## On Fire Sylvia Day

From Sylvia Day, the #1 New York Times bestselling author of the Crossfire novels, comes On Fire, a novella of the Shadow Stalkers--where it's futile to resist arrest or the power of a man with a badge. Just surrender. After all, you look so good in handcuffs...

Every time she opened her mouth, his mind went straight into the gutter...

When Deputy US Marshal Jared Cameron started investigating a series of arson attacks in the small seaside town of Lion's Bay, he had no idea that the biggest blast of heat would come from the fire inspector. Her name was Darcy Michaels--and if there was anyone that Jared wanted to get down and sweaty with, it was Darcy.

Darcy knew what she was bringing out in Jared. In fact, she liked it. She reveled in making his dirty dreams come true. Stripped down for a scorching after-hours affair, Jared was her fantasy, too. A hard-driving man who knew exactly what to do to please her. But as hot as their nights were, they had no idea just how wild it was going to get. Because Darcy has a secret. And a past. And it's drawing them right into the flames...

## On Fire Details

### **Rachel- Goodbye Borders says**

Darcy is a fire inspector in a small town investigating a series of arson incidents. Each is a place that Darcy is tied to in some way. After the third, she calls in for help. Jared, a Deputy Marshal arrives and is hot on the case. Insta-lust also flares up.

This was decent. Very heavy on the sex, but it also had a plot. I liked Darcy's vocation, different for a change. She also saved herself towards the end, so mad props to that. Jared was also likable, and I liked that he had moments where he was distracted.

I would have liked more on the mystery and Danielle. The suspense element could have been better. Everything was wrapped up, but \*more\* would have been wonderful. The "why" was lacking IMO. But, this did have halfway decent plot to all the sex that was happening on the page.

### **Maharet says**

Una trama tinta di giallo, raccontata in modo superficiale fa da sfondo a scene di sesso, è il genere di romanzo che mi irrita, quando cioè viene raccontato tutto in fretta per arrivare al momento clou... il sesso... infatti in questo caso inizia il romanzo con un accenno al piromane che ha già colpito, poi ecco che nel giro di un paio di capitoli arriva il sexy agente FBI, si incontrano e in poche ore sbrigano in fretta alcune indagini per poi fiondarsi a letto per smaltire la tensione (lei poi era molto molto preoccupata per la sua cittadina...), lui da subito è geloso, neanche la conosce ma già emerge il cavernicolo che c'è in lui.... quando leggi un erotico e inizi a saltare alcune scene interminabili di sesso vuol dire che nel romanzo manca qualcosa che riesca a renderlo davvero coinvolgente... non c'è atmosfera, non c'è approfondimento dei personaggi, è tutto accelerato

da [www.sognipensieriparole.com](http://www.sognipensieriparole.com)

Se avete bisogno di una lettura rovente, ma proprio rovente Sylvia Day è la soluzione.

Se ancora non ne siete convinti dopo aver letto la trilogia di Crossfire, anche questa novella più contribuire a

confermare la mia tesi.

Intanto si parte con un personaggio femminile tutto sommato inconsueto. Anziché mettere al centro della scena il solito Adone ricoperto di miele, a Day ci piazza una donna bella (ma che non conta ogni stramaledetta caloria che si mette in bocca), disinibita e parecchio sicura di sé, un'ispettrice dei vigili del fuoco abituata a studiare da vicino incendi e atmosfere roventi e perciò anche a gestire gli uomini che le ronzano intorno, come il nuovo agente federale sceso in città.

Da qui una girandola di incontri fisici senza sosta, al limite della verosimiglianza, perché i due sembrano fatti di gommapiuma e non di carne soggetta a stanchezza e usura.

Il tutto in una trama pseudo-poliziesca, talmente in secondo piano che si vede subito che non interessa a nessuno.

Ho un problema con la Day: per quanto adoro lei e i suoi libri hanno quel qualcosa che mi fa dire: "che schifezza è mai questa!?"

