Wicked Ride:

Logan McKay is running from his past, and has found some measure of solace passing his days working at The Wicked Horse as one of their Fantasy Makers. When Maggie Waylon is dropped at his house, beaten and unconscious, Bridger is forced to face his demons. Will Maggie be able to help him break through the darkness, or will Bridger's past prove to be too much for him to overcome?

Chanel says

These books centers around hot, alpha type men that are all involved with the Wicked Horse, a "Sex Club" in Wyoming-yeah, not the first State that comes to mind for that type of club. The whole concept of a Sex Club is foreign to me, so these books were a real eye opener, and most of the time I was shocked by the scenes unfolding at the Wicked Horse. I will say, the author provided interesting characters, and gave the readers a good backstory on each person, which helped me connect to the couples. Those connections made it even harder to accept that the women took part in quite racy (taboo) sexual activities at the club, and even more unreal to me, was that their men arranged for their girlfriends' fantasies to come true, which most often met sharing them with other men (their friends). I think everyone but one person, was with Bridger at one time or another.

Even though many scenes made me uncomfortable, the story lines held my attention, and I just had to read Bridger's story, which was in the last book for this series. Over-all Rating 3.75

Casey Leigh says

A Wickedly engaging series. Too Hot to put down, ideally read (each book) in one sitting - book hangover guaranteed.

Each story can be stand alone but as a whole set it is definitely swoon-worthy.

Allyson Morris says

Woooo I got five books in this bundle and they were all amazing. I had to wait until the last one to get Bridger's story and it was worth the wait. He was the best through out all the other books and I so wanted him to have a happy ending. I was not disappointed and any of the endings. I would read them in order because the characters all intertwine through out the series !!

Wicked Fall :

Sawyer Bennett turns up the heat on this story! Woolf Jennings has been running his family's business, JennCo and the Double J ranch since his father passed away. Feeling bored and unsettled he partners with his best friend Bridger and opens Wicked Horse, a western styled nightclub on the property of the Double J ranch. What most people don't know is that out back from the Wicked Horse is The Silo, a private membership only, fantasy sex club. One night at the Wicked Horse, Woolf spies a blast from his past up on the bar entering a wet T-shirt contest. Little Callie Hayes, who also happens to be the Governor's daughter, isn't so little anymore. Callie is the younger sister of his deceased friend, Richard, the girl he had a big crush on growing up. Woolf grabs Callie off of the bar and takes her outside. What Woolf doesn't know is that Callie is trying to shed her good girl image after a humiliating experience with her ex-fiance. What Callie doesn't know is that Woolf still has feelings for her.

The journey these two go on to find their true selves was great! I really enjoyed their interactions with Bridger and can't wait for his story! The chemistry between these two was off the charts! It's hard when your head is telling you "no" but your body is screaming "YES!" I really enjoyed their story of coming together after all these years. It was sweet and sexy all wrapped up in one. I also loved the preview of Cain's story! ;)

Wicked Lust :

I just adore this series from Sawyer Bennett! This story is about Cain Bonham and Sloane Preston. Cain is the head of security at the The Wicked Horse and The Silo. He is totally an alpha male that has no desire to settle down. He enjoys doing whatever and whomever he wants! His typical hookup is one and done but he can't stop noticing the blonde woman who keeps showing up at The Wicked Horse. She intrigues him in a way that other women never have. Enter Sloane, the blonde woman trying for Cain's attention. What Cain doesn't know is that Sloane is there trying to find a lead for a story for the political newspaper she works about Governor Hayes and his daughter Callie. Cain and Sloane finally hook up but neither of them expected the connection to be so strong. It's like they found their soul mates.

I really enjoyed how they each brought out the best in each other,. I knew when their feelings started getting stronger and real that things were going to explode when he found out the real reason she was in town. I just didn't expect Bridger would have such a big part in it and that I would end up loving his character even more!

I really enjoyed all the sexy scenes! I loved what Cain set up for Sloane! OMG!

Overall this book was a great addition to a fun series and I can't wait to read the next book. Although I'm a little disappointed that the next book is not Bridger's, Rand story seems like it will be interesting.

Wicked Need :

I think every woman needs a man like Rand Bishop in their lives. Rand works part-time at The Silo helping to deliver fantasies. He is a retired professional skier and leads a very laid back life. Catherine "Cat" Vaughn has been a member for a while and would normally come in with her much older, very rich husband while he just watched her play. Now that Cat's husband is dead, Rand finds out that she has been left with nothing, and no place to live. Since Rand has always felt a connection to Cat, he decides to help her out and offers up his place for her to crash until she can get on her feet again. As Rand and Cat spend more time together they realize that many things that they thought were true about each other, were in reality, not true. Cat had a very bad childhood and has always thought very poorly of herself. Rand realizes what a great person she truly is and things quickly develop between the two of them. What chemistry these two have...HOT! Like off the charts hot! I loved how this laid back guy quickly turns into a one-woman man! I enjoyed how all of our favorites were back helping Cat with problems from her past. And then there's Bridger! Every book in this series makes you fall in love with him even more.

