## **Pillow Talk** Luke Prescott

How do you get someone to spill their secrets? With a little pillow talk, and that's exactly what Brooke Alexander does. Find their secrets and expose them. With her calculating ways, and cunning personality, there's a reason she's the best.

She's very successful with her expertise in getting men to talk and business is booming. Until her next client, Owen Thompson.

He has a secret and no amount of pillow talk is going to reveal it.

As the CEO of one of the biggest multi-national companies around, she wants to know what's going on inside his head, and his pants.

Sometimes secrets are better left unsaid, especially when that secret is yours.

## **Rhiannon King says**

Pillow Talk is Luke Prescott's newest release and yet again he hasn't disappointed, it's one of my favourites of his and a lot different to what he's written previously.

Brooke and Owen meet by chance when they go to get in to the same cab, it's not however love at first sight but more like hate at first sight. Owen is a major jerk to Brooke but she's feisty and gives it right back. It's not until later that Brooke finds out that Owen "jerk in a suit" Thompson is her next client. Brooke's job isn't exactly what you might think, besides having to take her clients to bed to get them to spill their secrets she also has her own dance studio, which is about to be threatened. Brooke needs Owen to spill his secrets but he's a tough nut to crack. Will she get what she needs? or will her heart get in the way?

Owen is an Alpha through and through, he knows what he wants and he's not afraid to bulldoze his way through anyone and anything to get it, but under all that dirty mouthed Alphaness is a sweet man with a romantic side. Brooke is a feisty, sassy woman with a vulnerable side. They have amazing chemistry and sexual tension. It's a fast paced read without the feeling of being rushed. Luke has grown as an author and it really shows in his writing, I can't wait to see what he brings us next....

## **Jolene St Germain Triggs says**

This was a fantastic story about two people you didn't really find good until you got into the story. I loved it, truly a great story but I can say I didn't start rooting for them as a couple until a few chapters in. I liked Owen from the start, dirty talking alpha male, but he didn't hide the fact he was out to get himself laid, he owned it and his honesty about it was refreshing. Initially I wanted better for him because Brooke couldn't give him what he clearly needed (which was love, even though he didn't know he needed it). Their journey wasn't easy and I liked that, because it made it more real. They had more struggles than you find in a normal romance story and I found it refreshing. I love HEAs but I don't like stories where that's all you can see for the couple from the beginning. It needs to have conflict to be real, life has conflict, this book has conflict. Once we got to the point that Brooke redeemed herself to me as a character then I started to get on board with their ending and genuinely hoped for them to end up together. This author gives you plenty of emotions throughout this fairly quick read, and more than enough heat to go along with it. Perfect book to curl up with on a chilly winter day!

## **Gwen Shafer says**

Very enjoyable from the beginning to the end. This was a very well written enjoyable book with great character chemistry and a great storyline. I absolutely loved the chemistry between Owen and Brooke. Brooke is just doing a job but little does she know that job is going to change her life. The chemistry between these two is off the charts. Not only is it hot but sweet and sexy at the same time. Brooke is just trying to save her dream while Owen is trying to get revenge for his parents. Neither one of them realize that life is about to become one happy place once the truth comes out and the past is put behind them. I absolutely loved this book and the title fits it perfectly. Very enjoyable highly recommend reading this one.

### **Antonette says**

Another fantastic 5+ star read by Luke Prescott.

I love all of Luke's books, but this is by far my favorite! There's just something about the story and the characters that did something to me.

I mean how could it not with a man like Owen!?!?! OMG was he hot and just PERFECT! I fell for him so fast and so hard - he's definitely easy to love. And so was Brooke. She was an amazing and kick ass woman and my favorite of all the females Luke has created.

The chemistry between Brooke and Owen...holy s%\*t! There isn't anything hotter or sweeter than what they have between them. They made me laugh and swoon all in one shot.

I cannot say enough good words about this story and I'm anxiously waiting for what Mr Prescott has in store for us next, although I'm gonna reread this one over and over.

### **Teresa Lara says**

I loved Brooke and Owens Amazing intense funny love story.Excellent read.5 stars.Loved everything about this.

---

### **Sheri says**

This girl is basically a prostitute. I cannot understand all the five star reviews. I read 10 pages and said hell no. Not for me.

---

### **A Book Lover's Emporium Book Blog says**

This is the first book I've read from Luke Prescott and I was absolutely immersed in this unique story from the beginning. The sizzling chemistry and delicious secrets keep you invested in this page-turner.

Brooke is a sassy woman on a mission to get herself out of her current occupation and the juicy lengths she goes to is brilliant. Owen enters her life and every reader needs to watch their fingertips singe with the burning passion that is conveyed in the pages.

However, secrets are not the best way to start a new relationship, the angst, and suspense this author puts you through is brilliant. I just love books that keep you guessing about what the outcome will be.

A brilliant read for anyone wanting a fresh, suspenseful, yet clever storyline with off the chart chemistry.

