She's Got the Look Leslie Kelly

Finding true love can be murder...Newly divorced and back in her hometown, Melody Tanner is ready to change her life for the better. Her girlfriends think it's the perfect time to revisit the lists they came up with a joke at her bachelorette party--a list of five men they could sleep with no matter what. But when Melody looks at her list, she discovers two of the men are already dead. Worse, the homicide detective she contacts just happens to be her #1, former Marine Nick Walker!

Nick isn't taking the coincidental deaths too seriously, until the other two men on the list die suspiciously. Melody thinks the only way to keep Nick alive is to let him go. But Nick's willing to take the risk. Besides, if he does have to check out, there's no place he'd rather do it than in Melody's arms...

Linda Strong says

For Melody Tanner's bachelorette party, 6 years. ago, she and her 4 best friends decided to each write a list of the five men they could sleep with no matter what. Now 6 years later, she is single again and ready to take charge of her own life.

When one of her friends bring out the lists, Melody is astounded to learn that two of the men on her list are dead. And more surprising, the detective she speaks to is none other than Nick Walker, her number one pick on her list.

Walker isn't too worried ... until 2 other men on the list die suspiciously.

This is a re-read for me, actually I've read it several times over the last few years. This is billed as a Romantic Suspense, but it reads more like a Romantic Comedy with a little suspense thrown in.

Mel and her best girl friends are a hoot. One has been raised with super rich parents, one is a black-American, one is a dingbat and then there's Mel. She was a teen model until she put her foot down and told her mother No More! Nick Walker has a family that he is slowly learning to communicate with again. He has an ex-wife who did everything she could to destroy that family.

Mel and Nick have an instant attraction leading to some very descriptive intimate encounters. I love how all the characters enact with each other. Some areas are just plain laugh out-loud funny.

Theresa says

After reading the synopsis for this book, I was thinking along the lines of Linda Howard's Mr. Perfect but this was not the case. This was a very light, fluffy read where the heroine's never really in danger and what are supposedly side characters play almost as large a role as the 'main' characters. The 'mystery'/suspense was very easy to figure out and definitely not compelling, and the relationship between the main characters is very much based on sex, leading to some frequent and pretty graphic scenes. Although it starts out slightly humorous, it soon becomes dull and focused on the *mainly sexual and predictable* relationships between the characters.

Bottom line: If you're looking for suspense, humor, mystery or a Linda Howard-type novel this will leave you unsatisfied; if you're simply looking for a light romance novel with lots of sex this is the book for you.

Julie says

I mistook this for more of a mystery and as a consequence was disappointed overall and ended up wishing I hadn't battled on to the finish. Even though this is not really my thing story wise, I did like the writer's style

of writing and if a slightly raunchy romance is what you are looking for then you will enjoy this offering.

Katie says

This is great. She pulls out her old list of men should could sleep with no matter what. Pretty ridiculous so far. But then they start dying and she keeps being put together with her number one man.

Saly says

3.5 stars

Jane Doe says

Fun, fast read, very light on the mystery. Lots of witty banter and funny misunderstandings. Will probably read book 1, when I need a light humorous read.

Pamela(AllHoney) says

Light on suspense/mystery, heavy on the romance. Light-hearted and witty. The mystery was fairly easy to figure but there were a few red herrings that tried to steer you away.

Sara says

Melody, a former child/teen model, suddenly finds herself alone and emotional after an ugly divorce in which "the dick with the drill" got all her money. Before you know it, she's embroiled in the mysterious deaths of 2 of the men from her list she made at her bachelorette party years ago. Is there a connection?

Maria (Ri) says

I finished this fairly quick read last night. Overall, just OK. It takes quite a while to get into any of the mystery or romance part of the story. There is a nice red herring bit that made me think one way for most of the book, thinking I was so smart to have figured it all out, when, bam! That ain't it, sister. On the romance side of things, some of the sex scenes are really hot and some are a little cheesy, but fun all the same.

Shae says

Pretty good book, but the first one in the series was better. I was expecting it to take place in Joyful (the town in the first book), so I was sad when it didn't. The characters were pretty sweet, but once they fell in love, they became a little too flowery for me.

Paige Bookdragon says

What a let down.

I was highly entertained by the story of the first Walker brother (Johnny Walker; the hero, not the drink) and I was excited to read Nick Walker's story.

I shouldn't have read it.

I love Nick Walker's character in **SHE MAKES ME CRAZY**, in which the title of the first book should be entirely appropriate for this one. He was badass and the story had a lot of potential. The author could focus on Nick's life and his demons to conquer as an ex-marine or maybe, his life back in Joyful. But noooo. We have to stick to Melody's freaking list and the dead bodies connected to it.

I hate indecisive heroines. Makes me wanna snap their pretty necks. It doesn't matter if Melody's decision is understandable or totally relatable. I hate it when the story drags just because she can't decide to make a choice.

Dex and Rosemary's side story is way much better than the main H/H. And the mystery. Oh gods. Middle-grade mysteries had hooked me better than this one.

Maybe it's just me and my high expectations that killed the book. But still.. Indecisive heroine+sorry-ass mystery= bored reader.

Heh. Let's move on.

✿ Crystal ✿ - says

Kick-ass book. Nick and Melody were both scorned in love and have little faith in relationships. and love. She makes up a fantasy sex list in which all the men mysteriously keep dying. Hilarious and just plain good story. You can understand both characters so well and can easily relate, even with such a weird topic. the emotions are feel-able and way he talks to her is swoon-worthy.

Sandhya says

I loved Walker series!!

A nice, simple, romantic read!!
Would really like to try Ms.Kelly's other books!!

Ry says

Melody and Nick are two of my favorite book characters ever. Most likely because Nick is so gorgeous, and Melody knows how to wield a "deadly weapon" aka, a golf-club. Seriously, they are both messed up in very realistic ways. Mel was a child model and never really had a normal family life. She thought her marriage at 21 would be different. Six years later, she winds up back in Savannah, Georgia. Nick is an ex-marine-current-cop, who experienced a quick marriage and an even quicker divorce at the tender age of eighteen. Once burned and twice shy is an attitude both seem to share but can their similarities and attraction hold up against the sudden dropping dead of men who happened to all be on Mel's joke of a "Free Cheat" list.

Very well written, and one of the most entertaining books that I have recently read, Ms. Kelly somehow manages to add the story of Rosemary and Dex into the background. Funny,

Patricia Owens says

Pop sugar reading challenge- a book with song lyrics in the title
