## **The Movie Buff** Daniel Cassidy

A brutally, murderous drug heist on a deserted Florida beach, the gruesome torture killings of two young men in different cities hundreds of miles apart, a rare and highly collectable Special Forces fighting knife, the street abduction and subsequent gang-rape of an innocent young schoolgirl, another botched drug deal that leaves five bodies lying on the debris-strewn ground of a Detroit wasteland, a modern-day cowboy and a full-blooded Jicarilla Apache Indian.

Special Agent in Charge Jim Clarkson, and his young DEA assistant know all of these things are somehow related. The only problem is-they don't know how.

What they do know is the clock is running and the body count is mounting, and if they don't put all the pieces together real quick, a lot more bodies are going to be added to the final tally.

About the Author: Daniel Cassidy

Daniel was born and is still living in Liverpool, UK. He has a keen interest in military history in general, and a specific interest in the history of the Old American West.

He is a collector (and shooter) of Western period fire-arms, with a great interest in firearm history and development, and is also an avid participant in the popular sport of Cowboy Action Shooting.

Daniel has been (very happily) married for the last 40 years to his lovely wife Evelyn. They have been blessed with three strapping boys-Steven, Sean and Nathan (all now fully grown)-and with an incredibly loving, and lovable grandson-Liam.

Lots of crude language but goes with the territory. Liked the referrals to guessing which Movie the killer was portraying.

I received a nice, signed copy of this book for free through the Goodreads First Reads program and would like to thank the author and anyone else who made that possible!

This book is one hell of a fun ride! A fast-paced vigilante justice tale that starts with a bang and doesn't let up until the bitter end. The main character has a fun personality and I enjoyed the gritty atmosphere of the story and the rough dialouge which felt very true to life. The story is grim but shot through with humor and ultimately very satisfying. I am very glad that I got the chance to read this one!

This book by Cassidy was received through a Goodreads Giveaway. Received it autographed, which I like. The book is not smooth, but interrupted by the dialogue and events. The language is course and sometimes violent, but the author tells you that from the first. The plot is interesting and does keep you reading until the end to find out what does happen.

Have to admit - I didn't actually buy the book.

I came across it on holiday on the Greek island of Rhodes. A signed copy of the book had been left on my sun lounger with a note from the author asking the reader to review it on goodreads if they enjoyed it.

So, here I am and here is my review:

Really enjoyed this book which gripped me from the very first page and kept me reading by making me wonder just what was going on and which of the characters was good or bad.

Be warned though - the first chapter is fairly violent.

Despite the title, this book has nothing really to do with movies as such - I guess it is just a reference to one of the main characters fixation with movie trivia.

Loved the way that the book threw in references to various movies - have to admit though that a couple of them were lost on me.

It is a fairly slim volume and very easy to read (which made it an ideal holiday book for me) with good crisp

(and often humorous) dialogue, and a fast-paced action-heavy plot.  
Particularly liked the ending.  
All in all a very good read.
