### **Alison says**

5 stars. This is my favorite short story of Hodge's that I've read so far. It's dramatic, and very enjoyable. The concept could be expanded on if she ever wanted to continue. It feels complete, something that I felt was missing in her other short stories.

### **The Book Queen says**

Interesting. I haven't read anything by this author before, but I might look into her other works.

### **Desirae says**

Another richly layered story by Rosamund Hodge. Surprisingly, in this story collection, it lacked a romance, which I really think added a lot of edge and suspense.

I agree with other reviewers who've commented on how this story could easily be adapted into a larger piece, but I think having a romance between the Adjudicator and Ivannsa might taint or distract from the greater themes of the story.

### **Tandie says**

I didn't care much for this short, but I've loved her other ones.

### **Tina says**

All of Rosamund Hodge's short stories seem to be really dark. But I love that, and I love her writing.

### **Sammy says**

Love it!

### **Sabrina says**

Most beautifully written characters in a setting so interesting I would wish Hodge would write a hole novel about the Adjudicator and her duties to the different kingdoms. Never seen so much character development

in such a short amount of words. A brilliant little piece of Hodge's work.

### **Rebecca says**

Just when you think you have the grip on this story, it turns a completely different way. And the ending was breathtaking, I loved it so much. I think this is my favourite of Hodges short stories.

### **Ekam says**

Interesting.

### **Taschima says**

Such a short sweet story. I could see it being developed into something much longer and detailed; I would totally buy this book. Same sequence of events, but just longer and with more characterization. It doesn't even have to have a romance (though a love story between the Adjudicator and Ivannsa would absolutely kill me and fill me with joy; the powerful entity and the brave princess).

### **Jen Sainty says**

I suddenly want to have a daughter, just so that I can read this to her as a bedtime story.
