## **Illuminati: The Cult That Hijacked the World** Henry Makow

Bizarre and incredible as it sounds, humanity has been colonized by a satanic cult called the Illuminati. This cult represents Masonic and Jewish bankers who finagled a monopoly over government credit which allows them to charge interest on funds they create out of nothing. Naturally they want to protect this prize by translating it into a political and cultural monopoly. This takes the form of a totalitarian world government dedicated to Lucifer, who represents their defiance of God. Thus, the people who hold our purse strings are conspiring against us. To distract and control us, they have used a vast occult network (Freemasonry) to infiltrate most organizations, especially government, intelligence agencies, education and the mass media. We are being re-engineered to serve the Illuminati. They undermine institutions like marriage and religion, and promote depravity, dysfunction, corruption and division. They have orchestrated two world wars and are planning a third. Henry Makow describes this conspiracy and shows how human history is unfolding according to Illuminati plan.

### **Hans De Jonge says**

Henry Makow is a Jewish writer who's family has suffered many losses in 1933-1945.

Illuminati: The Cult That Hijacked the World gives clear insight who currently rules the world since the "dark ages" by creating wars, boom-bust economics and degrading the world's population to flocks of ants staged to wage war with each other at any given time. The strings are pulled by Zionist bankers, called the Illuminati. This book contains four books, containing separate chapters or subjects readable all at itself. 1. Bankers, Jews and Anti-Semitism. 2. Illuminati, Sabbateans and Protocols. 3. Zionism and the Holocaust. 4. Hidden History. Epilogue - Surviving the New World Order.

The staggering facts about the historic fraud done by the same ruling clique by taking over education and the press are mind-blowing. The crimes done by instigating two world wars with monstrous suffering and death have to be whitewashed by the bankers at any price. If one wants to know the real history of the bizarre acts of the Zionist bankers to create Israel and the New World Order Dictatorship ruled from Jerusalem this book is a must-read. Your ignorance is their power.

### **Chris Tyler says**

"humanity has been colonized by a satanic cult called the Illuminati. They are Masonic and Jewish bankers"

That right there should tell you Makow is not playing with a full deck of cards, so to speak.

His theories are ridiculous, although he bills them as irrefutable truth rather than theory, whining on his idiotic website every time someone points out most of what he and his contemporaries say is useless.

### **Ya-sir says**

One of the sane and magnificent-macow book which is exposing Satanist conspiracies against God and His mankind.

### **Luqmanul Hakim Muttaqin says**

Mungkin akan sangat susah bagi orang yang tak terlalu suka pada tema-tema pembahasan konspirasi dalam

sebuah tulisan, untuk dapat mencerna isi buku ini.

bagi anda yang berpendapat demikian, segera letakkan buku ini. Buku ini bukan ditujukan bagi anda.

Saya adalah orang yang senang dalam menanggapi teori-teori konspirasi yang terjadi. Bukan karena hal tersebut terjadi bagai imajinasi, tapi saya yakin dan percaya. setiap kejadian di dunia ini terjadi tidak-secara langsung-dengan sendirinya, melainkan ada tangan-tangan kotor yang berusaha untuk mencampuri urusan Tuhan.

selamat berkonspirasi dengan fakta dan teori yang dipaparkan dalam buku ini.

#### **NWO**

### **Rabin Rai says**

The author is a Canadian Jew. He compiles his knowledge from multiple references.

It's my first time reading a "conspiracy" book. I did so with a pinch of salt, questioning the truthfulness whenever I could, with some internet cross-checking. There were times when my mind was blown away by the variety of revelations. For example, I learnt how the Illuminati orchestrated both World Wars, French Revolution, Communism, Nazism, the Great Depression, Cold War, wars in Iraq and Libya, Sept 11 "War on Terror", how the "greenbacks" led to the assassination of JFK and Abraham Lincoln, feminism, LGBT, diversity, political correctness, materialism, anti-semitism and more. By dividing and subverting society, the invisible elite set up minorities at each other's throats; Black vs White, Straight vs Gay, Christian vs Jew, Catholic vs Protestant, Capitalism vs Communism..

Illuminati together with its aware or unwitting agents (Freemasons) is a monopoly capitalist of elite international bankers that control the Bank of England, Federal Reserve, World Bank, IMF, British/US Intelligence agencies, etc.

The story started off centuries ago when the Sabbatean Frankist Jews deviated from Orthodox Jews and followed Talmud Judaism which teaches Jewish supremacy, world domination and contempt for Christ, Christians and non-Jews. They are Luciferians and believe that man can become God. The book expounds that anti-semitism arises because of these Talmudic Jews' belief which is different from the Orthodox Jews, a

God-fearing people. The book also describes how the elite Jews kill their own Jewish people in the Holocaust ("Burnt Offering") to support their Zionist migration to Israel. Their hidden motive was to make Israel a dagger in the heart of Arab nations.

Overall, it is an enlightening book to read with a skeptical mind.

#### **Pretty good**

If half of this book is true we are in for some hard times. I don't know what to think this book takes time to process in your mind. All I can really say is stay focused on God.

### **Ted M says**

After reading "Long Way to go for a Date" I decided to see what else Makow had in store- I expected sexism but I never in my wildest dreams expected to forever consider Alex Jones or Art Bell sane by comparison, This is an utter piece of trash.

### **Jessica says**

I hate to give this such a low rating, because the author has great intentions. However, the book was written extremely tediously. It was so hard to get through. The information itself was interesting and thought-provoking, but I thought there was way too much detailed fluff that made it feel like schoolwork. Some of

the information was a bit hard to take in, especially the WWII details. I plan to do more research to confirm the validity of some of his statements.

### **\*Dee's Book reading time says**

A thought-provoking and powerful read! This is a book where you find yourself saying "can it be!" Well based on our government, the outlandish ideologies of church and state and hidden agendas abound well yes anything is possible!

This is a book that you will study and continue to question your own thoughts and ideas.

- 5 stars due to true wonderment!
