Recon

David McCaleb

Recon David McCaleb

The assault on America begins with an attack on Red Harmon's family . . .

Trained to endure extreme danger and survive impossible odds, elite military operator Red Harmon has battled our nation's enemies for years. While in the Rocky Mountains for R&R, his family is violently attacked by an international squad of assassins. No ordinary wet-team, this group is only the vanguard of a power play threatening national security.

Danger is everywhere . . .

Red and his young daughter escape a brutal firefight, but are separated from his wife. Evading through the woodlands, stripped of his unit's support, Red puts his survival skills to the test all the way from Pikes Peak National Forest to Israel's West Bank. He must defend his country, protect his family, and identify the unthinkable forces that are willing to slaughter anyone in their path.

From Reader Review Recon for online ebook

Bobbie Whitlock says

As with the first two in the series, this thriller takes you on a fast-paced ride. Thanks to Good Reads I didn't have to wait for the release date in August.

Joan Mitchell says

Trust

Exciting, fast paced thriller. In America, in Israel, wherever. Husband and wife both working for government, but not really knowing what the other did, end up being stalked by Mossad. I recommend this book to people who enjoy action, deceit and power. I received this book from Goodreads for free.

Craig Pearson says

Thank you to Netgalley for the opportunity to read and review this book. Was unable to finish this book. I was excited by the premise but it was not fulfilled by the actual story. The writing was stilted and plodding. The characters are weak and undeveloped. The members of the 'Det' are seemingly not the operator types usually found in these types of books. Just could not stay with it.

Meg says

A fast-paced thriller, this book will satisfy even the most devout adrenaline junkie. This tale involves not only a covert operator (Red Harmon) but also his family. This family involvement adds an extra layer of nail-biting tension. And the tension does not end until the last chapter. If you are looking for a totally engrossing, hard-to-put-down book, this one is for you. I highly recommend it. I received this book as part of the Goodreads Giveaway program.

John Bishop says

Great story

This is a totally different story than usual. Very complicated and has many twists and turns. Keeps you turning the pages as you don't want to set it down.

Mary says

Kept my interest from the first page to the last

Margaret Yelton says

I received this book in a Goodreads giveaway. I have never read any books by this author before so for me this was a very hard book to read and get caught up in. Maybe if I had read the other books in the series first it would have been easier to give a informed decision about the book. For me I was totally at a loss concerning the characters in the book and the storylines behind them I know the government does many things that are hidden behind the scenes that we will never know anything about. The book was well written just not for me. But I do thank you for the opportunity to read and review it.
