**The Wag's Diary** Alison Kervin  
Welcome to the world of the WAGs...

32-year-old Tracie Martin is Luton Town FC's longest-serving WAG – for 12 years her husband Dean has kept her in raccoon hair extensions and quilted Chanel bags.

But looking around at the new breed of WAGS, Tracie is disgusted to see that standards have started to decline – some of them have been spotted in skirts that cover their bottoms and one or two have never drank four bottles of champagne on a night out!

And what's worse, Dean is dropped from the first team and their daughter Paskia Rose is only interested in the rules and skills of the beautiful game – she wants to follow in her father's footsteps rather than her mother's stiletto-clad ones.

What's a WAG to do? Armed only with her Smythson notebook and Tiffany pen, Tracie sets out to write the definitive rulebook on life as a WAG, soon developing a cult following. Surely it's only a matter of time before the Queen of the WAGS – Victoria Beckham – wants to be her new best friend?

## **From Reader Review The Wag's Diary for online ebook**

### **Rosie says**

Hysterically funny, such a great read. Tracie is the WAG who you can't help but love.

---

### **Em says**

I was first drawn to this book because the cover was super adorable. I have always been super lucky at impulse buying because of an adorable cover and its a fantastic read!

The second thing was the title, it is so sweet :)

This book is fairly small page wise compared to others on the market so it makes for a quick read. I thought it was hilarious and i was envious at first, what girl doesn't want the acrylic nails, the jewelry, the ugg boots. Cute, light hearted read and would recomend! X

---

### **Fran Cole says**

ABSOLUTELY FANTASTIC if you dont take life to seriously and want a nice lighthearted funny read - would definately recommend!!!

---

### **Lisa says**

Not a book that I would've chosen myself but it was recommended to me and I'm glad it was. The Wags Diary is a surprisingly laugh out loud, very good, light hearted and fun read. The characters are all charming and likable and if you take it in the manner it was intended - tongue-in-cheek and not seriously you'll enjoy it.

---

### **Jessica says**

This book came free with a Glamour magazine, and the writing in Glamour is better :) WAGS are apparently British soccer players' wives, and Tracie Martin is a queen-- fake tan, fake hair, fake nails, fake boobs, but not a fake person somehow. Begins writing a handbook, finds out mum's secrets. Hard to take it seriously when it takes a serious turn because the writing is clumsy and ironic but not within a lasting context.

---

### **Angie Marie says**

I own a copy of this book and have read it many times. I didn't think I would enjoy it as much as I did. I would recommend to those who like fashion and celebrity culture. It is a short read and I finished it in a day

(I'm a slow reader overall... I have dyslexia but hey)

---

### **Keris says**

Despite my general obsession with celebrity, I don't have much interest in the WAGs. In case you're unaware of them, the WAGs are the wives and girlfriends of professional footballers. Victoria Beckham is their Queen (obviously), but there are loads of others, like Wayne Rooney's fiance Coleen McLoughlin and Alex Curran, wife of Steven Gerrard.

Anyway, despite not being interested in the WAGs, I was interested to read The WAG's Diary because I'd heard so much about it and the author, Alison Kervin, gave us such a good interview.

### **Lynne says**

This was an easy enough book to read and in places it was quite funny but the author just seemed to be trying too hard to be funny and to make her main character Tracie Martin as dim as possible. Tracie is a WAG - wife of Luton Town's captain Dean. She's head WAG and find herself upstaged by up and coming new WAGS. So she sets about writing a WAGS handbook! Definitely light and fluffy chick lit with some funny parts but on the whole with OTT and not very believeable characters.

---

### **Clare F says**

I thought this book was hilarious. I can't imagine any real WAGS would though. The story was interesting and the only thing that would have improved it would have been to follow up on meeting her father.

---

### **Jayne says**

The funniest book I have ever read. Just a delight. Tracie appears superficial at first but soon grows into a lovely, rounded person who just wants to be a Wag so badly. Lovely book

---

### **Helen Cosford says**

Light hearted easy read. Great summer reading.

---

### **Zoë says**

This was brilliant and well written a truly laugh out loud book. Was a little hard to get into to start but really funny once i got into it. I loved seeing how she grew and she did develop but still be a bimbo at the same time

---

### **Hinal says**

It's more of 2.75 but i thought i would be nice and round up.

Some parts of it are quite funny.

The humour in this is usually idiotic where Tracie is conveyed as ignorant and stupid(it's one of my fave types of humour).

It's an effort to read because some parts of it are quite boring.

The only reason i read it was because my sister gave it to me but i definitely wouldn't buy it with my own money.

---

### **Grace says**

I was pleasantly surprised by this book. I thought that it would be bog standard chick lit but it was very funny and takes a side swipe at the world of the Wags.

The main character is very likeable and is funny without meaning to be. It's definately the sort of book that you don't think that you would enjoy because of the subject matter but with the humour it is more than readable.

I have just started the second book in the series A Wag Abroad and hope that I enjoy it as much. So far, so good.

---

### **Ann says**

I really enjoyed reading The Wag`S Diary. Tracie Martin is a Wag (my first time hearing of the term). What a complicated life she is leading. Everything is strictly determined, all the fake tans, extensions, fake boobs, clothing etcetc. Being so naive must be easy to live. Not caring about anything except one`s apperance. Tracie is offered a chance to teach aspiring Wags first by writing a blog and then a book. She is surrounded by people who really care about her (Dean, Paskia, Nell - oh, poor Nell) and those who are just bad. Funny read.
