### Gena says

How is this series rated so high? Book 3 was about an immature, whiney (the author mentions she whines all throughout the book so this isn't me) teenage girl. The whole story boils down to Eden being treated like a princess in a palace "prison" (prison due to her self absorbed attitude) and her chasing another boy than Kiran (I hate fake love triangles). I rated 2\* due to the secondary characters which I liked.

ugh. UGH. Eden constantly needs to be assured of everything. She needs to be told how to feel and think. I don't think it is actually possible for someone to suck so much at life. Not only that, her final actions at the end were the dumbest yet, if you can believe that. She accomplished nothing and made everything else worse. Whenever she thinks on her own, things end up much worse. So infuriating! I think her cowardice was the worst part though. nothing like switching places with someone so you don't have to do anything with responsibility. On a positive note her relationship with Jericho was handled well along with recognizing her changed feelings for Kiran. However, she didn't get closure until her aunt told her how to feel.

Even though Eden commented on how it was weird seeing immortals with modern technology. I found it weird that there were no tapped phones. They had to fly all over the world for no reason. Just send a text or an email. The extent of their knowledge on technology stops at booking flights online, driving cars and barely flying planes(if I buy the livingsocial deal for an hour on how to fly a plane, I could join the resistance! I'd still be over qualified though, I have a brain.) They also fail completely at hiding themselves. Hmft some trained resistance.

So, I definitely like Eden as a MC. Something very rare in a paranormal romance. She's so realistic and honest. Also, she never afraid to be like...

i'm still hoping for Kiran. I feel like my heart is going to be broken, but a girl can always hope. Some people are definitely rooting for Jericho, but I just can't turn away from Kiran. Maybe in time.

In this book Eden really stood up (not that she wasn't likable in 1). I wasn't sure about her last decision, but I couldn't think of a really good alternative. Overall, the MC has had a lot of character development thought still staying true to her core.

HOLY SMOKES!!!!!! Next book now please! ;) Such an awesome series. Jericho is perfection. I LOVE Eden. Love her!

### **Rita says**

That was awesome, it keeps getting better and better. I don't know what to expect with the next one. Can't wait to read it. Definitely recommend this series to anyone.

Immediately we get a more independent, kick-ass, but still vulnerable Eden. She's broken but determined to seek vengeance. This makes me happy. Well that is until she starts showing weakness when it comes to Kiran. I get that they shared this great love but he kicked the crap out of your brother & has him locked up in a dungeon. If that isn't a turn-off I don't know what is?! I get that it wasn't in the script to kill him off, there's clearly more to his story but healing him was just insane behaviour. It made no sense. This weakness does dissipate as the book continues (thank fuck for that) & we're treated to some more of the feral Eden that we met at the end of the last book;

“I am not some weak girl you can woo with charming words and a sweet kiss”

“You cannot have me! I am not something to hold and possess, I am a force to be reckoned with!”

“If he sends Kiran, I will kill him on sight. I will literally rip his head off and send it back to him in a box.”

“Well I certainly could have done worse” BOOM. IN YOUR FACE MO FO.

...& finally she's starting to realise how awful he was all along;

“Why had I never been disgusted by how spoiled he was?” ... THANK YOU. FINALLY.

Kiran is pretty much mentally unhinged in this book. Constantly flip flopping between trying to woo her back and & then being hateful & evil. I just don't know what his game is.

So thank the heavens that we got Jericho back. YAY!

“I wanted an all-consuming love that encapsulated complete self-sacrifice and offered only an equal amount of love in return. I wanted to be held without an agenda and without a desperate man's motives. I wanted to be respected and have my opinions heard. I knew that Jericho was a man that would offer me all those things and more.”

“I loved Jericho in the way two people are supposed to love each other, with trust, commitment and honesty.”

I love Jericho.

I'm not sure how I feel about that ending. I feel like she's made a huge mistake but at the same time I can see how she couldn't bear to see her brother, parents & Jericho die for her. It was a tough call but at least she outsmarted Lucan & Kiran with their deal. I'm very much looking forward to the next book.

Dear God- I am really enjoying this series! (obviously as I continue buying them lol)- it's really well done, exciting and fun!

This one has been my least favorite so far (if i can even say that phrase accurately), but here's why- :)

Eden, now having to lead the Rebellion is full of piss and vinegar. She's bitter, angry and filled with revenge. I just prefer the non revenge/hateful filled Eden better. Don't get me wrong, I understand completely why she's so pissed off, but it's just sad and I hate that the anger has blinded her.

