THE MOMENT DETECTIVE SCARLET ANNE MARTINS stepped into that prison, her resolve began to wane, a struggle she had long forgotten between heart and head. Unable to deny it any longer, the feelings she had for Alaric were strong—and her desperation to save him, would ultimately be what would killed them both.

For a super cop, her judgment in men truly failed her. But while her life, and anyone's who tried to stop her was in mortal danger, she had to forget every single detail about Special Agent Blade. Her primary focus was getting through the next twenty-four hours without killing anyone.

Thereafter, her purpose would be to find a way to put behind bars those who were framing her for murder, and the bombing in New York City. It would prove to be an almost impossible task, since she had become a fugitive in a foreign country.

This time, her drop-dead gorgeous looks and South African accent would work against her in every way—she would be recognized in a heartbeat on the streets. With nowhere to run, she made the decision to face the peril head on and ensnare the evil that was coming for her, and the only way to do that was by giving them what they wanted.

Emerald Barnes says

Infallible is a suspenseful, keep you on your toes read! Scarlet Martins is a fiery South African detective who works at the NYPD; Agent Blade is the FBI agent she loves to hate. Together, they're faced with deception, tension, and lots of action!

I loved watching these two characters fire off at each other, building up the tension between each other, until you just wanted to yell at them to kiss already!

There are plenty of surprises, twists, and many turns in this high paced read! Loved it! I'm hoping there will be a book two!

This was a nicely written book following the adventures of the south African, now NYPD, detective Scarlet. The story gets really interesting after the first quarter or so. It has a good mix of suspense and intrigue.

Omg I absolutely love detective stories. I put this right there with Mr P himself!!!

This was so well written and it had all the action and twist and turns one could hope for. I did not put this book down. The characters where incredible. I loved Scarlet who comes from South Africa and ends up in the Big Apple. Of course she has a rather hot partner Mr Blade who she secretly crushes on. Will it pan out. This book is kinda two mysteries in one book!

Infallible by Bailey Quinn is my first try with romance crime novel, frankly, I wasn't sure with this combination but was excited at the same time to see how it turns out and this is book surprised me, action, suspenseful, realistic, I just loved it.

Detective Scarlet Anne Martins, an investigator working with the NYPD until being charged for terrorism which she must uncover evidence so as to put those who had set her up behind bars. Detective Martins is not in a position to trust anyone, not even Agent Blade, FBI who appears as a guardian.

The story line is fast-paced and action packed with lots of surprises twists keeping you glued to the story. Scarlet is a fugitive in a foreign country, needs to prove her innocence by uncovering evidence avoiding capture by the police or the criminals without official support against a fast ticking clock takes this story-line to another level. I enjoyed the protagonist's relationship, a tenuous affair for the most part of the story but may be less enjoyed for those who are in search for more "steamiess".

Overall, this is a great read, a perfect balance of romance & crime genre with a fast-paced, action-packed and realistic story line with lots of surprises and twists. I really wish there will a second book. Highly recommend especially for late teens and early twenties readers.

This book is about Scarlet a super cop who works for NYPD and from South Africa, like our esteemed author, who is trying to save Alaric the FBI agent who she loves but pretends to hate and to find out who is framing her and put them away. I love Scarlet and Alaric their dynamic is great. It has some twists. This was a great book that I'll definitely read again

Genelle Themann says

The life of a cop is difficult, but even more so when the cop is a beautiful woman. Seems no one takes her seriously...her fellow police officers or the perps that she faces. But make no mistake, Detective Martins is a different breed of cop. When she is partnered with an equally attractive FBI Agent Blade, sparks begin to fly...literally. They continuously butt heads over how to handle the case of serial killer Bane. Then things just blow up in their faces.

I LOVED this book, especially the interplay between Martins and Blade. The PUSH-PULL of their relationship really carried the action throughout. I would have given it 6 stars if possible.

This is my first read from this author. The characters and story line were nice and the pace of the story was fast enough to keep it going but not so fast I got lost. I enjoyed it and look forward to reading more.

If you like non stop action and suspense, this is the book for you. With every answer comes a whole new set of questions and every time you think you know the answer a new twist leaves you in the dark again. This is a great, action packed, read and a definite must. Scarlet is a woman with a lot of scars, but also with a lot of heart and a lot of guts. Alaric is a protector with a few emotional scars of his own. Together they are magic and give this book just the right amount of romance.

Infallible was a great book with tons of action and suspense. Scarlet is a detective from South Africa who goes to work at the NYPD. She is assigned to work with Agent Blade. She secretly has feelings for him but pretends she doesn't like him. they are working on a case that isn't easy to solve. They have a relationship filled with twists and turns, surprises, and some pretty steamy chemistry.
