As I said in my year one review, I binge read this during winter break and have been obsessed ever since. I keep going back and rereading the webcomic in its entirety because I love it that much - and I believe most people would, too!

What makes this webcomic so great are the characters and their relationships, and if you read the extras as well as the comic itself, you get to see even more of their personalities and quirks.

If you read year one and enjoyed it, please carry on with this! It just gets better and better with each update.

here's the link to the tumblr blog with the comic and all of the extras:

So, I'm back to scream about Check, Please! some more....

This review is not going to be structured like my last one because I have wayyyy too many feeling and wayyyyy to little free time to be doing that, so be warned this review will be very rambly, very screamy, and very not good most likely. But whatever without further ado...

So if you see something rocketing up through the sky into space it's my heart because that's what Year Two does to a person. Like there's so much going on in this one and honestly I would be lying if didn't say that 90% of what made this year is the ships. Like, boi.... I have some strong OTPs from this comic and they either: a) became cannon in this year ((view spoiler)) or b) just did a lot of things that made my heart fucking explode (\*cough, cough\* Shitty and Lardo \*cough, cough\*). But beyond that I thought the plot and characterization in this year were better than that seen in its predecessor.

Also this year featured the introduction of some new characters and like let me tell you.... Chowder is such a fucking cutie. Like, he's just so excited about everything and he just wants everyone to be happy and like??? He's such precious and pure??? He's a ray of sunshine and I love him sooooo muccccchhhhhhhh

And now I'm going to scream about some spoilery stuff:

(view spoiler)

In short, please read this webcomic so that we all die over the adorableness together!

What a gem, this is.

Such a positive, feel-good, happy story revolving around the most loveable gay ice hockey player who loves to bake and loves his friends just as much.

**Carlos Peguer says**

**O M G.** Si el primer año no me acabó de convencer del todo, este segundo ha hecho que me trague mis palabras. Estoy enamoradoísimo del protagonista y mira, ese final casi me hace llorar. Me pone muy triste que esté leyendo este cómic tan rápido porque estoy *living* con todo.