And then there's Jericho- while I like him, think that he's awesome and stuff- I am a LOYAL person. And well, I want Eden with Kiran! Jericho is safe. And I love how the author tried to explain really rationally why Jericho was a good match for her- pointing out lots of healthy, well accepted reasons for their relationship, BUT SCREW THAT! lol I want Kiran and Eden together!!! I'm a sucker for soulmates and I don't believe that Kiran is bad. (please be right, please be right, please be right)

And AVALON! I didn't realize how much I enjoyed the "twin connection" until it was gone for an entire book! I really missed their interaction and the funny lines of dialogue while other things outside of their minds were going on.

It's a lot of buildup for what's to come in the next book, but not in a slow feeling way. It's still exciting, things still happen, emotions are still pulled from the reader.

Basically, the instant I finished this book I bought the last one. And i'm trying to read it slow because I know how sad I'm going to be when this series is over.

Rachel- I love the dialogue you have written and the characters you've made us love. Who knew that I'd actually like Sebastian after the last book? This is a stunning series that I can absolutely see as movies. You rock! :)

WOW!!! I am absolutely so in love with this series!!! Addicted even!!! Can't get enough!! I love all the characters, both good and evil because they play off each other so well they story wouldn't be what it is without them!!! Higginson is a literary genius with the Star-Crossed Series!! Eden is such a strong heroine and her passion for maintaining the rights for her people despite where her heart leads her makes me love her even more!! Although I love Kiran, her star-crossed lover and also the Prince of her arch nemesis who killed her family, I am team Jericho all the way!!!! Avalon is still a hostage and Eden, still fresh from her grandfather Amory's murder by Kiran's father King Lucan, has to travel the world to gather up rogue

Resistance members so they can storm the castle and rescue her brother. Kiran still does what he can to convince her to trade herself for her brother and become his bride, but she still refuses and devises plans to kidnap some of Kiran's relatives and members of the Titans to use as a means to trade for some of the Renaissance members Kiran and his team have kidnapped. In doing so, Eden acquires Jericho, YUM!!!! God I love him!!!! I wish I could say more but I refuse to offer any spoilers!!! This is probably one of my favorites, although I am not sure if it beats out the second one, *Hopeless Magic*, or not!! I was literally left feigning more at the end, where are the second one, *Hopeless Magic*, left me with my jaw hanging open and gasping WHAT?!!?!!? Telling you, this series makes me feel like an addict!!! Plus, we finally find out more about Eden and Avery's elusive parent's, get a little bit of Lilly, and get to really know Sebastian, Kiran's cousin. I am telling you, READ THIS!!!!

### **Cassie says**

Where do I begin? Eden is an incredible character. Although she questioned it constantly, she was a great leader in the absence of her brother Avalon. She possessed all of the traits for a "fearless" individual, and the entire book was full of actions that were needed in order to save and protect her remaining family. Honestly, at the beginning of the book I was leaning towards her forgiving Kiran. However, as the book progressed I realized that his ability to sympathize and understand Eden's reasoning's were non-existent. He obviously loved her but not in the way he should have. His love turned to intense hatred because he couldn't grasp the idea of why she did anything that she did. Eden is really a great character and she is the most non-selfish individual in a story that I have seen. This author has an amazing ability to create a world like none other with characters that are truly amazing. Well done, and I look forward to reading the next story.

#### **So freaking good!**

*Fearless Magic* is the third installment of the *Star-Crossed Series*. I feel like I flew through it and now I'm so pumped to start the 4th book tomorrow. Eden kind of reminds me of so many other main characters and that's because her family means absolutely everything. She would rather give up herself than see them being hurt or killed.

She has already lost one family member so far, her grandfather, and that definitely took a toll on her. Once her brother was kidnapped by Kiran's dad, who also happens to be King of the Douches, well shit definitely hit the fan. She didn't take it lightly that this happened - so she kind of went on this little revenger bender. Taking away people's powers which backfired on her. Having that much energy was kind of draining her.

Since I mentioned Kiran, I guess I'll talk more about him. Ugh, I just didn't like him in this book. It was obvious that he wanted to use her for her powers. I completely stopped shipping them no matter what their magical hearts were telling them. Nope, I really fell for her and Jericho. After that ending, well I'm sad because I'm pretty sure there is zero to no chance of that ever freaking happening.

