Nameless Marni MacRae

A young woman awakes in a field with no memory of how she got there or who she is. Struggling to put the pieces together from a past just out of memory's reach, Eve finds a new name and a new beginning in Brighton Valley. But no matter how safe she feels or how much she grows to love the people in her new life, Eve knows her past holds a secret that may destroy her chance at happiness.

Driving along highway 83, Nick happens upon a girl on the side of the road. Soaked to the bone with rain and battling back fear of a past she can't recall, Nick is drawn to the strength of soul and frail beauty the young woman possesses. Naming her Eve to help her fill the void, Nick finds he cannot resist the draw to know her, protect her. But the closer he gets to the sweet, mysterious, Eve, the harder it becomes to let go. And he knows he must. For Eve cannot truly be his until she confronts the demons of her past.

Nameless shows us the heart of what family means, beyond blood and name. How one person can affect so many, changing hearts in the process of finding her place in the world. Can Eve choose love with an empty slate? And if her memories return can that love endure the choices they bring?

Shanna Swenson says

This intriguing tale of a woman's journey to literally find herself will leave you speechless, spellbound and in tears- both of joy and sorrow, but mostly joy ;-)

Open scene with a rainy, cold night in a corn field, alone with bare feet and complete loss of memory- that is where Marni Macrae drops you. From there, the reader is plunged into a mysterious and heart-warming story as Eve tries to remember who she is, as her memory is completely gone. She has awoken in Brighton Valley, Kentucky and is rescued on the road by a handsome and compassionate man, Nick Donovan, who has the patience of Job. His need to protect her is endearing.

Eve was absolutely adorable and brings out the precocious inner child in all of us. Over the course of the story, she meets an array of sweet and lovable characters, including a telling of the beautiful side story of love and loss of Ezra's. I was taken with the romance, the suspense and the community in this book. It was very beautifully written and depicted.

I loved Nick. He was strong, passionate, and a wonderful hero for the story. I was especially taken with Tuck for obvious reasons...spoiler- he's a cowboy.

Nameless had all a romance reader could want- laughs, tears, anguish, love, family and intrigue. I was especially drawn in by the major twist at the end. All in all, I loved it and thoroughly enjoyed how well it was written. Marni Macrae is a great writer and I look forward to reading more of her works.

Loved

Loved this well written, intriguing romance with a mysterious side plot. The characters and setting are well developed and interesting, and the love story makes the reader want to keep reading to the end. Great book.

My Musings

Wow, just wow. Loved Nameless from the first page to the last! The characters are vibrant and the plot is emotionally charged with plenty of heart ❤. Thanks go to the author for reaching out to me and letting me know about her amazing book!

Eve is enchanting and her wonder at everything new had me chuckling on multiple occasions. Her open, loving way stole my heart. Eve was so broken in the beginning but by the end she is a vibrant, fascinating woman who knows where she belongs.

Nick is such a fantastic hero. He's so patient and kind but still a strong, honorable man. His unconditional love and support for Eve is remarkable. It takes a great man to love so selflessly. He is will to sacrifice all for Eve.

The romance, while very swift, is tender and filled with deep emotion. Eve and Nick fall for each other immediately and it only grows stronger throughout the book. I truly wanted them to find their happy ending.

The secondary characters are heart warming and real. I am so glad I found this wonderful book. I highly recommend Nameless to all who enjoy a romance with engaing characters and one that shows a strong woman's path to finding herself. This is definitely not a typical romance but so much more. It's a story you don't want to miss. Happy ?reading ?!

So sad so happy ?

So loved this book. Sad but also so uplifting. Could not put it down. Yeah for true love! I hope Marni writes more.

An emotional and thought-provoking read. I read this book in one sitting. That's no joke. My brain actually shut up as I got lost in the story of a tragic girl who loses her memories and ends up on the side of the road where anyone could have taken advantage of her. Lucky for her, Nick is the one who finds her. He is just about as kind and compassionate as a man can be and instantly feels a connection to her. The entire town takes this nameless girl under their wing as they search for the missing pieces of her life - not realizing the tragedy and horror they'd find once they unraveled the secrets.

