## Serena Yates says

“Meeting the parents” can be stressful for anyone in a relationship, but for Liam, now firmly liaised with both Delaney twins, it is a particular nightmare about to happen. Not that he even considers denying Mark and Johnny the “honor”, but he secretly dreads what might happen. And as the culmination of this fun series, it certainly proves to be a memorable event – in more than one way.

Liam is nervous about Sunday dinner with his parents and his new lovers. And he has good reason to be: his mother is stern, stubborn, and has already caught the three men in flagrante once. His father is an eccentric artist, reclusive, and not used to giving in. Pair that with the Delaney brothers and their expectation that everyone will fall in line with what they decide, and disaster is almost unavoidable. But that isn't Liam's only problem.

As has emerged over the last two books or so, Liam has given up painting years ago because he realized he can never be like his somewhat famous father. But even though the Delaneys – and even his boss at the gallery where he works - keep telling him he should develop his own style, Liam doesn't understand what that means or how to do it. Until the particularly motivating session in his father's studio, that is. Mark instigates it, and it was certainly one of the hottest scenes I have ever read.

If you want to see Liam and the Delaneys take the final step into an actual relationship, if a scorching and sexy menage painting effort makes you curious, and if you're looking for a read that is funny, entertaining, and leaves the three lovers in a great space at the end of this series, then you will probably like this short story.

The final installment lived up to my expectations! Such a good story from first book to last.

## Isabel says

3.5\*

Hilarious, it's a shame that it's the end of this series.

*"Welcome to my family home," I said. "As you can see, sirs, I'm the sane one."*

*Johnny chuckled. "And I thought our background was pretty unique. Mind you, knowing you and having met your mother already, we should have been warned."*

*"Nonsense," Mark interrupted with a growl. "There's nothing wrong with the Delaney family. We're all perfectly normal. It's everyone else who's wrong. Though I agree with your mother in one respect."*

*"Yes, sir?"*

*"Doing something terribly sexual behind the arras—whatever that may be—is a plan I can only approve."*

**I'll never look at art the same way again.**

Especially if that art has a blue line, red on top and green underneath. This is the last installment of *my lads*, one of my absolute favourite triads of Liam O'Connell and Mark and Johnny Delaney. Mark and Johnny are meeting Liam's parents, and what a wonderfully offbeat family they are.

This is a terrific addition to the brilliant series/serial the Delaneys.

***Down on my knees here*** - Dear Anne Brooke, I really don't want The Delaneys to end...that is all.

## Ije the Devourer of Books says

Another great story about Liam and his criminal lovers, and this time a dinner with Liam's parents. It is great to read and see the quirks and personalities of the characters really coming to life on the page. A fab series to follow.

## Meggie says

This part in The Delaneys series is nothing special. This time I didn't really connect with MC's. To be sincere

I'm getting bored by Johnny, Mark and Liam.

### **Don Bradshaw says**

Liam brings Mark and Johnny to have dinner with his parents and all hell breaks loose. A great ending to a fun series.
