## Her Majesty's Dog, Volume 10 Mick Takeuchi

Despite Hyoue's protests, Amane begins the ceremony to become head of the Kamori family, but things spiral quickly out of control when Zakuro intervenes, and the identity of the one behind all their troubles is finally revealed. Painful memories from Amane's past are brought to the surface, and soon not even Hyoue can help her.

## **From Reader Review Her Majesty's Dog, Volume 10 for online ebook**

### **Cornerofmadness says**

This is the second to the last book and there is not much really I can say at this point that won't ruin the ending. It was good. If you've been following the series this won't disappoint. Amane, in spite of admitting her love for Hyoue, is still going through with the ceremony to become head of the Kamori family and to marry her cousin Hayato. Her one consolation is her beloved uncle who has raised her like a daughter will be there.

However, all the Machiavellian scheming has come to a head and betrayals are found at many levels. Amane's past is finally fully revealed and her pact with Hyoue is threatened, something that might cost her, her life.

### **Solace Winter says**

There is not much to say about this particular novel that would not give too much storyline away. If you have enjoyed the plot up until this point you will enjoy the penultimate novel. The "who" behind the attacks is finally completely revealed and the set up for the final showdown leaves us anxiously waiting the next, and final, novel in this series. Beautifully drawn and created it will be sad to see it end and yet I'm looking forward to the resolution.

---

### **Mely says**

Happy to see emotional confrontations and fall-out; some of the plot stuff was a little abrupt, and the intrusion of the ordinary life/annoying actor schoolmate stuff was just too much.

---

### **Hannah says**

Series Review: He Majesty's Dog is a unique and entertaining manga that is well worth the read. It is funny and lighthearted while keeping a series plot. The characters are amazing as they each have very different personalities that work wonderful together. I definitely recommend giving this manga a try!
