# King & Tyrant

*T.M. Frazier*

**King & Tyrant** T.M. Frazier

Book one and two in the King series.

## **King:**

Homeless. Hungry. Desperate. Doe has no memories of who she is or where she comes from. A notorious career criminal just released from prison, King is someone you don't want to cross unless you're prepared to pay him back in blood, sweat, sex or a combination of all three. King's future hangs in the balance. Doe's is written in her past. When they come crashing together, they will have to learn that sometimes in order to hold on, you have to first let go.

## **Tyrant:**

I. Remember. Everything. But the relief I thought I would feel never comes, and I'm more afraid now than I was the morning I woke up handcuffed in King's bed. Because with the truth comes dark secrets I was never meant to know. I will put the lives of those I love most at risk if I let on that my memory has returned, or if I seek help from the heavily tattooed felon who owns me body and soul. I don't know if I'm strong enough to resist the magnetic pull toward King that grows stronger every day. He's already saved me in more ways than one. Now it's my turn to do whatever it takes to save him. Even if that means marrying someone else...

## From Reader Review King & Tyrant for online ebook

### Denae says

I can't even describe what I'm feeling about these two books!! I could not put it down! King, Pup, Preppy, and Bear we're my world for the last couple of days! Everyone's character was so well written that you connected with them instantly! She even made you fall in love with a psycho for crying out loud!! I will never be the same after these books and damn sure won't ever be able to look at another stack of pancakes! Let alone eat one!

---

### Dani says

I can't find words to explain how incredibly emotional, dark, gritty and amazing these two books are. Brantley King is a force to be reckoned with. He had me hooked from the first page right up until the last page of Tyrant.

TM Frazier has a way of dragging you into the world she creates in her stories and has you reeling even after you've read the last page. I couldn't not have a book hangover after meeting King and Doe.

His character is dark and dangerous, and when he lays eyes on the sweet and innocent Doe, little does she know her world is about to change. Their relationship is volatile, but the heat and chemistry between the characters jumps off the page and you feel like every time he calls her Pup, he's saying it to you. (A girl can dream.)

But this story is not only King and Doe, it involves their friends, Preppy, and Bear, and as you learn more about this intense circle of friends, you can't help but wish they were yours too. There are so many surprises, and at the end of book one, King, the cliffhanger will have you reeling and opening book two, Tyrant, immediately.

There's so much that tries to pull them apart and you're constantly waiting for the other shoe to drop. If you like dark, sexy, and incredibly emotionally charged stories then this one is for you.

Loved every moment of this!!

---

### Leigh says

What a ride, I absolutely loved both of these books. So much happens that my head is still spinning. There were so many lies, deceptions, betrayals and heartbreak in this book that it was impossible for me to put it down. I loved King, Doe, Bear and Preppy. The boys were killers, they sold and did drugs and I didn't care they were unapologetic and loyal. Call me crazy but I totally fell for them and saw past all of it. These books were far from perfect and there were things I would have liked done differently but I don't care its was 5 stars for me anyway. I can't wait for Bears book.

**Allison ❤️?Will Never Conquer Her TBR❤️? says**

#### **4.5 Revengeful, Suspenseful stars.**

I'd read the special combo addition of *King* and *Tyrant* so this review will encompass both books. Brantley King is one heckuva anti-hero. A tattoo artist who's lived a rather sh\*t childhood, he befriends a kid on the playground in school while saving him from the local bully. They vow to succeed in life despite their struggles growing up. I use the word *succeed* loosely. Fast forward 10+ years...

"Doe" wakes up on the streets with zero memory- just sitting with a drug addicted prostitute fighting her for the bench she was sleeping on. Amnesia, starving and unwilling to go to another ~~erazy town~~ homeless shelter, the fast-friends decide getting "in" with the MC club the *Beach Bastards* will provide them protection...food. So they hit up, a house party on the beach hosted by the biker group. Doe is shy, out of sorts, not knowing who she is or where she came from but knowing she needs food, clothing. She goes in search of a man that can provide that. She just doesn't imagine her response to the tattoo artist when she steps into his studio ~~while he f\*eks another chick.~~

I liked the connection between King and Doe. Though a bit instantaneous considering they didn't know each other prior, the gritty rawness of his possession of her helped lesson my worries of instant-love. I guess it's rogue darkish insta-love here so it was easier to digest for me.

*King* and *Tyrant* are both fairly dark, gritty romantic-suspense stories that'll keep you on the edge of your seat. Both books were addictive and must be read in order as *King* ends in a cliffy. Some scenes are rather graphic and I wouldn't recommend this for anyone who doesn't enjoy the grit of at least an MC-type book. King isn't a MC fella but the book has the elements and background of biker outlaws.

Side characters such as Preppy with his cute bow-ties and non-filtered dirty-talking contrast captured my heart completely. Bear, the tattooed MC VP is up next with his spin-off duet. Looking forward to his story.

