2018 WINNER - ADULT FICTION (North Texas Book Festival)

Billy Whitehorse is a decorated Vietnam veteran and full blooded Cherokee Indian. Twenty years after his discharge, he is playing guitar in a Las Vegas lounge trying to deal with lingering PTSD. Billy is suddenly called home to Oklahoma to help his father and his tribe fulfill their dream of creating a resort casino on Indian land, assisted by a recent bill in Congress. He learns quickly that a Vegas mobster and a rich, spoiled businessman want to destroy his dream and will stop at nothing.

### **Russell Howen says**

Jim Frishkey pulls out all the stops in his new novel "Whitehorse", the story of an Indian of the old school, who takes on the mob to avenge its killing of his pregnant wife-to-be in a failed effort to kill him. He's a man with a heart, who loves well, but hates those who hurt the ones he loves. It's one book I kept wanting to read more.
