Cat is hungry and wants a snack so the cat sets a trap, and when that one backfires, another, and so on. Will Cat ever get a snack?

Cat evidently has the same skill at trap setting as Wile E. Coyote. Something always seems to backfire...until the very end when he sets a trap all cat owners will identify with...the cute kitty trap. Much funnier than I thought it would be, and the vocabulary is perfect for beginning readers. The rhymes are done quite well too, and kids can practice making predictions when the cat sets each trap. What will the cat *really* catch?

Kimberly says

Repetitive, rhyming fun.

My daughter read this book to me so often that it got worn out and I had to tape the pages back together. She thought it was a very funny story.

Guided Reading Level / Fountas and Pinnell Level D. Lots of text repetition. Most words can be easily sounded out phonetically. There are some beginning (sn, tr, sw, fr, dr) and ending (ck, nt, sh) consonant blends and trickier vowel sounds are in words like "chow" and "meow," and sight words such as: wants, too, no, and some. An excellent early reader.

Michele says

This is a great book for emergent readers

I love all of these books but, in the kindle format it is really wonderful for my students. The books are heavy on word families and sight words. I am an elementary special ed teacher...thumbs up all day long?

Another Neo-led reading moment, in which a cat decides that it wants a snack and sets a trap. However, each item that lands in the trap is either not to the cat's liking or is too large to act as a decent meal. Time and again the cat stumbles through the trap setting and end result. Then, its owner appears and one final trap is set, hopefully with a new outcome. Neo is speeding through these books and loves how successful he is getting. He plans on tackling more next weekend.

Silly, charming and the perfect read aloud for young cat lovers who want to see if Cat will ever get that snack! This level 1 Ready to Read book has rhyming text, picture clues to help stuck readers and a fun, funny, furry feline to ensure they'll want to keep turning the pages.

This is a great story for introducing reading fundamentals to young children. There are fun, colorful illustrations and simple, rhyming and repetitive narrative that they will understand and be able to read with little to no assistance. Our youngest really enjoyed reading this book, even more so because she read some of it herself! We've read this one a couple of times.

This was a darling book for my six year old son to read. We laughed at the mishaps the cat had during his adventures throughout the story. I bought this book for Kindle, and the pictures are pretty small, but that's par for the course so I wasn't disappointed or surprised.

My rating : 4

A's rating : 3

True to the level mentioned, this is a great beginner book. Humorous and fun!

Sarah says

A cute story about all the things a cat will do to get food, and how they can present problems. Since it involves familiar animals, like pigs, fish, and dogs, the words and story are easy to understand for early readers.

Pam says

Clearly the best cat trap is cuddling up to the cat owner for some food!
