Right Where You Are L.E. Bross

Avery Melrose is used to having it all. So when her boyfriend cheats on her, she reacts like any spoiled rich girl—she freaks out and vandalizes his new truck, Carrie Underwood style. Now she's stuck with 300 hours of community service doing road-side garbage duty.

Seth Hunter just got out of prison, and after a few hundred hours picking up litter on the side of the highway, he can finally put his mistakes behind him. If he can string together some kind of existence, maybe it'll be enough to get his sister away from their stepfather, the man who sent Seth to prison in the first place.

A romance between these two is doomed from the start. Girls like Avery want castles and white horses, and Seth is no prince charming.

But sometimes, being around Avery makes Seth think he could make something of himself. Maybe even be worthy of a girl like her. It's just too bad real life gets in the way first, tearing these two apart before they have any chance of getting to Happily Ever After.

Short story with a slow beginning and a slow middle and a whirlwind ending. Didn't blow my mind away but it also didn't disturb me in any way.. Just another book in a bunch that I'll forget about.

Avery has to do 300 hours of community service, because she busted her ex-boyfriends of four years car for cheating on her.

Seth has just been released from prison. He's spent a year there for assaulting his stepfather who's a major son of a bitch - he hooked his little sister on drugs and pimped her out.

Those two meet in a bar on the night Seth was released and almost slept together.. The next day they meet again. In the bus that's heading to a road which they'll be cleaning for the next two months.

To be honest I don't have much to say about this one. I kind of don't really remember what happened. And I just finish reading it!

Well.

Avery used to do everything her parents wanted her to and suddenly after meeting Seth she wanted to be "her". Guess he opened her eyes and all but shouldn't she have realized it herself and want to change for herself and not for some guy?

Seth was pretty narrowminded. He had one goal and nothing else mattered. After meeting Avery his priorities shifted and he was mostly with Avery. Then he started blaming himself and pushed Av away so that his sister could be the center of his mind again.

I don't think that those two match very well. Opposites attract and all I know, but these two were just too different and in some ways too same.

Also Avery's father was one big asshole. He manipulated everything and everyone. Ugh.

The ending was too rushed. The whole book was so slow and in the end where majority of the plot happens it's only on 20 pages max.

If this is going to be made into a series I'm not sure I'll try to read the next one.

First off I think I should let you know – in case that you hadn’t figured out yet – this is a New Adult book, and it has a lot of sexual content (hemhem... very EXPLICIT sexual content). So, if you don’t like it, or are not comfortable, you should skip this book, because really people, it has a LOT (and I couldn’t be happier)! I read this book in one day, people...

This is a super fast paced story, told in dual point of view – we get a chapter by Avery, one by Seth and so on, which really allows us to meet the 2 main characters quite well. I liked them both so much! Avery was a little stuck up at first, but poor thing, I got it: she found her boyfriend of 4 years in bed with someone else, destroyed his truck, and the SOB pressed charges? I would be more than pissed. And to top it off, her politician father makes her an example of tough law? I mean... she just destroyed a truck! After that she has to pick up trash? Give up a whole semester of college and all that came with it? Oh man!

Seth is likable right from the start, we learn early on that he went to jail for attacking his step-father, a drug dealer responsible for his mother’s death and pimping out his baby sister. Who doesn’t love Seth already, right? To top it off he’s hot as hell (and he has a lot of talents that we learn later on...).

The lust comes hot and heavy right from the beginning, and it made a lot of sense, really. The love however – not that the word is ever used – comes a lot later and after a few weeks of butting heads. It’s beautiful, because we can see how much they want each other but are not willing to admit it. When they finally let go and admit it, oh well, it’s all fireworks!

Both of them have a big character growth, with Avery finally stepping up for what she wants and not following the plans that her parents laid out for her, and Seth finally wanting something more in life for himself (as much as for Avery and Sarah).

I liked the writing, the two voices were very distinct, and the writing was easy and fast. Seth sex-talk was a bit much for me sometimes, but I won’t argue about it because it is effective. And he says the most romantic things!!! I won’t splatter them here, but you should definitely read them to see what I mean.

