Sin Sharon Page

Venetia Hamilton is no stranger to erotic art - her father's lush paintings are one of society's secret pleasures. But Venetia has never experienced true desire. Not until she meets Michael Wyndham, the Earl of Trent - a powerful man who holds her future in his hands and awakens her curiosity with one searing kiss. His expert touch is only the beginning of her carnal education, but something more dangerous than submission may be the price she pays for such unimaginable delight...

Rating: 4.5 / 5

I have to admit, that most of the time when I read an erotic romance (whether contemporary, historical, or something else), I only read a few chapters at a time, then go read something else. Because no matter how hot the book is, or how well written, I get a little bored with the non-stop sex and negligible plot. *Sin* by Sharon Page wasn't one of those books. Once I got into the story (it starts off a little slow), I was hooked and stuck with the book instead of switching off to a non-erotic book.

Sin is the first book in the Hamilton Sisters trilogy, which is a series about three sisters who are the illegitimate daughters of an erotic artist in early 1800's England. This first book is about the oldest sister, Venetia. Because her father can no longer paint (arthritis in his hands?), she's taken up his passion - painting erotic scenes and publishing them under her father's name. On the surface, Venetia is an innocent young lady, but beneath that lurks a passionate woman wanting to try all the things she's painted. But her secret life has drawn attention. Marcus Wyndham, Earl of Trent, is soon knocking at her door, demanding she cease painting because little did Venetia know, but the man she often painted is a dead ringer for Marcus. Worse, though, she's drawn the attention of a blackmailer who managed to seduce Venetia's father out of his secrets - that he can no longer paint and his daughter is doing it for him. Venetia's dreams of becoming a painter and becoming independent are crushed. If her secret comes out, everything she's wanted will be gone. She pleads with Marcus to help her seek out Lydia, her blackmailer, so she can beg the woman to stop. Venetia has no idea that Marcus himself is another of Lydia's victims. Soon, the two find themselves at an all-out orgy party in the country. Surrounded by debauchery, the two surrender to their passions. But there's no way they could be together past this time of sin - or so they believe.

What to say about this book? For one thing, it's prudent to point out it's not for everyone! There's a little bit of everything in this book, sexually speaking. Because it's pretty much an all-out orgy with various combinations, acts, and anything else you can imagine. So if you're just looking for some basic hot sex, this might not be for you, but if you've got a high kink-factor, then you'll probably like this one.

Aside from the super HOT sex in this book (which was fantastic), one of the things I liked best about this book was that it had a solid storyline to go along with the super hot sex. Sure, it's not a full-fledged romantic suspense or emotional contemporary romance, but there's enough substance outside the sex to keep you reading and make the book not just a bunch of endless sex scenes. Page did an excellent job weaving in the plot of the blackmailer and involving Venetia and Trent. I wanted to keep reading to find out what would happen next.

Romance-wise, it was pretty good. The relationship (romantically-speaking) between Venetia and Trent could have been a little more solid. For most of the book, there's just a lot of sex between them with each thinking there might be something more. I'm not sure what it was...maybe that there just needed to be a tick more sweetness to the relationship. But aside from that, I enjoyed both Venetia and Trent, and they had a sizzling chemistry.

My only real complaint for this book was some of the terminology...quim, ballocks, etc. Yeah, it's probably more period appropriate, but those terms are damn annoying to read! I would have preferred the modern words. They're so much more fitting to an erotic romance novel (historical or not).

And one other thing, I'm curious to know from anyone else who read this book...did anyone else feel like there was a story they'd missed for Trent's sister Min? When I was reading the parts involving her, just the way it was written made me feel like I'd missed a prequel or something. But maybe that was just me!

Anyway, great book! If you like hardcore historical erotic romance, then I'd definitely recommend this book or if you've read and enjoyed either Kate Pearce or Samantha Kane, then give this one a try.

Warning, this book contains: explicit sex, m/m sex, f/f/f/f sex, m/f/m sex, group sex, toys, anal sex, bondage, exhibitionism, voyeurism, paddling...to name a few!

Chitra *CJ* says

HOT

HOT HOT HOT HOT HOT HOT

Another sexy Historical Erotica by Sharon page.

Venetia, the erotic painter is caught by Marcus and blackmailed when he finds out the lewd portraits of him and the ton have intact been done by her, not her father.

When he takes her to an orgy to show what she has been painting.. things get insanely hot!

She witnesses the most scandalous acts- from M/M, to MFM, FFFF, MMFM and BDSM and also gets to find her love in Marcus.

