## **A Hood Love in Atlanta** Mz. Demeanor , Black Rose

Sometimes we have to lose to win again and teenage Mona-Lisa Middleton learns that lesson the hard way as her boyfriend Todd Waters causes her to sacrifice her love for his dreams. Being a young up and coming rapper in the game, Todd chose his career over his responsibilities based on the advice of his manager Delano Dawson. Delano was abandoned by his mother at birth; and had never formed an affinity for the fairer sex. Life was always about what made him happy and that was all that mattered until he met Mona-Lisa. Could the bad advice he gave his protégé turn out to be his blessing or will it be another curse on the streets of Atlanta?

#### **Awesome book**

I truly enjoyed this book read in no time. I am so team Delano although I hate he didn't finish the job on Todd. I really hope that if Todd lives I hope he doesn't eat Del out. I hope for Mona that things get better.

#### **Excellent**

This book was really good from the beginning to the end. I need part 2 Asap. I can't believe Marissa did him like that. Her mom was dirty too. Can't wait to find out what happens next.

#### **Dal an Mona**

I really enjoyed this book... But it ended to soon I can't wait for part 2.. U family always are the ones you need to watch... Todd was a snake right along with her sister an mother...

### **Taz Will says**

The best things about this one was that it didn't have flashy characters already balling out of control and it was over quickly. Other than that the story was kind of stupid for the most part. The males were too feminine and the females were pretty much whores. The highlight of the story was a sex tape starring a fifteen-year-old being supposedly blackmailed with it being released to different porn companies for goodness sake. Really?

Marissa...the snake that you are...just plain evil...

Todd...you are so...lawd!

Delano and Mona both got on my nerves but they were better than the two aforementioned folks!

ON to the next

### **Scandalous**

It's about to go down now. The last couple of chapters had me going. It ended too abruptly for me though. Luckily for me, I downloaded both parts at the same time so I don't have to wait. I'm feeling Del and Mona Lisa. I'm not sorry about Todd he's doggish and so is Marissa. Apparently the father was right about her all along. But oh, their mother is just disrespectful. I'm loving these characters although they have issues. Makes for a good read. This is all drama. You will want to read it.

### **Marissa and Todd**

Ready to start part 2. Mona is not having any good luck. Hopefully Delano doesn't have to face any time. Marissa needs to be brought down. Mom's mom is just a mess.

I really enjoyed it. There were quite a few editing errors, though. Overall, I loved it and will be reading the rest of the series.

### **Alright story**

I usually don't like books about teenagers because I'm in my 40's but this book is better than average. I'm trying to decide if I would purchase part 2 to see what happens to Delano. Also curious to see how Mona Lisa's father behaves once he finds out what his wife is doing.

### **Good love**

I really liked this book. I can't wait for part 2. It is an added bonus that the main character is reppin' my city....LOUISVILLE.

## **Tesha Joyner says**

Mona has a lot going on in her life. Todd just played her from the beginning. If she had never got pregnant she would never have found out. Now Marissa deserves everything she gets. She should not have played Delano like that. Then to top it off she's only 15. Delano should have made sure Todd was dead before he left him. I hope they can get Delano off & get Marissa g or the trouble she caused.

### **OMG!!!!**

OMG!! So many questions, I need part 2 ASAP. I really hope Marissa gets what she deserves, I wanted to jump through this kindle and whip her ass. I hope Delano & Mona Lisa make it through all this drama because he really loves her.
