"You're afraid of really living, Haley." He flicked his finger at her camera. "You hide behind your camera instead of stepping out and engaging life with both hands. You're so afraid you'll fail at something, you won't even try."

For some people, Alaska is a breathtaking wilderness adventure, full of light and beauty. For Haley, it is a dangerous world of dark dreams and tortured memories. On the surface, she's here to document wildlife activist Kipp Nowak's bear encounters. But her real reason is to unearth the truth about a past murder. The suspense mounts when another body turns up, and Haley begins to wonder if the tragedies she experienced in the past are connected to the dangers and mysterious incidents of the present. From behind the viewfinder of her camera, Haley observes it all, including Tank Lassiter, the bear biologist who has been forced to lead Kipp and his team into the Alaskan backcountry. As she watches him with his work, she feels a growing attraction. It will take great courage and faith to confront the truth she once ran away from. Before it's over, Haley may be viewing herself from an entirely new angle.

*Alaska Twilight* is the story of a young woman's emergence from the shadows of past sorrow into the light of forgiveness and grace.

3.5 stars rounded up. I was disappointed in how the story ended. It was definitely a surprise though! But appreciated the uniqueness of Haley.. not your typical heroine !  
The romance was insta IMHO.  
Liked the S&R with dogs.. lots of movement NOT a boring book by any means.  
Great cover.

#### **Engaging!**

Another I-couldn't-put-it-down read! It's refreshing to read Christian fiction that isn't sappy and unrealistic. Coble gives this genre quality and nobility.

I struggled a little bit rating this one. It held my interest, I enjoyed it, and I loved the mix of mystery and romance. There were simply several times during the course of the book that I found something a little hard to fully believe, so I considered rating it a three, but entertainment value won out and I went with a four. The author does a very good job making the reader feel they are actually experiencing the Alaskan wilderness, and I enjoyed the characters of Haley, Brooke, and Tank. If you want an intense mystery with some sweet parts mixed in, I would recommend this book.

2.5 stars--Christian romantic suspense--Woman goes to Alaska to photograph a guy who deals with bears, finds out something about parents who were killed. Irritating in places.

I enjoyed this book, it had a good mix of adventure, suspense, and romance. I also enjoyed learning about the bears and I didn't guess who was behind the string of murders until the reveal. I also liked the fact that the protagonist, Haley, is handicapped, you don't read many books where that's the case.

I tried. I know I have read other books by this author but this one..... I kept seeing her descriptions of the main characters. His hands were so big they covered her whole head when he touched her. All that plaid. I was surprised at the ending but by then I was more surprised that I stayed with it that long.

This is quite an adventure, so don't be fooled by the benign title. I really enjoyed it and would recommend it as one of my favorites by this author. I loved the characters, the Christian message, the setting(s) and the idea of a never-completely-dark 24 hours. I can't even imagine sleeping without night!

### **Aletha says**

I enjoyed this story, but found the redemption and sudden faith in Christ of the main female protagonist to be a bit tacky. She was pushed in the direction from people around her, but it seemed like her transformation was instant. There was no inner dialogue or inkling that she was changing her point of view until the last minute.

The bears, the Alaskan wilderness, the suspense, and the twist in the end were all well done! I look forward to reading more of Coble's!

Unimpressed. That's how I describe my attitude through the entirety of this book. I can't really blame the author; freelance writers tend to be of an, er, lesser quality.

The usage of Christianity felt forced, the relationships were very superficial, the dialogue was synonymous with a 14 year olds creative writing assignment. Just a lot about this was over all unimpressive. Not recommended to anyone younger than 40 of Protestant religion who doesn't spend their days knitting and watching family feud.

Celebrated my 25th wedding anniversary in Alaska and brought this book along for the journey. It had just the right amount of suspense and mystery, with a pinch of romance. It was a well-chosen read for my trip, for sure. Unfortunately, I saw more bears in my imagine while reading the story than I did on my vacation!

I was hooked the first page. Cobble is quickly becoming my go to author. This book was riveting from beginning to end. 5 stars.

Books that take place in Alaska always make me curious, hence the reason I started this book.

Sadly the few books written by Miss Colleen that I've read haven't been my style. Although I like a good mystery, I really dislike violence, and her books have too much violence for my tastes. In addition to human/human violence, there was also animal/human violence. There were several other things I disliked, including the fact that some of the comments regarding bears seemed ill-researched and therefore took me out of the story and made it feel unbelievable to me.

The plot was interesting, and the main characters were complex and grew during the story, but overall this book really wasn't one I liked.

Isaiah 41:10

Such a sweet, feel-good story. I love reading Colleen Coble's light romances for a quick escape from real life. A bookmark from my grandmother was stuck in this book and in her handwriting it reads: The nicest place to be is in someone's thoughts — the safest place to be is in someone's prayers — And the best place to be is in God's hands.