---

### **Tre Talbot says**

Lemme share what in my head when it comes to *Pillow Talk*. Brooke is incredible at her job and does what she needs to get the intel that's requested, granted her ways are frowned upon but the woman is tomo her dream and supporting herself. Owen is not the boy he was growing up and has vowed to right that has been wronged. The chemistry these two share is instant and as the story develops I'm constantly trying to figure out what Pete is trying to find out. I was kept on my toes until the very moment everything is revealed and even afterwards I wanted to see what would happen next. This was a nice paced quick read that I highly enjoyed. That ending left me completely swooning, one click this book and find out what you're missing.

### **5 Stars to *Pillow Talk* by Luke Prescott.**

*Pillow Talk* by Luke Prescott was a sexy, angsty read. At least I thought it was angsty. I loved it! From the first page I was hooked and couldn't put it down. Being such a short book, I can say that I didn't feel it was rushed nor did I feel like it needed more. The pace of the story ran from the first page and only had me reading faster to get to the end. There was some suspense that definitely had me nervous while I was waiting for Brooke's dreams to crash around her; worrying if they would or not. Owen had a big secret as well and I couldn't stop from wondering what it was or when we'd find out about it. I liked how the author made us wait for that nerve-racking moment. In addition, I couldn't have been happier with the grand gesture at the end. It was a change from the norm in my reading world.

Without giving away any spoilers, I'll tell you that Brooke and Owen first meet under tense but funny circumstances. They did not get off to a good start but that changes quickly. Brooke and Owen each go through their own moments of growing. Their relationship was fun and flirty and damn sexy. I admit that after reading the blurb, I was worried that Brooke would be a character I didn't like or respect. I was wrong. I liked her and even respected her for her choices even though they might not have been very moral.

In the past year, Luke Prescott has released 4 books, all of which I loved. That said, each book is better than the last. You need to add this author to your TBRs, You won't be sorry!

This is my honest and unbiased review. Thank you for taking the time to read it. :)

## **J.L. Leslie says**

4.5 Stars. This is my first Luke Prescott read and I really enjoyed it! I loved the cover and this is what prompted me to buy the book. Brooke is working for a business man, gaining secrets from fellow business men by seducing them. She meets her match in Owen. She isn't expecting him and he doesn't exactly play by the rules. It was a short and fast read, which kept me turning the pages. I like how Owen wasn't what she was expecting. She had him pegged as this 'entitled prick' but he was so much more. Some of the banter was repetitive, but at the same time endearing. I'll be reading more from Luke!

---

### **Mel Allen says**

This fantastic new book by Luke Prescott is amazing I couldn't put it down the story had me from page one till the end. Owen is a strong alpha dirty talker and just want to have sex.

When Brooke meets Owen in a bar, She guesses he's not the sort to chase women they come to him. Brooke is really good at reading people and can normally get them talking but Owen is turning to be different he doesn't open up to people and Brooke really needs him too.

Owen can't get the blue eyed woman he meet earlier out of his mind so when she leaves him wanting more he can't just walk away. When they spend time together Owen wants to make Brooke happy but with the secrets Brooke is keeping she's not feeling good cause she has feeling for Owen. On there journey they don't have it easy but that's nice that there Story isn't easy and has more emotional feel to the story.

I love when the characters in the story keep you guessing what will happen and that's what Luke Prescott has done with Pillow Talk. Amazing brilliant hot read.

---

### **Shari Kay says**

Unless I'm completely misunderstanding the blurb...she's hired to have sex with men and learn their secrets? So...h's a prostitute?

---

### **Tiffany says**

This is the first book I've read by this author but it won't be the last. I will definitely be coming back for more. Once I started reading I could not put it down. Brooke and Owen were great! I loved their back and forth banter. I definitely recommend reading this one!

\*I voluntarily reviewed an Advance Reader Copy of this book. This is my honest review.\*

---

### **M Hurford says**

It's "Smartassery!"

This was my first Luke Prescott book but not my last. His storyline is lively - never a dull moment - and his characters are so well written that I instantly became attached to Brooke and Owen. These are two adults who can go toe to toe with each other and enjoy it. The sex is hot and loud. The romance is so touching. But, they both hold secrets that can rip them apart. Will it?

I wholeheartedly recommend this book for your reading pleasure. If you are a first time Luke Prescott reader like I am, trust me, you won't be disappointed. Enjoy!

(Note: I was provided an Advanced Review Copy of this book in exchange for an honest review.)

### **Lauren Harwood says**

Pillow Talk by Luke Prescott is yet another must read.

Luke once again had me captivated from page one. Brooke is one of the most badass female characters I've ever read. And Owen is so much more than just a man in a suit.

A chance meeting first introduced us to Brooke and Owen, and when Brooke found out Owen was going to be her future client, you just knew things were going to get interesting.

Their relationship blossomed but came crashing down when Brooke told Owen the truth.

The book was fast passed without feeling rushed. A definite must read.