Overall this book was a great story, with great characters. Great addition to this series!

Wicked Ride :

This is Logan McKay's story and boy it is a good one. Logan has some serious issues from his past that he is refusing to deal with. Instead he spends most of his time at The Silo looking for his next sexual encounter. He's not picky, just as long as he can forget his past....until SHE walks in...black hair, blue eyes and skin so pale, but unfortunately word on the street is that her virginity is being auctioned off to the highest bidder. Logan can tell that Auralie is not comfortable being paraded around, showing off her virginity and feels this need to protect her from Magnus, her "owner". What Logan doesn't know is that Auralie is there working a con to try and get her dad out of trouble. The connection these two had was crazy. They knew what each

other was thinking just by looking at each other. As Logan and Auralie spend more time together it is obvious that they have feelings for each other. It is also obvious that each of them is hiding things from each other. As Logan and Auralie continued on this path, Logan was getting more pulled in until it comes down to having to be open and honest with each other. Auralie's back story was interesting but Logan's was WOW...didn't see that one coming! I loved these two characters and their wonderful story. They really were made for each other and their chemistry was just off the charts! Great addition to this fun, sexy series and I can't wait for Bridger's story, which had a sneak peek at the end!

Wicked Bond :

We finally get to find out about Bridger's story and what a doozy it was! Bridger Payne grew up with a really crappy childhood after his dad passed away and he was left with his stepmother. Wow...my heart just ached for that little boy and it really explains why Bridger is the way he is in adulthood.

Bridger never expected to meet a woman who would capture his attention completely and make him want to be a normal person but that is what happened when Kyle Sommerville drops off a woman at his doorstep.

Maggie Waylon is a girl who got caught up with the wrong crowd and ended up at the Mayhem's Mission compound....an MC gang involved in some shady dealings. Kyle, an undercover ATF agent, explains that Zeke, the head of Mayhem's Mission made this girl his property so she could bore him a child which made Zeke's old lady, Kayla not too happy because she couldn't. Maggie was able to escape the compound and hide her daughter, Belle, but was then caught and taken back to the compound where Kayla was torturing her. Kyle was able to get her out of there and brought her to Bridger's to hide out.

Bridger nursed Maggie back to health and quickly became attracted to her. Bridger doesn't do relationships but something about Maggie kept pulling at him. I just adored how this woman was finally able to tame big, bad Bridger. It was a hell of ride to get there, but she eventually did it. The story that Bridger and Maggie go through to get to their happy ending was so sexy, yet so emotional at the same time. Add in Maggie's adorable daughter, Belle and it was perfect. I just loved the way Bridger was with Belle....I never, I mean NEVER would have expected Bridger to be how he was with Belle! Sigh!

It was a long wait for Bridger's story, but it was sure worth it!

Jamie Rhodes says

These books will take you to a world that most of us know nothing about. These books will entertain you. They will make you fan yourself. Yes, they are erotic but more than that each book has a deep storyline. Each set of characters have their own issues to work through. The characters will pull you in and make you fall for them. I know that these books may not be for everyone, but I enjoyed going into a "fantasy" world. Each book features a different couple, but most make cameo appearances throughout each book. I loved them.

Monique says

This is the original series from Sawyer Bennett about a sex club. Each book is a standalone, but I recommend reading them in order to get the full effect. They are all great reads with exceptionally wicked men who like

a twist in their sex life. They each find a woman that not only can deal with their kinky ways, but loves to do so. And even though there is a lot of sex in these books, the story line for each is what had me captivated. These men are all bravo but they each have a super sweet sensitive side that only makes them more endearing. You can't go wrong with this boxset.

Heather andrews says

WICKED FALL:

When Woolf is horny he is a take no prisoners kind of man, "I'm going to eff you , Callie. You're so wet and ready right now, and I know you need it. God help me... I effing need it too." Woolf he knows how to grovel and apologise, "I'm sorry I didn't call you," I tell her. "I'm sorry I stayed away from you. Okay?" She nods against the hold I have on her. "We'll talk about Will and us later, okay?" She nods again. "I'm going to make you come now with my face between your legs, okay?" Woolf can get jealous, "are you defending him?" Woolf asks me with incredulity. "With my ***k still deep inside of you and my cum leaking out, are you defending that a**hole?" This is going to be a great series I loved the characters.

