An orphaned Hebrew princess disguises herself as an exiled peasant. A Babylonian slave chooses between the courage that could save her and despair over the love she has lost. A sorceress discovers the truth behind the origins of her dark power. The consequences of the masters they choose will reverberate through generations.

"The God of Mists and Shrouds" relates the stories of three women living in Babylon during the reign of King Amel-Marduk and the Israelites' exile there from 586-516 BC. Ziona must decide whether the God she knows has the power necessary to earn her continued trust. Gatha looks for the courage to speak the truth, and to choose either a faith that promises hope, or the despair which accompanies circumstances she can't control. Parva discovers the reality of her helplessness against the dark forces of a spirit world she gravely underestimated.
