Uprising Gabriella Lepore

Still reeling after discovering she's a witch, Mia learns that sixteen years ago she was born with The Arx—a force-field so coveted that dark witches would stop at nothing to steal it. With her brother Dino at her side, she flees to the Glass Castle in hopes of reversing the sinister fate foreseen by their aunt. Despite Dino's warnings, Mia seeks comfort from Colt, the alluring Hunter charged with protecting her. But just as Dino begins to trust Colt, the siblings are blindsided by an unnerving suspicion: can a Hunter ever be trusted?

Mia time at the castle taught her allot, but leaving it all behind and going back to the normality of school is hard espically when she finds out someone is after her. Her and her brother Dino escape back to the glass castle once again and this time even though they know more about themselves they still have growing pains when it comes to their powers and who they can trust.

She became close to Colt over the summer, but is the memory better than reality or will they find their feeling have only gotten stronger?

As they work to uncover the mystery of who is after her for her power loyalties will be tested and trust will be hard to find amongst themselves. When it all comes crashing down how much will the betrayer have taken from them?

Mia has grown stronger as a person, even though she is still learning about her powers. She lets her instincts guide her and while some might think her foolish for it you see how much stronger she really is.

Dino is trying to find himself after the disaster that was last summer, and he's determined to do everything he can to be different from his father. I enjoyed seeing more of him in this one and seeing his growth.

Great addition to this series I was sucked into the story from the start and am excited to see even more from this series in the future.

Another great read!!

After reading book 1, yesterday, I had to read book 2, today. Yes! It was that good. This book brings back all the characters you fell in love with and again, Mia's life is in danger. Back to the Glass Castle they go for protection. But sometimes the ones you trust are the ones to fear!

Perfect sequel! There's something in these books that makes them feel cozy and puts a smile on my face. I

don't know what it is but I love it. Every character in these books is special and they are going stay in my mind a long time.

If there just were more time, I would return to this world because I just simply love it!

I really enjoyed this book, the relationship between Mia and Colt especially.

Someone is out to kill Mia and steal her power and Dino doesn't want Mia sent away so he talks her into fleeing their home and going back to the Glass Castle.

Is she safe there?

A little predictable but as good as the first one. Gabriella's writing was even better in this sequel! i'm excited to read more books by her

Just as good.

I finished the first one and bought the second one straight after. I love these books. They are fast, easy and the magic system is to die for. I have become wildly addicted to these two books and i hope a third is coming

soon. I am honest in this review but even though they didn't send me this and did nothing to decide my opinion, I would like to thank oftomes for everything and showing me these books.

Shelley says

Better than the first.

The second installment in this series shows growth in the writer. Like the first story it is more of a plot driven story with not as much focus on character development. There was a couple of times that I felt that the details given did not drive the story along, but they were short lived. I also felt that this was a very predictable, but the story flows so nicely that it is completely forgivable. I will be eagerly awaiting the next book in this series.

really enjoyed this book, it's a shame it's only a duology, the ending was hopeful, quick read and I liked the characters too ^_^

This book is the sequel to "The witches of the Glass Castle" that I really enjoyed !!! I wanted to read more and more about Mia, Colt, Dino and co.

When I learned that a sequel would be released in December, I was more than happy !

This book follows once again Mia in her journey. This time, her mum and her aunt want to send her away to protect her from a mysterious danger. Dno and Mia run away to go to the Glass Castle and seek Gwendolyn's advices.

Of course, Mia is also happy to go back there because of Colt.

Colt is a hunter, which means he is not supposed to be trusted nor loved. But Mia and him fell in love. Mia trusts Colt, no matter what. But can she ?

People are disappearing, dying, and a book of dark magic is stolen. Everything seems to accuse Colt. But Mia can't believe that her Colt wants to kill her. despite a fight between them because of Colt's stubbornness, she trusts him more than everyone else, besides her brother Dino.

But if it's not Colt, who wants to kill her ?

This book is amazing, even better than the first one !

I liked everything. The witty comments, the plot, the characters development... You can't guess what will happen next, and it's pretty fast paced !

I really enjoyed coming back into this story although it took me a couple of chapters to recall some things that happened in the first book. I love the characters personalities and they are all hilarious in one way or another. I'm sad that Johnathan died as I quite liked him and I suspected Amos from the start and didn't really trust him because it was obvious. The ending was perfect but I hope this wasn't the last we see of these characters.

Paranormal Books R Us says

In this sequel to The Witches of the Glass Castle we find Mia and her brother Dino fleeing their home to return to the Glass Castle in order to avoid having Mia be sent away to hide her and her newly discovered gift. Mia was born with the Arx a powerful magical force field that keeps it's owner safe from all harm. Unfortunately for Mia where there is great power there is usually great evil looking to take that power for themselves.

Because of some magical visions they find out someone is looking to kill Mia to gain her power the only problem is they don't know who it is. So with the help of friends, mentors, and one seriously hunky Hunter boyfriend Mia and her brother try to keep her safe while finding a way to release her of the Arx without her getting hurt or worse. The only problem is when you don't know who your enemy is it can be anyone even those you trust the most.

This was a wonderful continuation of the Glass Castle series. The characters are interesting and as emotionally complex as most teenagers are but they always come together to help if there is trouble. Throw in some magic, mystery, and danger and you can't go wrong. I hope to see more to this series because I would love to see how the characters continue to grow and in this magic world the possibilities are endless. In my opinion Uprising is definitely recommended.