Added in is a blackmail mystery and loads of horny people.

Not safe (view spoiler)

4/5

Cyn Mistress Kitty says

WOW! This is one NASTY, DIRTY book, and I liked it.

Venetia Hamilton is no stranger to erotic art--her father's lush paintings are one of society's secret pleasures. When Venetia is being blackmailed by her father's mistress because she has taken over her father's business of painting erotic art, she enlists the aide of Marcus Lord Trent. Together they go to an orgy at a country house to try and negotiate with the blackmailer. While there, they encounter people engaging in almost every kind of sex act known to man. They also uncover that everyone there is also being blackmailed by the evil mistress. It doesn't take long for Venetia and Marcus to become caught up in all this sex surrounding them. This book is an eye popper and some of the scenes had a little "ick" factor for me. Be warned about the sex however, ever though I personally don't like to read about some kinds of sex, I felt what Venetia and Marcus for the most part did was done in a loving, caring way.

Hey, I actually learned some new to me sex acts. I thought I had heard it all but clearly I hadn't. I like when a book broadens my horizons and Is educational. LOL

Maureen Feeney says

When Venetia Hamilton's father cannot paint his erotic art books anymore due to his arthritic hands, Venetia paints his books for him. When Marcus Wyndham, the Earl of Trent call on her she instantly knows that he is the man that features in her fathers sketches. He knows that the last erotic book was sketched by someone

different, and works out that it was Venetia who painted it. He wants her to stop using his image and then makes her promise to paint no more books ever.

When her fathers ex mistress, Lydia Harcourt begins alphabetically blackmailing her lovers, she threatens to tell Venetias secret. Venetia wants to reason with her but Lydia is away for a week at an orgy so she asks Marcus to get her entry to the orgy and accompany her. Needless to say Lydia is blackmailing half the guests there as everyone has secrets including Marcus.

This book is hot,hot,hot. If you have ever wondered what an orgy would be like then this is the book for you, you will encounter M/M, F/F, Ménages and bondage. Marcus wasn't your average rake and I think he could have given in to temptation a bit quicker, and are we really supposed to believe that Venetia had no option but to attend the orgy! But I honestly couldn't have cared less about the lack of romance, because my jaw was on the floor reading some of the sex scenes, they more than made up for any faults in the plot.

But overall a good read, not for the fainthearted. After just reading Kate Pearce I think that anyone who likes KP will love this book. KP "Simply" series has The House of Pleasure" and this book has a country orgy, similar settings.

Amanda Ryan says

This book is one of my favorite guilty pleasures. It's RIDICULOUSLY and DELICIOUSLY raunchy. It's erotica at its best – a strong plot, an intriguing heroine and hero, and steamy, scandalous liaisons. What more could you ask for, really, then a plot involving an erotic artist enlisting the help of a rakish Earl to get her into a week long orgy? I. KID. YOU. NOT.

I've come to love Sharon Page's work. She writes delicious scenes that curl your toes and make you feel naughty, all while developing interesting characters and an enthralling plot that reads almost like a thriller. I've yet to be disappointed by anything I've read by her.

Sin is the first in a series about the daughters of erotic novelist, Rodesson. I've read the 1st & 2nd books; I have yet to get to the 3rd, but it's on my list. As of now, Sin still reigns supreme for me. It's possibly one of my favorite erotic novels. And make no mistake, my friends, it is erotic. I even had an urge to hide it while I was reading it, afraid my husband would make out certain key words and wonder what on earth I was reading. *Noneofyourbusiness! RaunchyRyan says as she shuffles her nose deeper into the book to hide her blush*

If you're looking for a steamy, intense erotic historical read, you MUST check out Sin.

Rating: A

Romance: 3/5 Raunch: 5/5

Nisha says

Alright, this is ridiculously good. So decadent, yet very traditional (for erotica). It's like an oxymoron.

The heroine is Venetia, who is a ghost artist for her father, a famous erotic artist. Yep, she's drawn erotic pictures and scenarios, since she was 14 or something, but is still a virgin. Along comes, Marcus, who looks strikingly like the man that stars her previous set of erotic drawings, and he wants her to stop using his face and stop drawing (in attempts to save her reputation). The problem is, Venetia needs the money to support her family and more recently, to pay off a blackmailer who is intent on revealing Venetia's scandalous occupation. She enlists Marcus's help to attend an orgy where the said blackmailer would be, so that she can convince the woman to not reveal the secret. But, Marcus has his own secrets on the line, so they both go to the orgy together.

