Single and Sexy Confessions Georgina Sand

Rachel Woodrow's job requires her to travel a lot, to exotic places that many people have only dreamt about. She's a strong, sexy, single woman who brings home a big paycheck but still hasn't found the right man to rock her world. Loneliness isn't an option and so, on her travels, she test-drives the men whom she fancies while still maintaining a few basic rules regarding passion and sex.

Paris, London, Venice, Colorado...these are four different places in which Rachel finds her true sexual self. She joins some very hot men for hard core, over-the-top sex and discovers, for the first time, what terms like double penetration, a Roman orgy and erotic dancing really mean.

Single & Sexy Confessions is a hard core, confessional-style anthology of four short erotic stories that contain elements intended for mature audiences only.

I won this in a Goodreads giveaway. It was an interesting read. I thought the erotica was sort of "in your face." I prefer a subtler approach.

I'm not sure how to review this book... I put in a spoiler warning, just to be safe. Spoiler alert, it's erotica. Ha Ha. (I talk about the last story which has some drama in it.)

I received this book for free from Goodread's First Reads program. I'd like to first note my elation that the book, though placed in my mailbox during a hurricane, was wrapped so lovingly by the author/publisher that it was barely moist when I received it (now that I've read it, however...just kidding...I'm sorry, I've never reviewed erotica before and I'm just not sure the protocol). Good job, Ms. Sand!

Ok, so, this book is self-published erotica. I could whine about typos or the need for an editor, but guess what, it's self-published erotica! It is what it is, and if you're going to take a risk and read something self-published, you're going to catch a few mistakes or awkward wording. Them's the breaks. I got over it and tried to enjoy the stories and I suggest everyone else who reads this do the same.

This book is a collection of four short stories/novellas about the sexual tourism of Rachel Woodrow, a mid-thirties single professional who is sent by her company to different places to get shit done. And she fucks a bunch of people on the side. I kind of think of her as like the MacGyver of sex. He travels around for work using his ingenuity and a roll of duct tape and a Swiss Army knife to tackle the obstacle of the week. In Rachel's case, she uses a cucumber.

The first story was the weakest of the four. I was frustrated that Ms. Sands put all her passion into the, well, passion and didn't develop a strong enough setting (I'm not asking for strong story. This is porn, after all). But the stories (and details not relating to sex) improved as she went along, with the last story actually having a story and it being better than Brokeback Mountain (at least, the movie. I didn't read the story it was based on because the movie sucked).

My biggest problem was with Rachel's shame. I didn't like that the character felt the need to feel a little guilty about the things she wants to do. So she likes sex. Big fucking deal. I'm reading it to get off, not to find a new moral compass.

Wow! First I guess I need to disclose that I won this book on goodreads contests. Second I honestly can say Rachel has one hell of an appetite. This book would make even the most celibate person give up that promise. I love winning books from authors I might not have read otherwise. I can honestly say I will be looking into other books Georgina has written. And on another note if you are weak of heart or are not open

minded these are not the books for you. If you are adventurous. And open minded give Georgina sands a try. Sashes knows how to heat up a page :). So to summon up.....I recommend this only to those whose spirits sore with adventure and can I say Rachel has the perfect job for her spirit.

I won this book on goodreads

Rachel Woodrow's job with its travels and experiences are certainly not like any I have experienced.

Janet says

To tell the truth, I enjoy good erotica, and this book just didn't qualify. I was turned off by the cover art initially. I didn't find the cover compelling - in fact the images looked distorted and the model dated. Once I began the book, I was disappointed by the number of grammatical and continuity errors I encountered. That will usually cause me to abandon a book, as it takes me completely out of the story. However this book was more like a series of Penthouse Letters than a story. Sorry, just not for me.

Tony Austin says

The single most sexy book I have ever touch in my life!!!

Thank you for the book.

Christine says

I won this book and I am so glad I did. I loved it. It made me blush. Once I picked it up I couldn't put it down I found it to be a quick read and I enjoyed it immensely. I need to get my hands on more of Georgina's book on a steam factor of 1-10 I give her an 8, it was fun and quirky. Thank you for giving me the opportunity to read this.

Sara says

I would rate this is the negatives! I won this book on goodreads, therefore, felt compelled to read it...and finish it. Thank goodness it was a short book! There was no plot, terrible writing, lots of errors in the texts...and out right trashy! It was not erotic..I only can come up with the word trashy to describe it. So much so, I had to actually laugh at times. I had to text friends and tell them what I was reading so someone else would just laugh with me. In my opinion, do not read this book.

Linda Gwiazdowski says

GOOD READ.DIFFERENT.

Candice =^,,^= says

I won this book from Goodreads. It is a very quick read,I finished it in a day. It really wasn't my cup of tea and a genre I don't usually gravitate towards. . If you're looking for a book that is just hardcore erotica with not a lot plot-wise, than this is the book for you. It definitely is a book for mature adults only! I really tried to give it a chance but it felt a bit like I was reading a Penthouse forum ...where you really don't believe its true and its highly unlikely (well, you can always dream) that some of those scenarios would actually happen in real life.