I did see a couple of small problems with the plot, but nothing major. The premise was simple and, again, affective, but although I commend Avery for totally destroying the jerk’s car, I don’t think she had enough feelings for him to do so, but I can buy it on the “betrayal” level. I do think that in the end she forgave him too easily, even if he justified all his actions, he still did an horrible thing, and I didn’t agree with their truce and friendship. I was also pissed by the way Seth reacted near the end, I think that Avery deserved better than that – lucky for him, he was able to redeem himself. I also think that Shari disappeared too easily from Avery’s life once she got to college, given that they weren’t that far away, I would expect – and wanted – a little girl time, maybe discussing Avery’s new relationship with Seth.

But that’s not really that important! It was a great book and I hope we get to see more of Seth and Avery in the next book, about Ryan (:D – we already know that he’s also good at a lot of stuff... thanks Shari!), Whatever It Takes.

By the way, Seth is boyfriend material! Any guy who can keep his girlfriend THAT happy without even taking his clothes off, deserves all the praise! – Again people... very explicit material in this book... go read it!

Hmm still the second chapter but liking it a lot so far ;)

Actual Rating=4.85 stars

Oh my god, another one of those really cute books that actually made my heart ache. Literally my heart was hurting in the last few chapters. Ahhhhhh!!!! I have so much pent up emotions right now after this

So the story was about how two people meet during a bad time of their lives or maybe one of the worst. Avery for a stupid move and Seth for something that actually mattered. They started off on a wrong foot but both of them bounced back pretty good and quickly. Their chemistry was so visible that even blind man would have known. But their hit headed-ness kept them apart for a few weeks but basically in the end they figured that two of them were pretty perfect for each other. Well some fucked up shit happened and they got their happy ending? Hmm I wouldn't call it the happy ending but something close to that. Or maybe I can stay it as the beginning of their happy ending? Anyway the two of them sure made my heart totally hurt from reading the book. And nope it wasn't in a bad way. It was the totally good heart ache. The heart ache you love to have when you read an awesome book. They also wanted me to again feel so lonely :(Books rarely do that for me these days but this made me rethink my life in a way. I mean my love life not real life :D As my parting words I would like to say that it looked a lot like a book written by Jessica Sorenson. For some reason the storyline was similar to what you would read in one of her books. I also like to add that L.E.Bross is just as good as Sorenson too. Well you Sorenson lovers make sure to read this super awesome book too ;)

Also I've got to say the cover is pretty good and fitting :) Love it

This book was amazing!!! I wasn't expecting it but it touches deeply my heart...

Yeah, it was an ordinary story in a way, but somewhere in the development of the plot i felt my heart pounding loud in my chest for Seth and Avery...

I'm amazed by how touching was that book...

This was a story of a girl and a boy who fell in love...

This was a story of two worlds that collide...

This was a story of finding yourself and claiming the right to decide your own the course of your life...

This was a story about broken dreams and helpless people...

This was the story of a love so strong and deep that could change your life forever...

Avery was a rich girl that used to have everything she wanted.

I want lie to you... Sometimes in the beginning she was getting my nerves... She was acting so selfish, so bitchy, so daddy's girl... but she needed something to force her to reveal her true colours.

Avery was a girl that everyone thought that had it all... But she didn't have claim on her life. She always did what all the others wanted her to do, and she was satisfy with that!!!

Everything changed when she found her boyfriend cheating on her and lost it...

She smashed his car and then she had to pay for her actions by community service...

Seth was in prison for a year and now he was out and he had to make community service... His first night out, he and his buddy Ryan went for drinks and there he met this girl who made him a big impression... But when he had her exactly where he wanted, she slipped away from him...

Imagine his surprise when he met her on CS center and he realized that she was a spoiled rich girl...

She is not the right girl for him, but his heart has different opinion...

"I needed to focus... Needed to save my sister. Needed a million other things that weren't Avery.

But i've never really been good at staying away from what i want.

And fuck me if i didn't want her more than almost anything i ever had."

I enjoyed so much the interactions between Seth and Avery in the beginning. They were provoking each other all the time and they were acting a little bit immature... She was a major bitch and he was a big ass... But when they let themselves loose, they were such sweethearts!!!

They were so right for each other even though their worlds were miles apart!!!

I loved Seth's character. He was strong and decent. I know that he was in prison, but he had all the right of the world with him... He cared so much about his sister and her condition was eating him alive... Avery gave him the calmness that he needed so desperately. She showed him what could be his life if he will decide to take the right path...

