Sharifa says

i liked that book so much . its totally my type of reading . since i reached the 1st page i can not leave that book . most of girls may like that book specially teenagers

mirna says

honestly, just the mention of the word "shopping" can cheer me up... and you know what? it isn't about buying stuff, it just the fun of wandering through the stores and thinking about what we might want to get

Ashleigh.d says

mary kate and ashley are trying to get invited to the collest pary every called the train wreck but the party is only for seinors and they have to sneak out of the house and not get caught!!

Rikki Chadwick says

As good as the series (maybe even a little better) ... Every effort these nurses is good and everything they do is great ... too bad their real life is not so good ... But as far as books, I recommend it to everyone.
