**jenTed says**

Good quick read. Poor Jenny, my mind would have been thinking like hers. Almost too short of a read. Would like to know more about the relationship between Jenny and her Master.

Creativity always gets a high rating from me. This one is short but creative. Hard core punishment. Voyeurism. A sadistic dom. Lots of good stuff. I'd like to see more about Jenny and her Master!

Pretty good book! Can't compete with my 50 Shades though. :(