Now, since it is an orgy, we get a glimpse of every possible combination and sexual act, but all of this is done tastefully. Neither Venetia or Marcus indulge in the public displays (except once, but it doesn't count because it was Venetia with the women), though they do have splendid private sex scenes. Still, I don't understand how anal sex is less painful than vaginal sex, which is how the couple try to preserve Venetia's virginity.

I guess this would be classified as mystery HR romantica, lots of sex, but lots of mystery and a romantic monogamous relationship between the leads. The romance was ok, not as bad as some say, but with the beautiful writing and intricate plot and plethora of developed characters, it was not the focal point.

The annoying part would be the language. Historical terms for anatomical parts were a little...weird, but at least the male parts were retained the 'traditional' terms.

I really loved it and I would recommend this to anyone who wants a steamier HR and a more developed erotica.

SueBee★bring me an alpha!★ says

★★★★★! Sin, (stand-alone) book 1 of 3. Erotic historical suspense about the Earl of Trent accompanying country virgin to orgy in the countryside!

“She moaned at the forbidden eroticism of this— of sitting on an earl’s face. Fired by wanton naughtiness...”

Books in Rodesson's Daughters trilogy are stand-alones, but most enjoyed if read in order:

Book 1: Sin

Book 2: Black Silk

Book 3: Hot Silk

Sin (stand-alone book 1) takes us to London, England year 1819. **Venetia Hamilton, Vixen** is the daughter

of the infamous erotic artist behind a scandalous publication. It is a well-guarded secret that due to her father's illness **she has carried on his scandalous drawings.**

Debauched **Marcus Wyndham, Earl of Trent** is not too happy for Venetia's attention to detail in her drawings clearly **depicting him** in all his naked glory.

But when Venetia is forced to travel to a **week-long orgy party** in country to **confront a blackmailer**, Marcus agrees to share his invitation and come along as her protector. Clad in a mask this country virgin is **exposed to all the kinky depravities of the ton** under the sinful guidance of the wicked Earl of Trent.

“I can smell your delectable honey flowing, Vixen. The sight of two men excites you?”

Seven words to describe **Marcus Wyndham, Earl of Trent**: Devious, secretive, tormented, flawed, jaded, enigmatic and honorable.

Seven words to describe **Venetia Hamilton, Vixen**: Curious, smart, observant, playful, open-minded, determined and stubborn.

Sin, told from dual POVs, is an erotic suspenseful historical with the perfect blend of **scandal, sex, orgies, secrets, blackmail, greed, murder and intrigue**.

It ends on a high, but there will be more glimpses of them in book 2 **Black Silk** about her sister and the dark and sinister Lord Swansborough.

“She wanted him coming too!— but to her surprise, he drew her hand away. “But you’re hard,” she managed between pants, “Huge! Don’t you want release?”

Eastofoz says

5 stars for the *ohhhh-my-gawwwwd* blistering hot sex and 4 stars for an ok romance.

You name it this book has it: f/m, m/m, ffff, m/m/f, bdsm, voyeurism, orgies *galore* and every kind of um, let's say, "unique" sex act imaginable –and all of this ick free to boot! How Page managed to do all that without the yuck factor going way up high is pretty impressive.

Here's the story of a woman, Venetia, who paints erotic art in order to support her family because her father, who is also a painter, no longer can due to illness. She meets Marcus, an earl/rake who decides to save her from herself but ends up initiating her into a demi-monde of every kind of kinko-rama scorcher sex under the sun! You name it, they give it a whirl 8) Lots of secrets and mystery abound to keep you turning the pages. The story is good but I didn't particularly like the romance. Something was missing from their love story, but this is one of the very few books that I didn't really care (!) because the rest was exceptionally well done 8)

Caution: Wear fire proof safety goggles to protect your eyes when reading this baby –the heat coming from these pages will burn you to a crisp ;)

Ladiibbug says

#1 Hamilton Sisters - Erotic Historical

Venetia Hamilton secretly paints exotic art. When she meets Marcus Wyndham, the Earl of Trent, she becomes involved in a web of secrets, blackmail, and intrigue. Everything threatens to boil over during a secret orgy attended by masked members of society -- and a murder is added to the mix.

Warning! Not for the faint of heart -- this is ultra-erotic!

I loved that there's as solid and interesting a plot to go along with the wildly erotic stuff.

Readers may want to keep a fire extinguisher nearby -- it's THAT hot!

