Howling For You Chloe Neill

Jeff Christopher is a shapeshifter and ally of Chicago's Cadogan House of vampires—he's also a tech whiz and mostly-legal hacker. And the only protective shields he's never been able to find a way around are those of the powerful Keene Family.

For a long time, Jeff has only had eyes for the beautiful Fallon Keene. Unfortunately, she is the only sister of the lethal North American Central Pack Apex Gabriel Keene. The intricate balances of power and politics make it all but impossible for Fallon to trust her feelings.

But fate takes a hand when the Pack's totem is stolen—threatening the Keene family's rule—and Fallon enlists Jeff's help to retrieve it before the Pack is thrown into chaos. Can she and Jeff find the totem, and restore order, before it's too late? And will Jeff finally be able to prove himself to the only person he truly loves?

3 Stars!! I'm disappointed...30% of the book was a preview of the next book in the series...I paid for Jeff and Fallon's story!!

I waited so long to read more about Jeff and see how his relationship with Fallon would play out, and while I enjoyed most of it, it could have been so much more. It barely got off the ground and then it ended. What I did enjoy was getting a peek into The Pack and finding out more about the chain of command. They've been somewhat of a mystery in this series, one that I wanted to find out more about, and it satisfied some of my curiosity, but not nearly enough.

I wish the author had dedicated the entire short to the characters that this book was supposed to be about, and left the preview chapters to be read on her blog, or to sample on Amazon! I'm sure a lot of it was the publisher's doing...KA-CHING!! \$\$\$\$\$

A cute short story about one of my favorite characters in the Chicagoland Vampire series: Jeff. Dorky, gamer, computer genius, and completely lovable. Jeff is always funny and light-hearted in the series. He is also a shifter who turns into a tiger. And, that's the problem, because the girl he loves, Fallon, is a werewolf and the next in line to inherit the throne. She's a were-princess, I guess. That's even cooler.

wrong name, right image...

Fallon is a badass werewolf princess.

"you're not at all what I expected."

"What did you expect?"

"A debutante, I guess...Less serious. More giggly."

"I'm definitely not giggly. But I can kill a man in forty-two different ways."

You go girl!

So, the problem is that Jeff and Fallon are not allowed to be together. Being different species in their animal forms. It seems a little racist.

Pack protocol - pack tradition - said shifters who transformed into different animals shouldn't be together.

Sheesh! Of course mixed marriages are wrong! Next thing you know they are going to want gay marriage or something..... oh, oh yeah.

oh shit, all hope is gone people! Look at the horrors that gay marriage will rain down upon us!

There is also a "mystery" in this short story. But, it is pretty lame. If it wasn't for being a Jeff-book, it wouldn't fly. But, since it is Jeff, I'll allow it.

When shapeshifters first appeared on CV, I wasn't fond of the new storyline. I'm just more of a vampire girl, what can I say? But I have grown to love the Pack, and Fallon and Jeff are no exception.

I honestly really liked this novella, it was just very Chloe Neill and this world, regardless of the lack of vamps. Fallon is badass and I'm as immune to Jeff as everyone else, which is not at all. However, he just will never compete with Ethan for me. The blonde can be damn annoying, but he's my type of annoying.

Which will win out - pack tradition or love?

Likes:

- I've always liked Jeff so it was great getting a story about him.
- Same with Fallon - it was nice getting to know her better.
- Loved the Keene family and all their interactions. Would definitely like to get to know some of the other brothers better!
- I enjoyed watching Fallon try to figure things out.
- The coronet plot was intriguing but mainly I liked that we got to read about Jeff shifting and fighting.
- Who knew Jeff would be so romantic?

Dislikes:

- The story was way too short.
- I didn't like that it was from Fallon's POV. I guess I was expecting Jeff's.
- I also didn't like the reason that kept Fallon and Jeff apart.

Overall:

I was glad to get *something* about Jeff. It was great seeing this side of him instead of just the techno nerd.

Favorite quotes:

♥ “Every time I breathe, I breathe for you. Every time I speak, I speak for you. And every time I howl, I howl for you.”

♥ “I love you, Fallon Keene. I’ve loved you since the moment I saw you. And I will love you every day and night for the rest of my life.”

♥ "Sweet and geeky Jeff, lover of games, knew how to move."

♥ “And what ideas are those?”

“Costumes.”