Overall, I really enjoyed this audio. I'm starting to like Eden a bit more with each book but I don't know how I'm going to feel after that little cliffhanger.

### **Rachel Lewis says**

[Well.... I really did enjoy this book (and the series so far). However, I recall a few times that I threw my Kindle down and walked away for a little while just so I could calm myself down. I couldn't read Fearless Magic without feeling frustrated and a little torn about Rachel's intentions for her supposed "sole mates" or "star-crossed lovers". Because really that's what this whole series is about right?! I keep thinking back to the other books and trying to figure out why Rachel

### **Jennifer says**

Eden is on her own after her brother and friends are captured by the King and her grandfather is murdered. She must find help and her parents. She travels to Peru to pick up their trail and starts to gain allies to help her rescue Avalon. She thinks her love for Kiran has turned to hate after his betrayal, but really her heart is still in turmoil, which becomes evident when Jericho reenters her life and when she has to face Kiran on his deathbed. Eden also struggles to be the leader that the Resistance needs.

Finally, Eden grows up a little! There is still plenty of hormonal drama, but I am either getting desensitized to it or it was better than the previous 2 books. Shockingly, she even THINKS a few times. I'm giving it 4 stars instead of 3.5 because the author has managed to hook me. I want to find out what happens to the characters now, even if I have to put up with Eden.

### **Lyuba says**

GO TEAM JERICHO!

I think the only other books I anticipate as much are Rick Riordan's books. After reading both book 1 and 2 in the series in one day, I was checking every day to see if Fearless Magic was released. And now I'm waiting for book 4, although I will start checking every day in January :)

Ok, I have to get a fangirl moment out of the way. OMG I TOTALLY LOVE IT!!! There, I feel better.

Eden is grown considerably since the first book, and I'm glad she had finally made up her mind about being in the Resistance. Granted, it took some drastic events for her to reach that decision, but she got there! I also literally felt like applauding about her dealing with Kiran issue, because it felt so true, so real, and so RIGHT! Can anyone in their right mind expect to find happiness at the cost of everyone in their family and friends being killed? I don't think so, and I didn't think that Eden was that kind of person. Turns out she isn't and I support her in that!

Another thing I really like is Rachel Higginson's character building, especially of the "bad" guys. They are likable! Well, not Lucan, but I don't think that he is supposed to be likable. But the rest of them make me really wonder on what will happen in the last book, and will they still be "bad"?

Overall I highly recommend this book. The writing and action grips from the very first page and doesn't let

go until the end. The characters are great and very believable, and their interactions are very real. I loved the handling of the love triangle because it was the answer to all the other books/manga I've read where the heroine always seems to end up with the main smart ass/bad ass/emo guy, who for most part doesn't appear to care for her much or mistreats and insults her at every opportunity. I can't wait to read how their love triangle will get resolved.

### **Bobbi says**

This book could have been a five like the other two if it didn't move so far away from the premise of the book. You read a star-crossed lover series about soul mates because you want to believe that there is such a thing. I routed for Kiran and Eden throughout the first two books and just when I thought it would work, the author made Kiran into someone he never was before which killed things for me. I love Jericho, don't get me wrong but he is the "safe" choice and I didn't read this series to have the safe choice. I want that head over heels, can't get enough without you and will fight to the death for you love. Jericho is sweet and all, but I fell in love with Kiran. That portion of him in India with the kids shows a wonderful person underneath the hard veneer of "Prince" that he has grown to be due to the influence of his rretched father. If Eden could just get through that hard shell and show him the error of his ways, like I believe Sebastian learned in this book, then I feel that they could overthrow his father together and make the Immortal kingdom the wonderful place it was meant to be. I truly hope Rachel gives us back what we fell in love with in the first two books in the final book. Kiran and Eden belong together

#### **Yes! Jericho is in!!!**

I liked this one ok I think the further it gets in the faster some parts happen. I wish that it wasn't sooo draggy I know that's prob not a word. This one had some interesting parts. I liked that Eden and Jericho are finally at a nice point and that Eden got to make some trades. I like Sebastian a lot more now and I don't know how I feel about Kiran. Jealousy doesn't not become him. I'm glad she decided to save him instead of killing him. I'm also glad her family is complete but that ending though...