WICKED LUST:

Cain is such a romantic guy, "you have the softest lips. I've wanted to kiss them all night, but I got too caught up in the need to eff you." Cain can be a sarcastic man, "you came three times," I say, equally out of breath. "I think I just blew the head off my ***k. So yeah... that was really, really good." I liked being in Cain's mind for the most part but at times I just didn't like his thinking. Cain is all alpha male, "I'm so effing horny right now, I'm pretty much guaranteed to attack you the minute we get in the house," I tell Sloane with all honesty." I loved this book

WICKED NEED:

Rand is not a bashful man, "the sooner we eat, the sooner I can eff you," I tell her in a matter-of-fact manner." I really get into these books, therefor I don't make many notes I loved Rand, he was such a good man, all these men are good but Rand for me takes the cake.

WICKED RIDE:

There are times we see Logan lose his cool, and become an impatient man, "he snarls at me as he starts to push his jeans and boxers down his long legs. "Lose the panties or I'll rip them off you." Auralie was so pure and honest I think it threw Logan off balance not that, that wasn't a good thing, "I want you inside me," she says softly, her eyes warm and inviting. "Is that inappropriate?" I liked this book I love the characters, I'm always eager for the next one.

WICKED BOND:

Bridger has got some stamina in him, the boy just can't get enough of his girl, "I don't even hesitate. "Want to get a second wind, and then I want to do that again. Then maybe we'll grab some dinner, and then I definitely want to do it again after that." I loved this book, I loved Bridger, he had a dark past but Maggie never gave up on the man.

I love this series!!!!

Wicked Fall

This is the first book in the Wicked Horse Series by the AMAZING Sawyer Bennett & from someone who has read almost every single thing she has written, I'm telling you THIS BOOK IS INCREDIBLE!!!! My favorite of all her books so far & that is saying a lot!!!

Wolff Jennings has seen & done it all!!! He's rich, sexy, & he loves kink!!! Or does he? When Woolf & his partner decide to open a "members only" BDSM club on the edge of his property they decide to camouflage it with a honky-tonk bar. He pretty much thinks his life is set until one night in the bar he hears "the sweetest voice I've never been able to forget" & that's when things start to get complicated.

When Callie Hart's marriage falls apart she goes home to get her life back in order & to start figure out where to go from there. The last thing she expects is to be carried out of the Wicked Horse over the shoulder of her teen-age crush when she enters a wet t-shirt contest. But that's just the beginning of the excitement.

And if you want to know more you REALLY need to buy this book!!!! It is sexy, sweet, & damn HAWT!!!!

Wicked Lust

Sawyer Bennett's books just keep getting hotter & hotter. And Wicked Lust definitely falls in that category. I have been reading her books for at least a year and a half now, read them all, & each new book causes me to fall in love all over again, with her writing & her characters.

Cain Bonham isn't interested in any more than a hot hook-up, at least that's what he thinks. Then he sees a sexy-sweet blond across the Wicked Horse bar. The mix between sweet & sexy with a dash of bold thrown in is enough to get his attention. Little does he realize that once may not be enough this time. But Cain has secrets & those secrets are about to blow up in his face!

Sloane Preston is not exactly what she seems, nor is she sure she is what she wants to be. At least that's how she's starting to feel after getting to know Cain Bonham. When she shows up at the Wicked Horse she has one thing on her mind. Find an in so she can expose a dirty politician. It doesn't take her long to realize that things are not always as they seem. Will she find what she's looking for? Or will she realize that there are more important things than chasing the next big story? Especially when that story isn't quite what it seemed to be in the beginning.

What a fantastically hot set of twists & turns. Oh, & the ending, NOT AT ALL what I was expecting!!! Most definitely a MUST READ in this reviewer's opinion!!!! CAN NOT WAIT to see what this author comes up with next!!!!

Wicked Need

WOW!!! Absolutely didn't see this one coming!!!

I love that each one of the Wicked books is better than the last.

The story of Rand and Cat is sweet, poignant, and VERY HOT!!!

We first met Catherine Vaughn in Wicked Fall. And we saw more of her in Wicked Lust. Maybe thought we got to know her a little better there, even though she was very much a peripheral character in each of those

stories. But as it turns out, we knew NOTHING about Catherine, nor did the people at The Silo. Cat's story totally broke my heart and pissed me off. This story has some major twists that are going to shock the readers.

Rand Bishop, Fantasy Maker at The Silo. Anyone who has read the first two books in this series probably has a bit of a crush on Rand. I know I did. He's just so darn HOT!!! But there is so much more to this character than we could have imagined. And, IMHO, that just makes him even hotter. And oh so sweet.

This story has everything that makes a great read. Hot sex, angst, danger, intrigue. Definitely a must read!!!!

Wicked Ride

Holy WOW!!!! Each book in this series just gets better & better.