“You’re not serious.”

“Princess Leia. Wonder Woman. Silk Spectre. Mystique. Hit Girl. So many options.”

“I’m not putting on a costume to satiate your prurient fantasies,” I said, lying back on the floor again.

And then I thought about who he was, and who I was, and our kind of romance. “But if you’re willing to play Bruce Wayne, I might reconsider.”

I really like Jeff and I think that Neill could do a break away series on the shifters and have many many followers. Jeff is one of those fun loving, hold you close and love to live kind of guys. Reading about him and Fallon was interesting and I could actually go for more of it. Maybe Chloe was testing the waters with this little piece of delight. We shall see if she takes it anywhere.

"Howling for You" is Fallon Keene and Jeff Christopher's story in the Chicagoland Vampire Series.

The two have always been attracted to each other; but, since Fallon is second born and next in line as Apex for the Keene pack she is forbidden to take a mate other than that of a potential. Unfortunately, because Jeff is not a potential, he does not qualify.

It is the eve of the coronation for Gabriel Keene's son to be crown; so, the cornet has been delivered for the ceremony. However, that same night it is stolen. Gabriel immediately puts Fallon and Jeff on the case. If it

falls into the hands of another pack it could be the downfall of the Keene's dynasty.

If I am to be totally honest, I will admit that the past couple of Chicagoland Vampire Book have been hit or miss with me. Unfortunately, Howling for You is just a middle of the road read. It was neither good nor bad. The chemistry between Jeff and Fallon was just okay and the love making was lukewarm at best. I don't care how an author has the characters proclaim, "Oh, that is amazing," if it isn't written amazingly or hot, it is just lip service. Sorry, Ms. Neill but you need to work on your sex/love making writing style.

Shapeshifter Fallon Keene is second in line to become the leader of the North American Central Pack. She takes her duty seriously. Therefore, she is willing to date various wolf shifters that her family trots in front of her, even though her heart is taken by Jeff Christopher, a tiger shapeshifter who is also her best friend. When the Apex Crown is stolen, Fallon and Jeff work together to find the thief before the Keene family is overthrown as the leaders of the pack.

This novella is a spin-off of the Chicagoland Vampires series. The theme is love vs. duty. I was highly entertained by this story. Just wish it could have been a lot longer. My rating: 4.5 Stars.

Spoilers

-Fallon and Jeff's novella.

-The plot was fairly entertaining but I wasn't impressed with how predictable it was. There weren't any twists or turns - I knew who the bad guy would be, I knew what he was going to do, and I knew what his cliched motives were. It was all so obvious.

Also, Fallon and Jeff's romance played out exactly how I expected... It was still nice to read about though.

-Fallon and Jeff were both likeable - I preferred them and the shifters over Merit/Ethan and the vampires — they were far more interesting... Or maybe they just seemed that way because I'm utterly bored of Merit and all her repetitive vampire drama.

-I enjoyed the romance, it was a tiny bit angsty because Fallon/Jeff weren't allowed to be together due to them being different types of shifters and Fallon having to mate with another wolf as she was next in line to be alpha. It was a bit anti-climactic when they decided to break the rules and get together — the whole pack was happy for them and Gabe was cool with the relationship. I guess there could be no drama or conflict since it was a novella and everything had to be tied up neatly.

-I think I would have preferred if the story had instead focused on Fallon and Jeff actually falling in love instead of them already being in love - I kind of have no idea why or how they fell for each other.

-I was pissed that Fallon had to give up being second in line for alpha just so she could be with Jeff. I'm sick of the amount of female characters not being able to have both power and love, they always end up having to choose one or the other. Ugh.

-Gabe was meant to be an intelligent and cunning alpha so why was he so daft (or so bloody unaware) that he talked about the one-of-a-kind-uber-important-powerful crown in front of someone he barely knew?! It made him seem incompetent and dumb.

-I'm bored of the amount of UF/PNR characters that bang on about their love for coffee. It annoys me now whenever a MC mentions how addicted to caffeine they are. Who cares? It's not endearing or interesting to read about.

-Fallon and Jeff were a cute couple, I hope they feature more in the main novels - I'd rather read about them than Ethan/Merit or Catcher/Mallory's lame relationships.

This was an entertaining enough story, if **very** short.