Avery from the other hand, was nothing as she was presenting in the beginning of the book. She was so kind, so sweet. Her heart was so big!!! Seth made her to realize what falling in love means. He made her realize that her life was depent on a lie and that she had to choose her own path.

I liked the fact that she never, not once, doubted Seth. She was by his side 100% and i loved her for that!!!!

"I will do whatever i can to help you... I promise you that. Just... know that you are worth someone fighting for you too. You fight for Sara and i'll fight for you. Okay?"...

"You make me feel fucking invincible, do you know that? No one has ever done that before."

"You make me feel real. Alive. No one has ever done that for me."

Finally, I would like to reffer Ryan, Seth's friend. His was a friend with a big "F" and that was worthy of telling!!!

Damn it!!! I really loved that book!!! I want more...

I LOVED this story! Seth just got out of prison after being locked away for a year. He was trying to protect his sister but was charged with assault and put in jail. When he gets out, he has to complete community service. Avery's dad is running for mayor and has a zero tolerance policy he is running on so when his own daughter gets caught trashing her cheating boyfriends truck, he wants her to be punished to show the voters he means what he says about zero tolerance. Avery has to complete 300 hours of community service picking up trash on the side of the road. Avery and Seth have a really fun first meeting - and it's not at the community service they are going to be completing together.

There was so much I loved about this book. It was steamy, sweet, had some good banter and I loved the characters. These two had amazing chemistry from the first time they meet and I loved their relationship development. My only complaint about this was that I didn't like the little drama at the end and I really wanted an epilogue. I'm so excited to see Ryan's book is next - I'm hoping we get a little more Avery and Seth in his book! I really loved this book and I can't wait to read more by this author!

While I loved Seth and Avery and the premise of this book, for the most part I was bored. I wasn't feeling it. It was sooo slow. It dragged. I wanted to skip sections. Argh.

I wanted to love it so much, and I hate rating books low but I'm not going to lie just because I got the book for free.

It is so hard for me to resist a strong heroine. They are my weakness every bit as much as a believable yet lovable bad boy is and I'm happy to say that this book offers both, which is why from the very first chapter, I already liked Avery.

This truly isn't anything unheard of or that probably hasn't been done before with it's familiar tropes and cliches yet it was a fun read that I quickly finished in no time at all. I couldn't help but feel for both main characters and root for them along the way.

A fun setting, situation, and story line, this really is something that fans of the genre are going to devour and enjoy.

Right Where You are is the story of Avery and Seth. Avery has grown up the only daughter in a very prominent family always living the life her parents planned for her. But when she finds her boyfriend of 4 years cheating on her, she reacts badly. She destroys his expensive car. When he presses charges and her running-for-election father has to show that his one strike policy will be enforced no matter who's in trouble, Avery ends up having to spend the next 300 hours fulfilling her community service commitment with a group of ex-convicts fresh from prison. What she doesn't expect is that the guy she almost hooked up with the night before at a hole in the wall bar, will be one of the guys she's picking up trash with for the next 7 weeks.

Seth, out of prison for the first time in a year, meets Avery and notices that there is something different about her. When their initial meeting goes wrong, he's surprised to see her working community service when it's obvious she's from a different side of the tracks than the rest of the guys serving their time. After a few barbs thrown at each other, they soon learn that maybe appearances aren't what they seem and they begin to see each other in a new light. But Seth has been burned by the rich girl looking for a bad boy before and tries to guard his heart. Even though both have been hurtful in the past, with each other things seem different. But Avery and Seth are two people from such different circumstances and have to decide if they can really make it work.

This was a sweet story. I was able to read it in one sitting and enjoyed the banter between Avery and Seth. I

really liked how even though there was an initial attraction, they took their time getting to know each other first. They were both sincere characters that I felt for and hoped they could find their own way. I was a bit let down when after they first decided to act on their feelings, the story progressed really quickly in regards to declaring love and devotion. I also felt like the side conflicts each two faced were overcome too easily at the end as well as Avery and Seth's separation. I needed a bit more time and a bit more grovel for me to feel like everything happened right. Over all though, this story was a good, quick read.