A parte il linguaggio molto scurile in certe parti e la storia bella e abbastanza intrigante ma fin troppo breve questo libro non è brutto ma c'è molto ma molto di meglio

SPOILER (non riesco a trattenermi)

Cioè tu ti trasferisci dall'altra parte dell'America con uno conosciuto una settimana prima e che non ti ha detto manco una volta "ti amo"?!?!???

Scherzi?!?!

Diamine Darcy!!!!

### **Dα?ujα says**

**On Fire has an apt title.** The main characters certainly behaved as if they were on fire for each other, and it was a series of fires that brought them together.

This was actually my second time reading this story. I first read it a couple of years ago as part of *Hot in Handcuffs* anthology. It was the story I liked best in it. It was also a time when Sylvia Day's books and I got along so great. Now my tastes have shifted in other directions, but still I wanted to read this series, and even re-read this one. For old times sake, I guess, and because I needed something on the lighter side to read. But, as was to be expected, **I didn't enjoy it quite as much as the first time.**

**Darcy Michaels is a fire inspector**, and when a series of fires went without getting any closer to identifying the arsonist, she called for outside help, and as fate would have it, that outside help included a man who'd soon set her body on fire, give her countless orgasms, and become very important to her that she couldn't imagine her life not including him, and **that man's name is Jared Cameron**. By soon I mean really soon, as in mere-hours soon that it all started, but somehow Ms. Day wrote these characters and the connection they felt that it all seemed natural.

**On Fire is the longest Shadow Stalkers story**, and while the others were about characters who had a history, **here we have MCs meeting for the first time**, so it's a good thing they had extra pages to develop their sizzling relationship. Jared and Darcy didn't waste a minute, and if I can say one thing about Ms. Days books, it's that they pack a lot of heat. For the most part, I like it, but honestly, after a while the whole "Oh, you're so tight" and "You're so big" and "You make me so hot" and whatnot talk gets to be a bit too much and rather annoying. Dirty talk is fine, but I would prefer it smaller doses. The same is with overly detailed descriptions. Nevertheless, **Darcy and Jared were hot together**, and I will give credit to Jared for only calling Darcy "baby" once. I wish it was none, because that is one of my big pet peeves, but I can live with once.

**Bigger page count also allowed for some mystery and suspense to be a part of *On Fire*.** As I said it was an investigation that brought Darcy and Jared together, and it uncovered some interesting connections to a past crime, which ultimately put Darcy in danger. **It was interesting reading that. I didn't blow my mind or anything, but these stories, I believe, are mostly to have fun reading them, which I did.** But now I think I'm ready for something different.

After almost two dozen titles by Sylvia Day, including contemporary, historical, and paranormal books, I can safely say that **of all of them I liked her historicals best.** I hope she'll write more of those. Until then, excluding *One with You*, I really don't see myself reading her books any time soon.

\*\*\*This review is also posted on Way Too Hot Books blog.\*\*\*

### **Rachel says**

This is currently the last in the U.S. Marshals series. The book is well named, not just due to the steamy scenes but the arsons plaguing a small town. There was almost no connection to prior characters, but it continues the theme of Marshals and is just mind candy. In some ways, it is like a Bugs Bunny cartoon – simply there for entertainment without being heavy on meaningful content. (\*wink\*) I read the ebook. 4/5

---

### **Nicole says**

Ok this name does not do this book justice. I should have kept a hose close by with the way this one lit me on FIRE. I found myself keep notes & highlighting my favorite lines. I wrote one note as the best line. This is Jared describing just meeting Darcy "She was hot monkey sex in a brown paper wrapper."

I think at one point I highlighted 2 entire pages. Sylvia day writes oral sex with such a ferocious passion that I was biting my lip so hard I tasted blood. I'm going to quote again and yes it gets dirty, NC-17 dirty so hold on to your panties..."I'm going to shove my tongue into your tight little hole and tongue-fuck you so often you'll feel strange when my mouth is not buried between your legs."

Lots of dirty talk in this book and sex takes it up a notch on the kink factor.

---

### **Yuli Atta - Damaged Pages says**

I pretty much enjoyed this one. I missed Sylvia Day's writing and her books in general. I needed just that after the *Shades of Magic* trilogy that almost got me in a book hangover.