J. Leigh Hunter says

Okay, I'm not quite finished with this yet, but I'm thoroughly enjoying it. Let me start by saying that this is

true erotica, mostly made possible (and plentiful) in whole by the hero's acquiescence into taking the heroine to her first orgy, per her strong insistence. What's refreshing is that this is a regency-era romance, and the heroine is a virgin to boot (a part that continues to frustrate the hero and the reader--all in a good way.) Historical erotica romance doesn't come around too often, particularly well-written kind. Contemporary erotica is typically just a lot of fucking and sucking, and usually with a heroine that has had sex before. I've read countless regency romance novels--excellent, insightful, thrilling tomes--that left me sexually frustrated because there just wasn't enough...er, fucking and sucking. This book satisfies.

Story and Writing Style

I hate to lump Ms. Page in with other authors haphazardly, but her writing style is very similar to that of other mainstream historical romance novelists. Not bad at all...I was comfortable. Happy. I could read her story from beginning to almost-end and follow her thought-process well. Her description is lively and strong as she takes Venetia and Marcus through the dusky, whirling world of a sex orgy in a British country mansion in the early 1800s. Surrounding Venetia's education of pleasures of the flesh, there's murder, blackmail and intrigue. And her build of tension and the love between the two protagonists is beautiful.

Characters

It's interesting: a virgin lass who paints erotica and wishes to visit the scenes she paints to paint more realistically (and perhaps garner a few tips in the process.) Her father was also her teacher in the arts (no, no incest or anything.) No one must know of her true ability or risk bringing scandal on her family. Marcus knows, and he grudgingly agrees to take her to the orgy. To protect her, he tells himself. For if she asked another man to accompany her, surely she would be raped. But, naturally, he cannot resist taking a nibble of that delectable fruit, and V is not so shy as to keep it hidden. He of course has a dark past, his own little secret to keep hidden (this is where I am in the story now.)

Sex

Ooooooh, name your poison, and there's a recipe for it in this book. As this is a sex party, expect to read about threesomes, fouresomes and more; performance fellatio and some wonderful cunnilingus; anal sex (including shared double-headed dildos); role-playing; men on men; women on women; bondage; BDSM; lubricants and toys, toys, toys... Thus far, there's no rape. None I can remember. Just good, pleasurable sex. And as this is a romance novel, the happy, beautiful union between Marcus and V is just that--happy and beautiful.

--

I may not return to this review upon completion, unless something jarring sticks out. If I do not return, just assume that I was pleased with the story and continue to recommend reading this book, and maybe Sharon Page as well.

J. Kahele says

Wow

I love historical romance. This book had absolutely everything, adventure, suspense and some really tongue-wagging steamy scenes.

Venetia was born as an illegitimate child to a rake and her life was always covering behind her father to help her families survival. When her elderly father begins to experience crippling hands and is unable to paint the

Erotic paintings that support Venetia and her family, she takes over.

Enter Marcus an Earl known for his rakish ways and the person who is portrayed on most of her fathers paintings. He knows it's Venetia who is painting these paintings and implores her to stop, to not risk her reputation. But before the story goes further, she is contacted by one of her fathers mistresses, blackmailing her and goes to Marcus seeking his help.

But where she wants to meet this woman, Marcus is adamantly against. The place is not proper for a lady. She implores him to go with her and after pleading and explaining to him that this is for her families survival. But what is this place?

Scubasubiker says

Wow, now THAT was an erotic read and one of the best/ is it really gonna happen HEA's ! DEFINATELY going to read and follow this author again. This book had suspense, murder mystery, non-stop orgies lol!, and a strong heroine with a reluctant hero which I love. The only reason I'd give it 4.5 stars instead of 5 is because it was a historical romance . Why that bugs me, I don't know lol. READ IT. It's worth it!

Marion says

I normally don't read historicals but I am glad I read this one. This book is very erotic and has every sex act you can imagine. It has strong characters, suspense and romance.

Tiffany says

AMAZING! The beginning to my favorite historical erotic romance, Sin is an incredibly sexy read that never slows the pace for a minute. Eldest Hamilton sister Venetia has secretly been supplying the erotic art under her famous father's name since his health has declined, but when Marcus, the earl of Trent, recognizes himself in the art, he confronts her and outs her. At the same time, someone blackmails her family, so she goes along with Marcus to a country orgy, where she is sexually awakened with Marcus's help. The mystery part of the story is very well done, and Venetia and Marcus's developing relationship and sexual exploration is red hot set in the backdrop of the delicious wild house party. This book put Sharon Page firmly in a top spot as one of my favorite authors.

Caro says

!NOO!

Just a big no for me, thanks you so much.

Horrible, horrible book. Don't waste your money on it.