"One thing Carrie Underwood forgot to mention: after you take a Louisville slugger to his headlights, and after you slash all four tires of your cheating ex-boyfriend's truck, you get arrested and charged with willful destruction of property."

L.E. Bross delivers a stunning and sexy emotional heartfelt romance in her newest release, **Right Where You Are**. As an avid reader, I have read my fair share of books that dealt with the theme of spoiled rich girl falling in love with the bad boy from the other side of the tracks and after awhile the storyline can get generic. But in the case for **Right Where You Are**, Ms. Bross implemented a storyline of spoiled rich girl falling for the bad boy but made it so much more. She was able to douse her readers with layers upon layers of raw emotions that will make you FEEL.

When Avery Melrose caught her longtime boyfriend cheating on her, she does what any sensible woman does at the time. She reacts and that means taking a bat and damaging his truck. So yes, Ms. Carrie Underwood, your song was taken into account but what Ms. Underwood forgot to mention is that you can face criminal misdemeanor charges for destruction of property. And for Avery Melrose that means 300 hours of community service and a hefty fine on property damages. In order for her to complete her 300 hours of community service, she is forced to take a semester off college. So this rich and spoiled daughter will have to trade in her designer clothes for an orange jumpsuit to picking up trash on the side of highways.

"She gave me hope that things could be better, and I needed that as much as I needed air to breathe. Avery was my air. And I might not deserve her, but I was going to do my damnedest to make her feel cherished and important."

Avery Melrose never thought her life would take a turn from sorority girl to now a girl with a misdemeanor record. It is often said things happen for a reason. And this mistake might actually be the best thing for Avery. When Avery meets Seth Hunter, who was recently released from prison, sparks of attraction was tangible from the start. Soon Avery begins to see the real Seth. She begins to know the young man who went to prison trying to protect his baby sister from their evil stepfather. As Avery and Seth begin to spend more time together with each other, Avery begins to find her true happiness. Seth brings out a whole new light and

self-discovery. But what happens when Seth realize that he can't offer Avery the castle and the life she truly deserves? Can Avery make Seth see that she doesn't need prince charming, but only him?

"It didn't matter that I wasn't looking for complications in my life. This funny, innocent, unpredictable girl owned me now. And I knew without a doubt that I would give her anything she wanted. All she had to do was ask."

I adored **Right Where You Are** and the heartwarming message that it sends to readers. I love getting lost in a book where you can see the changes in Avery and Seth. Ms. Bross did an amazing job showcasing and emphasizing the gift of second chances. Avery was given the second chance to see her potential and to discover her true passion in life. And Seth was able to see that his criminal record doesn't define him. He may have been born on the other side of the tracks but it is up to him to make the changes in his life. And as for the love aspect of the story, this book was brimming with so much passion, sensuality, and palpable connections. While this book doesn't have an epilogue, the author ends this book with a satisfying HEA but a part of me wished for a bit more. The writing in this book was clean and precise. Overall, I enjoyed this refreshing New Adult Romance from L.E. Bross.

I think I found a new series that I am in love with! Avery is in her last year of college and catches her boyfriend cheating on her. After seeing it with her own eyes she goes Carrie underwood on his ass. She ends up with community series, paying for the damages and finding true love.

Seth went to prison trying to protect his sister now that he is out he has made it his mission to finally help her. His first day out him and Ryan head to a bar and he becomes quickly fixed on the lovely Avery. But him getting together with her is going to take a whole lot of patience because she is a fire cracker.

What I really loved about this story was how different Avery and Seth were. He grew up in a trailer park and she has money. But when they are together you can see the fire works going off between them.

I liked Avery although she came from money she wasn't spoiled. One of my favorite parts of the book is when she showed up for CS and is shocked what she has to do. It showed her looking spoiled but as I continued to read you can see that she isn't. Avery also had a lot of spunk which was usually directed at Seth but it was cute.

I adored how sweet Seth was. Sure he had a messed up life and wanted to get his life back on track but he wanted to do with Avery by his side. Of course there are bumps in the road but I just loved the playfulness between these two. They were star crossed lovers that end up finding each other in the end.

Bross is a new author to me but I though she did well in executing this story and making me fall in love with these wonderful characters. I am really looking forward to this series and it looks like Ryan's book will be next! Yippee!!

If you love HEA and new adult books this is the book for you. Add this to you tbr.

