### **Anni says**

I remember loving this book when I was a little kid!

---

### **Moonstonesandbooks says**

This one was better than the second book, but none of them were as good as the first.

---

### **Deanne says**

I remember getting this book as a gift when I was like seven and it just started me going crazy on this series.

---

### **Reagan says**

Demetra will fix everything!

Princess Demetra hears that some goblins are trapped. She comes to rescue them. When she gets them she falls into a hole and she doesn't know that's where the goblins are trapped. Suddenly a big bear rumbles up from the earth they are so scared. Will the bear eat them or will it spare their lives?

### **Julianna says**

Read this in about a half hour. I can't believe I got so involved in the story when I was little. Now I realise there really is no story to get involved in, at least for my age.

---

### **Brittany says**

I loved reading these as a little girl

### **Lizzy Seitz says**

5.0 out of 5 stars

Loved this series growing up and still love it now!

---

### **Kim says**

I read this series as a kid and I wanted to re-read them just for the fun of it. They're simple, but cute.

---

### **Dawnetta says**

If your child can read at this level it would be a good book. A fun beginning fantasy series. The plot lines are simple and easily solved with not too much of the dark side of fantasy.

---

### **Caitlin says**

This was something I really enjoyed when I was 10. Not sure how I would feel about it now.

---

### **Abigail says**

I like this book because there are diamonds and it's kind of weird because there was a scary bear and then it became a bear that was nice.

---

### **Liana says**

This is the 4th book in the Jewel Kingdom series featuring Demetra, the Diamond Princess. The plot in this story is extremely simple, Demetra and her adviser Finley (who's a cute arctic fox) do NOT get along and have to go on a small adventure together, to save a bunch of goblins trapped inside a mountain. They learn how to work together and solve out their problems, and in the end, become really great friends.