I was expecting a story from Jeff's POV and was very pleasantly surprised when it turned out Fallon was the narrator. I really like her character and I hope we get to see a lot more of her in CV instalments to come.

The plotline in itself is a bit on the light side, focusing on Fallon and Jeff's relationship (and why they can't be together). There is some light investigating going on after the Keenes' crown is stolen, with Fallon and Jeff trying to retrieve it.

What I liked best about *Howling for You*? Definitely Fallon and the Keene family: I've always loved Gabe and Berna (here she is reading *Twilight* for the 14th time!) and now I'm adding Ben to the list as well. This pack really deserves a series of its own!

One of the main problems here is the lack of chemistry between Fallon and Jeff. It was alright but the sparks were far from flying, light years away from Methan! The final love scene felt really meh and terribly unexciting. Jeff doesn't shine as much here as he does in regular instalments of the series, he doesn't seem to be the same person at all.

I also have to say I was very disappointed by the shortness of the story. It only takes up 60% of the book when the rest is a preview for *Some Girls Bite*... I turned the page expecting the story to continue but no,

that was it... Annoying to say the least!

I guess (and hope!) we might be seeing more of Fallon in the main CV series and this short story does help to know her better. Howling for You is a nice enough read but nothing out of this world. For hardcore CV fans only!

Fallon is the sister of Gabriel Keene and she is second in line to become Apex (leader) of the North American Central Pack. As much as she has feelings for Jeff she knows she can never act on them because there is no way a tiger shifter would be considered an acceptable mate for a potential Apex. When the Apex crown is stolen, threatening Gabriel's hold over the pack, Fallon and Jeff have to work together to try find the culprit before anyone else realises what has happened. Can Jeff use the time they're forced to spend together to convince Fallon that he is worth taking a risk on?

I have loved Jeff since the beginning of the series so I was excited to find out that **Chloe Neill** had written this novella starring him and couldn't wait to read it. We've met Fallon in previous books but she wasn't a character I was particularly invested in so I have to admit I was surprised to find out that the story was written from her POV. I'd been hoping for Jeff's POV since he's such a fun character and I'm going to admit it was a bit disappointing to have someone else narrating the story.

While this novella was a fast read I have to say it wasn't as good as I expected it to be. Firstly I was disappointed to find that the story finishes at 58% on the kindle version so rather than the 102 pages I was expecting you actually get less than 60 so it's over very quickly (the rest of the ebook is sample chapters from other books in the series). On top of that the story didn't have the humour that I expected knowing Jeff was a main character, his personality has always shone in previous books but it felt lacking somehow in this novella. It wasn't until the last few pages that I finally thought we were seeing the Jeff we know and love so you can imagine how shocked I was when the novella abruptly ended at that point.

I'm not going to say I hated this novella but I don't think it was worth the money I paid for it and I was left feeling disappointed. I still love this series and I'm looking forward to reading the next book but I'm sad about this story because I think it could have been so much better.

FYI:

You can read a deleted scene from Howling for You (written from Jeff's POV!!) on Chloe Neill's website here: <http://www.chloeneill.com/?p=4060>

I fell in love with Jeff from the beginning of the series and I was quite excited that he was going to get his story even though in a short novella.

I was so disappointed. We don't get much about him really....it's not even from his POV but Fallon...half the story is the set up for the next book in the series. And the first half????

Well, apart from knowing he's a tiger shifter, that he's in love with Fallon, sister of Gabriel Keene and second in line for the Apex position of the North American Central Pack, who is a wolf shifter....which is a taboo pairing....we saw nothing of his funny side!!! It was all serious business here!!!

Jeff and Fallon spend their time as star-crossed lovers...something like Romeo and Juliet lovers....he trying to sway the shifter pack to accept him and she to decide what she must give up for her love for him. In between they run around trying to find the very important and stolen pack crown.

And just when I started to get into their story....and having warmed up to Fallon being Jeff's true love.....we have another story going on!!!

I wish that this story had been more about Jeff....I did not get enough of him.

Now, looking forward to Wild Things, the next Chicagoland Vampires adventure.

I love Jeff, but this was B-O-R-I-N-G. Snooze-fest and then cheese at the end. It's not even told from his POV. The beginning is a bunch of boring filler about the pack's family and I don't know how many times Fallon says "Jeff is not for me," "We can't be together."

I thought I might like this because I love Jeff, but no.
