Her Baby, His Proposal

Teresa Carpenter

Her Baby, His Proposal Teresa Carpenter

Brock Sullivan is a navy SEAL—he lives by his own code of honor and he won't see Jesse, pregnant and alone, struggle. He doesn't have to help her, but he knows he can offer her security while he's away fighting for his country. The proposal is convenient and the marriage— paper only!

Jesse would do anything for her baby, even if it means signing away her own dreams of happily ever after and becoming Brock's convenient bride. But, injured in battle, Brock is suddenly home, and what was a simple marriage of convenience is now becoming a whole lot more complicated.

Tizah says

An amazing read

Marie-Antoinette says

Ek het baie van die boek gehou. Dit is nie net die normale liefdes verhaal nie. Wat begin as 'n skynhuwelik is aan die einde 'n lewens-vervulling vir Brock en Jesse. Brock sal nie sy lewe kan voorstel sonder Jesse en dierbare klein Allie nie.

Paige says

2.5 at the most. Mixed feelings about this. The plot was awesome and had the potential to be a beautiful story.

However the plot was rushed, her entire pregnancy/his deployment was practically skipped, and his attitude once he came home injured were down right rude.

Left by her boyfriend Ted when he thought she might be pregnant, after taking all her money, Jesse Manning ends up working a double shift and passes out at Navy SEAL chief, Brock Sullivan's feet.

Not taking no for an answer, he takes her to the hospital and never leaves her side. Always crushing on the beautiful young woman, Brock had never let his feelings lead to action. But now, he can't help but want to help Jesse.

When one of his men get married, Brock broaches the subject with Jesse. Not only would she get his medical benefits, but she could stay in his condo while he's deployed.

Accepting the proposal, Jesse and Brock really connect as he shows her last minute details before he ships out. Accompanying him to the dock where they sail off from, Jesse promises to write everyday.

Never has Brock ever had someone care for him. Time is showed changing by emails sent between the two, as Jesse updates him on her pregnancy and other daily activities.

When Allie is born, Brock does manage to make it home on a short leave to watch as she comes into the world. Leaving again, its about six months when Jesse gets that fateful call.

With his career possibly gone, the use of his leg is question, and all the other emotions that comes with an injury, Brock's mood is understandably grouchy, but the way their chanter goes from hot to cold was not enjoyable.

From his past loses, Brock only pushes away the one woman who loves him and offers him a family.

Going after her, Brock makes sure she feels welcomed into his family, now that he's finally found his way home.

*If you have this on the nook, the formatting is extremely horrible with no paragraph spacing indicating time gone or a different point of view. Very annoying and took away from the story.

Dorel says

This is the 3rd book I read by Teresa Carpenter. I loved this book from the beginning to the end. I loved how Jesse & Brock completed each other lives. I really loved how Brock stepped & helped Jesse. If you like good romance books with happy endings then I recommend you read this book.

Amy says

I don't know why I liked this book so much. I thought it was so sweet that a guy would take in a complete stranger, a pregnant one at that, and take care of her with no hesitation. It was the stuff of a weird modern day fairytale.

Amanda says

Cute story that ended too quickly!

Whats a girl to do when she finds herself pregnant and alone? That is exactly what she felt before a sexy military man offered her the world!

Wonderful story!

Elle (Ligia) says

Absolutely lovely. That's pretty much all there is to say. Also I stayed up way too late to finish this, that should say enough. *le sigh*

Karen Kirst says

Maybe it's because my husband is military, but I loved this Navy Seal hero! Teresa Carpenter knows how to pen a compelling, emotional tale. This one's a keeper.

Sylvia says

Modern

Paula Legate says

My husband is retired military, so I've always been a sucker for a good military romance. This story drew me right in. Jesse got dumped in the worst way. She didn't have time for a broken heart. She picked herself up, and went to work as a waitress to work a double shift. Before the night ended she ended up passing out and landing in the arms of Brock, a handsome Navy sailor.

From that point they became friends. He had to deploy shortly after, and they emailed daily learning more about each other every day. That friendship turned into love once he was home.

Brock had some past issues to deal with. He had withdrew from his family many years before because of a tragic accident. He thought his family blamed him. They didn't, they just wanted to be a part of his life. I really felt the emotions when he visited with his family. That part really pulled on my heartstrings!

I loved this story, it was funny, filled with love, and emotions, and was also very sweet in places.

Sample from chapter one

How embarrassing to fall flat at his feet. Maybe if she stayed very still, he and the others gathered around would leave her to expire of mortification on her own. Yeah, she thought as listened to the advice being jockeyed back and forth, that was her best course of action. She has a good chance of the earth opening up and swallowing her whole. This was California after all. Where was a good earthquake when you really needed it? "She's not responding," another voice stated. "Time to call 911. she needs to go to the hospital."

Si says

Really enjoyed the book, it was fast paced and easy breezy which is also my complaint.. I loved them would have like more out of their story

Lexi Divan says

A nice book to read about a woman who gets pregnant and a man who takes the honor of marrying her to provide for her well-being. Through struggles and drama from the past they move forward together to build a life and love each other.

Desi says

Shelly Knudson says**Solid 5 stars**

While I have heard of stories like this in real life as well it was truly heartwarming to read my first 5 star in a long time.

Marie says

After starting three books and not able to get past the second chapter I found this book. Easy to read. Maybe a little different than what I've been reading lately. Not perfect but good.