There's an underlying theme in this book, at least to me. Our memories don't make us who we are. The things that happen to us can shape us to an extent, but strip it all away and you get to the real person. Eve is kind and brave and smart. She's been through so many horrors and even when she finds out the extent of the lies in her past, she is still the same girl. That's how it was so believable that she and Nick could fall in love while she didn't even know who she was.

The writing style flows with ease and grace, shifting between POVs seamlessly. If I had one beef with the book it'd be that I felt like I was robbed of my emotional payoff a bit at the end. There's a moment, a

meeting, that I was waiting to see happen. I was so excited because it was sure to be an emotional one. But then it was skipped and the next chapter picked up months later.

It's okay though, the rest of the book had emotion to spare.

Kelly Boettcher says

Loved this book! Though I am not really a fan of books told with multiple POVs, I still could not put this one down. Eve's progression was so vivid you could almost feel her fear and confusion. I think that the resolution was rushed a bit, but I would still give this book 5*s.

Talie Hawkins says

Nameless should come with a disclaimer that says "one you start reading you won't be able to stop"! I was immediately pulled into Eve's world and I wanted to solve her mystery as much as she did. You start her new life with her, in a strange town full of good strangers who surround her with kindness. The steady pace of this book makes you feel like you know the characters personally and I caught myself gasping put loud during a few of the surprising twists! The end was an absolute curve ball, but in the very best way. READ. THIS. BOOK. !

J.D. Park says

Nameless is a captivating tale of a young woman trying to find out who she is when she wakes in a field with no memory of how she got there and no idea who she is. When she is found wandering down the highway by the small town's most eligible bachelor, Nick, a friendship is formed and desire to solve the mystery of where she came from and who she really is, begins.

This story had a fantastic set of main characters and an unbelievably lovable supporting cast. The small town support for the girl they have dubbed Eve is genuinely inspiring and makes you wish you could spend time at Annabelle's May Day to get to know them better.

Watching the relationship between Eve and Nick progress from savior to friend to more was so emotionally charged you couldn't help but wonder what would happen if or when Eve found out whom she used to be.

Some memories are better left forgotten and Eve needs to decide who she was and whom she wants to be with or without her memories. With Nick's help, Eve realizes she is much stronger than she thinks she is and that she can overcome anything thrown her way.

Marni MacRae told an amazing story that had all the critical elements of a great romance novel: Hope, heartache, chemistry, friendship, and love.

If you are looking for a beautiful story filled with love and a little mystery, I would highly recommend this book, and I can't wait to read her other book, Lady Sun.

Debby says

Cute, easy book for light reading. Not a lot of substance.

Patrick Hedges says

It's been a while since I read Marni MacRae's *Lady Sun*, but I remember clearly loving the pants off that story, so when I heard she had a second book out, I immediately picked up a copy and tore right into it. I was not the least bit disappointed.

A girl is found, wandering a cold, rainy Kentucky highway, shoeless, shivering, and with no memory of who she is. She is picked up by Nick, a good-hearted construction worker who immediately finds himself drawn into her plight. She doesn't even remember her own name, so he christens her Eve.

I fully expected that the story would be an investigation of exactly who Eve is, where she came from, and what caused her to lose her memory. And while that was part of the story, it was by no means the most significant part. Rather, the story centered on Eve's insatiable curiosity and how her sudden appearance dramatically affects those around her. She joins the small community of Brighton Valley with the innocence of a child, completely ignorant of things like cell phones and Starbucks and the Internet, things the rest of us take for granted. But more than that, the characters that Ms. MacRae placed around her are drawn into Eve's story as much as I was.

This story repeatedly warmed my heart and then broke it as it alternated between happy, sweet, funny moments and sad, traumatic ones. I found myself turning page after page, anxious to see how the mystery would resolve itself. The ending left me completely satisfied, and anxiously awaiting whatever marvelous story this author puts out next.

Annalise Grey says

Man, what a fantastic and tragic story. I cried toward the end and needed to take a break for some tea because it dives into some dark territory that is basically every parent's worst nightmare. I'm feeling kind of emotionally wrecked now. The love story aspect is stellar. Sweet and beautiful. Nick was such a perfect match - kind and patient, loving and strong. I loved that Nick builds homes. (And, I will say that truss day is my favorite day, too. LOL) Read it, love it, and grab some tissues. You won't be disappointed.