There are so many surprises in this book, it will keep the reader guessing all the way to the end. I just can't say enough about how many twists this book has. FANTASTIC read!!!! Best one yet!!!

Wicked Bond

It's been really hard to be patient waiting for Bridger's story. Not just for me, either. I've seen other readers post about wanting to read his story. I am here to tell you that it was certainly worth the wait!!! This is far and away the best book in this series, and that's saying a lot because it's been a really great series!!!

Maggie... WOW!!! The things that have been done to her that land her where she is, and the reasons, are going to floor you!! She may have made some rotten choices in her past but she more than makes up for it when it counts. And she is EXACTLY the woman Bridger needs in his life. No matter how hard he fights it.

And Bridger!!! His story... GAH!!!! So broken and yet, so strong!!! Maggie may be exactly what Bridger needs but will he be willing, or even able, to open up enough to let her in. Or is he just too set in his ways, too comfortable in his brokenness, to give Maggie and love a chance?

I heard a lot of good things about this series so I bought the box set since it was only .99 cents. The Wicked Horse series by Sawyer Bennett is about a sex club. You get the stories of the men that own the club as well as a few who work there. Each book is technically a standalone. If you want to know and understand how everyone and everything interconnects then you should read the books in order. Many things overlap and it will make more sense as you're reading if you do so. I'm not going to lie, there is a lot of sex in these books, a lot. I think that these types of stories are losing their steam for me. There were some great storylines in there, but it seemed like it was more about the sex. Which makes sense since the premise is a sex club, but it became a bit repetitive and I ended up skimming those parts. If you are looking for some bdsm erotica with some hot alpha cowboys then this is the boxset to pick up.

WICKED FALL

Woolf Jennings...just the name is enough to raise some eyebrows and make you breathe faster. He is the CEO of a Fortune 100 company in Wyoming and a rancher but there is something missing in his life. He and his best friend, Bridger, build Wild Horses on the fringes of Jennings land although Wild Horses is not just a nightclub for the locals and tourists it is the front for Woolf's real passion...The Silo, a sex club.

Callie Hayes is the governors daughter and she has been in love with Woolf since she was a young girl. Little did she know when she comes back to Jackson to mend her broken heart he would be there.

It was a lot of fun to watch these two fall and I cannot wait for the next installment in this series.

WICKED LUST

Cain is the head of security at Wicked Horses and a fantasy maker at The Silo. Sloan is an undercover reporter who is sent to Wyoming to get "the dirt" on Governor Hayes (Callie's dad) and his connection to the secret sex club. The story twists and turns and leaves us hot and bothered at every turn. Definitely a must read! There are enough secondary characters to keep this series going for quite a while but I really cannot wait for Bridger's story :)

WICKED NEED

We start in The Silo but this story really does not take place there. We met Catherine in previous installments of this series and we know she likes to play, or so we have been led to believe. Actually her husband has forced her to. Now her husband is dead and left her homeless, again we are led to believe, and Rand comes to her rescue. Rand is a fantasy maker at The Silo and he has a "White Knight" syndrome which comes out in full force but he is determined to not let that be the basis for helping Cat. This book is WONDERFUL! These characters are made for each other. They both bring so much to each other that is missing in the other's life it was a pleasure to watch them grow close. It was especially gratifying to watch Cat blossom and realize she is worth the love Rand has to give. I cannot wait for the next installment in this series!!!!

WICKED RIDE

This is Logan McKay's story and WOW what a story it is. We have been watching him in the last couple books play with in the Silo and at the end of the last book we saw him make eye contact with a new player and they seem to have a connection without words having to be spoken. Auralie is being paraded about the Silo by a man who is "selling" her virginity to the highest bidder. Seriously! This did not sound like it was going to make for a good story but, oh were we wrong. Logan and Auralie have a connection that is strong and once they get to know each other and establish a bond it quickly grows. This series just keeps getting better and better and I can hardly wait for the next one!

WICKED BOND

Bridger Payne, you may have ruined me for all other book boyfriends...

From the first time you graced the pages of Wicked Fall there was something about your tortured soul I knew was going to make me laugh and cry and cry and curse and then tear up some more. This book was so beautifully written with just enough angst to bring it all together. There is hot lovin', hot men, sassy women, horse riding, two-year-old sweetheart, and, of course, all the players from the previous books to bring this

series to a close.

Each book in this series can be read as a stand alone but WHY WOULD YOU WANT TO? I definitely recommend this book and each and every book in this series. This one is my favorite and will be read again on a cold winter day (I am actually looking forward to it).

Hannah says

\$0.99 is a great deal for all 5 books! While the books don't have a lot of depth, they have some very inventive sex scenes and are pretty quick reads.