Again, I'd highly recommend this series for fans of dark, gritty romance. This, isn't a heart and flowers walk-off-in-the-sunset love story yet you're left with this warmth in your heart HEA in the end. So that, to me, makes the bumpy ride worth it tenfold.

Moving on...

---

## **Sarah says**

4.5

This is not a rainbows and unicorns romance, but it is a beautiful romance. Some parts were a little hard to read, had my heart beating triple time, but the last chapter of Tyrant before the epilogue, OMG perfect!

---

## **Lisa Guzman says**

### **Absolutely Amazing!**

This was absolutely an amazing read and one that will be an all time favorite. The story sucks you in and you have no choice so just go with it. I wish I could say more but a certain biker named Bear is waiting for me.

---

## **Danielle says**

Fantastic!!!! Read both books back to back and I haven't had such a brilliant read in a while. The ups and downs laughter and tears with twist and turns that are so unexpected.

Highly recommend this set of books!

---

## **\*TANYA\* says**

Heartbreaking \*\* Gut wrenching \*\* Endearing.  
CRAZY A\$\$ SERIES. LIVED IT!!! (liked/loved it)

---

## **Kelly Freeman says**

Oh holy smokes this King is HOTNESS OVERLOAD!! King is all alpha male, hot, brooding, tough as nails, take no crap kind of guy and its totally an ovary explosion when he speaks!!

"Things don't always start out the way we want them to. It's how they end that's important."

I adore this book so far ... I just finished King and the twists and turns have me biting my nails and clutching my kindle. I fell in love with Preppy in the first chapter and my heart broke when he died, that foul mouth bow tie wearing guy was totally lovable. Doe is awesome and stronger, she loves King with a fierceness that I think is going to be even more evident in Tyrant. King while I love him I'm not to happy with him right now ... I can't believe he gave her up. I know he wants his daughter back but I feel like there had to be another way.

This book had me on the edge of my seat ... now back to it with the second half!

---

### **Christy says**

Of course I had to by this cover too... #Club47

### **Naomi says**

Original Review's @ Naomi's Reading Palace

#### **KING**

King was a fantastic read! I loved every moment of it; the intense relationship, the heartbreak situations, and the pure devotion the characters had for one another. I laughed at the banter and shed a few tears through the tough times because T.M. Frazier sure knows how to weave a difficult storyline together! I am glad that I already had Tyrant to read after I finished, because that ending leaves you wanting more!

#### **TYRANT**

There were plenty of twists and people in Tyrant that kept King and Doe/Pup apart. Her father appears to be a heartless man, Tanner the boy next door has always been in her life, and Doe/Pup's past is slowly returning to her. But her heart belongs to King and everything she did was for him.

I loved how this story wrapped up! There were so many intense moments, but I did miss all the time that King and Doe/Pup spent together, like it the previous book. One thing remained strong and that was the love that King and Doe/Pup have for one another. It was a fantastic conclusion and I love how T.M. Frazier was able to get me emotionally attached to all the characters. I am looking forward to Bear's story, it's going to be hard, I know it!!

### **We like it big book blog says**

#### **Melanie's Review**

After reading King and Tyrant, I feel like I just watched an action packed movie—explosives, gunfights, blood bath, crazy hot sex and all!!! Doe and King's love story had it all. The book gave us a great introduction to who Brentley King was and how his ugly childhood shaped him to become THE King. I really liked that the author started off the book this way because it held my interest from the get go and by adding on a sidekick like Preppy and Bear, she really gave us a great trio of characters to start off what would be one of the most interesting, yet bizarre stories I've read all year.

King was definitely one enigmatic man. Though in the years that he'd become this monster who had absolutely no regard or guilt over taking someone's life, his own world is suddenly turned upside down when he becomes wildly obsessed with Doe from the very moment he lays his eyes on her. An instant connection,

a love at first sight if you will. And though their love story is weirdly unconventional to say the least, I really did enjoy the ride. The fighting back and forth, the yelling and kicking which would then turn into passionate, rough sex—well, that had my lady bits buzzing. Thank you very much! And while Doe begins to fall in love with King, the loss of her own memory is still a huge weight on her shoulders. Not knowing where she came from and who she is, I felt bad for her especially when she starts feeling guilty about the choices she's been making. Their story was full of secrets and violence and it kept me on my toes. I wanted to find out who Doe really was and I wanted to see how King's and Doe's relationship would unfold as well.

King and Tyrant were action packed with tons of twists and turns that will both shock you and make your stomach uneasy. I mean, some of the scenes in this book were out of control and definitely not one for the faint of heart. Though the dialogue was a bit rough for me, this book did take me on quite a ride. There were a whole lot of romance alongside hints of heartwarming and comedic elements in a world full of drugs, murder, and deceit. Like I said in the beginning, these books were so bizarre, I still don't really know how I felt about these books. Either way, I was entirely entertained the whole way through and I'm sure you will be too.

