## **Ward** Leigh Greenwood

The freedom of the range, the bawling of the longhorns, the lonesome night watch beneath a vast, starry sky—they get into a man's blood until he knew there was nothing better than the life of a cowboy ... except the love of a good woman.

### **MARINA**

Devastated by a ruthless betrayal, disillusioned by the War Between the States, Ward Dillon swore he'd escape his bitter past and start anew ... even if he had to abandon his heart's desire. So the San Antonio doctor traded his medical practice for the rugged life of the open trail, refined society for the company of rough-and-ready cowpokes. Yet what hope, what harmony, what hint of happiness could be his without the woman he'd left behind, the beauty who haunted his dreams? And when Marina tracked Ward down on the windswept Texas plains, how could he resist the burning brand of passion that had once brought them searing ecstasy and promised the only peace possible for his embattled heart?

This is great book. I love this author. It's a different style of writing. Very unique in approach.

Wasn't sure about this story when it first started because it starts out with Ward & Marina falling in love the second they meet and getting married like literally the next day and so I kind of just rolled my eyes and almost hated continuing on (I've never really found a book I've cared for much where the characters fall in love right from the start of the story). But, I was pleasantly surprised, the book ended up actually being really good. So good in fact I literally read it in one day! And could probably have had it read in a matter of hours (In a little over 2hrs I had half of it read) if I could have sat down and read with no interruptions instead of reading it a little here and there when I got the chance.

Liked the character of Marina. Not my favorite of the series but still engaging.

I am completely in love with this series!....They are so funny and good characters.... My problem with this one is Marina's conflict with herself dragged the story at some point... I know trusting completely is a hard decision especially when it involves her future after all that she had been through... But still I hope the story didn't contain to much about her doubt and troubles.... it occupies too much...
