, and lays his needs out there.

"I like being hurt during sex."

Mercedes throws caution to the wind in an effort to get her one hot, wild and kinky night, but will she really be able to walk away in the morning?

Will Levi be able to let the one woman who truly accepts all of him, just leave?

She slapped me right across the cheek....

"Fuck"

I did the only thing I could think of - lunging forward, I grabbed her, fisted my hands in her hair, and kissed her.

This is why I hate/love getting these free or 99 cent book bundle deals. Get me curious about what happens in a series then I have to go out and buy of the books in that series! It's gonna make me go bankrupt!

Quick read

April says

It needed more. Ended kind of abruptly.

Shawna says

Reading this one did make me want to read the 1st book.

What to sayabout this one..There is a reason I don't typically buy boxed sets like this. I did find the story to be too short to really get involved with any of the characters or the story. Perhaps if we can get a longer full length version of Levi I think I could like it better. Who doesn't love reading about rockstars, and australian at that, dude has to be hot.

That being said I wasn't upset that I read it but it wasn't something that I would read again or think about afterwards.

All in all probably 2.5 - 3 stars. 3 stars because I am now curious about the first book with Dorian, Adele, and Mal

Meep. It was so short. I always want more from Lauren Hawkeye's books as she writes the best stories. I do wish this one had been a bit longer - it really just flirted with the idea of Levi and Mercedes relationship and I would've loved to see a bit more. That being said, I totally adored Mercedes - what an awesome girl! As always, something fabulous from Lauren Hawkeye :)