**Rosa Sharon (iScream Books Blog) says**

**"It's still a lie even if you're only telling it to yourself."**

**KING: It's possible to be a bad boy and a good man...**

Never let it be said that covers don't matter. My confession is that I didn't know who T.M. Frazier was. I just happened to see her cover reveal for Lawless, book three in the King series, and I suffered a severe case of **#CoverLust**. When I discovered it was the 3rd book in a series, I immediately bought books 1 & 2 and started reading King. I'm so glad that I did. I loved it! I read it front to back in one sitting. And since I was late to the party, I didn't suffer the same devastation as others when I found myself dangling from the cliff at the end. Nope, my happy self will be moving directly on to Tyrant. Another benefit to starting late was that when I was introduced to Bear's character, I already had his sexy tattooed image to lust over.

The author took me all the way back to '**Young King**' who was already full of anger. His harsh childhood made him a loner, and a perfect candidate to teach a bully a lesson. His unexpected appearance at the wrong place at the right time introduced him to the nerdy kid who would become his best friend. They compared notes and made plans to do more than just survive their current dysfunctional situations. They made plans for the future. What are the chances that they would actually succeed?

Doe is what they called her, because she was a Jane Doe. She had no idea what her real name was. And since nobody claimed her, she had nowhere to go. She ended up on the streets, alone and hungry. It wasn't her brilliant idea to show up at King's '**Welcome Home from Prison Party**', but she didn't have a better idea. She'd heard that there would be bikers at the party, and that sometimes they provided food and protection to girls if they liked them. Too bad that her first meeting with King didn't go so well. While she considered him to be, "The most terrifyingly beautiful thing I've ever laid eyes on", it wasn't an instant love connection. Nope, it was a tragedy or errors that resulted in a clusterfuck of epic proportions. But hey, she did make a lasting impression. One that she was unable to run from, now that **she owed him** and until she was able to pay him back **he owned her**. Woo Hoo! Let the battle begin!

While she was intimidated by '**Scary King**', her nervousness only made her extreme case of '**unfiltered running of the mouth**' even worse. While I was highly amused by her rambling, I was worried for her too. I was anxious for her to tame the sexy beast, but at the same time, the sexual tension between them was delicious. They were both fighting it so hard, and let me tell you, *it was so hard* ...all the time (wink-wink). Even their fighting was hot, it was like foreplay. While I was anxious for answers regarding Doe's identity, I was also enjoying the process so much I didn't want it to move too fast. Their **getting-to-know-each-other time** was an important step that I didn't want to miss out on.

I also enjoyed getting to know Preppy and Bear...especially Bear...sigh. I can't wait to spend more time with that sexy biker. Now that I'm so invested in the characters, I am actually glad that this is a series. I'm gonna be needing more of them and I'm excited to have future books to look forward to. No need to worry if it ends on a cliffy, that just means it's not over, and I don't want it to end.

### **TYRANT: Because...pancakes**

Well, what can I say? T.M. Frazier has a new crazy-stalker-fangirl to deal with. I've been totally blown away with King & Tyrant. I had no idea where she was going to take me when I started this journey. It was a hell of a ride, and I don't want to get off...ever. Can I just set up an account, like a subscription, where all of her books just automatically go straight to my kindle, please?

Well, for starters, that sexy man on the cover of Tyrant is **NOT** Tyrant. Nope, it must be King, since Doe describes him as, "Tanned and tattooed with a constant thunderstorm in his eyes. His muscular body looks as if it were built by wrestling with the devil himself." I actually had no clue who Tyrant was, and I was shocked as hell when I found out. Yeah, I'd be the one with my eyebrows raised and my jaw on the floor right up to the end of this mind-bending, though provoking, lust inducing masterpiece. It pushed all of my buttons, and I can't wait to get my hands on Lawless. I'm already in love with Bear, and once I saw his book, I'm in **#CoverLust** too...sigh.

And Doe-Ray-Pup, or whatever she's calling herself this week, she's my hero. I totally agree with her thought that, "When I lost my memory, I grew a pair of balls." She's a survivor. She's been to hell and back and is still fighting. I'm even more impressed with her now that some of the layers have been peeled back and I've seen what she's had to deal with. It almost makes being homeless seem like a walk in the park, really. After the cliffhanger ending of King, I couldn't wait to find out what would happen when she finally regained her memory. And damn, it was bigger than my imagination could conjure. That's why T.M. does the writing and I do the reading, it's a win/win. Now, I'm basking in the glow of satisfaction after an incredible read. I'd have a cigarette, if I smoked. Instead, I'm gonna drool over Bear, and then I'm gonna dig into his heartbreak story. See ya on the other side...laters.

---

**Nikki Costello \*\*\*Crazy Cajun Book Addicts Blog\*\*\* says**

Wow Wow wow!!!! What an fabulous read this box set is.

Everybody should have some King In their lives.

This book is definitely not for the faint hearted but believe when I say you won't be disappointed.

---