Valentina Abbr says

Questo libro è stata una gran bella sorpresa. Nonostante sia pieno di clichè letti e riletti innumerevoli volte, è stato capace di tenermi incollata e farmi leggere pagina dopo pagina sempre con maggiore interesse. Avery è una ragazza che ha sempre avuto tutto dalla vita: nata e cresciuta in una famiglia benestante, un po' viziata e consapevole di avere il mondo ai suoi piedi. Suo padre è un avvocato conosciuto e rispettato da tutti, lei non vuole essere da meno. Anche lei, un giorno, sarà come suo padre. Peccato per un cavillo che d'improvviso cambierà la sua vita. Dopo aver trovato il suo fidanzato a letto con un'altra, si è beccata una condanna a svolgere trecento ore di servizi sociali e il pagamento di un risarcimento di quindicimila dollari. I soldi non sono un problema, non lo sono mai stati. Discorso diverso invece per la condanna ai servizi sociali. Avery si ritroverà a dover lavorare fianco a fianco con persone che non considera del suo stesso livello e che hanno commesso, almeno secondo lei, reati ben più gravi del suo piccolo sfogo di ira contro l'auto del suo fedifrago ex fidanzato.

Una serie di coincidenze porteranno Avery a incontrare Seth in un locale, a farli conoscere e avvicinare pericolosamente, il tutto in sole poche, pochissime ore. Arriveranno a toccarsi, desiderarsi, sedursi. Per poi non concludere niente.

Potete immaginare chi troverà Avery sul suo nuovo posto di "lavoro"? Ovviamente Seth! Lo shock sarà immediato. Nessuno dei due si aspettava di rivedere l'altro e sarà sempre più difficile gestire le bugie che Avery ha detto sul suo conto quella sera e il passato di Seth che verrà a galla in tutta la sua tragicità.

Ciò che più ho amato di questo libro sono i protagonisti. Avery, inizialmente, appare come una ragazzina viziata, quella che potrebbe stare antipatica alla maggior parte dei lettori, per poi venire fuori in tutto il suo splendore. Si dimostrerà caparbia, altruista e capace d'amare. Seth è, in una parola, wow. L'amore per la sua sorellina lo porterà a mettere più volte se stesso e la sua vita in secondo piano. E, vi dirò, in quei momenti mi sentivo di urlargli "ma lascia perdere!". (sì, esatto, la sorella non mi sta così simpatica!)

È un ragazzo pieno di risorse, insicuro fino al midollo. Si sentirà sempre un passo indietro rispetto ad Avery, soprattutto per via delle loro differenze sociali. Si convincerà di non essere ciò che fa per lei, di non andare bene e rinuncerà, con dolore e amarezza, al loro amore più volte.

Lo stile dell'autrice è scorrevole e diretto. Probabilmente dal finale mi aspettavo qualcosa in più, ma sono certa che torneremo a sentir parlare di Seth e Avery.

Come vi dicevo all'inizio i clichè ci sono e sono anche tanti. La ragazza ricca, viziata che si innamora del ragazzo sfortunato dal passato difficile, loro due che cercano di portare avanti questa storia contro tutto e tutti, il padre di lei che si mette in mezzo cercando di scalfire il loro amore e tramando alle spalle della figlia... nulla di nuovo. Eppure vi consiglio caldamente di dare una chance a quest'autrice perchè la storia, la sua scrittura e i suoi protagonisti la meritano tutta.

Amanti del new adult, qui c'è pane per i vostri denti!

This book is So. Damn. Good! It's not your typical NA romance, it's so much more! A relationship between an overindulged rich girl and a fresh out of prison paroled should never work but Avery and Seth have that perfect balance and chemistry that can't be denied. This is one of those books that once you start it you have to read just a little bit more. For her first stab at a contemporary NA book, this author hit it out of the park!

Can't wait for Ryan's story.

I definitely recommend this one.

Right Where You Are is L.E. Bross's first attempt at a New Adult romance and she has nailed it! First off, look at that cover. It's so simple, yet totally adorable. By the time I was 2% in, I was already laughing and soaking this book up like a sponge. The premise isn't anything we haven't seen before: rich girl falls for ex-con bad boy, and if that alone doesn't grab your attention, the substance and delivery will.
