Angels and Alchemy: A Mystical Love Story Donna Wolfe Gatti

In heaven, there is a special order of angels dedicated to the spiritual evolution of humanity. Headed by Archangel Michael, they are experts in the art of alchemy. Their sacred doctrine contains no references to black magic or mysterious formulas to transmute lead into gold. The substance these angels value most is the human spirit, and their mission is to transform a leaden soul into a golden light. The tools they use are knowledge, wisdom and truth.

Maya works for the angelic kingdom. On the surface she appears to be an average woman, but her life is far from normal. She spends her days communicating with angels and delivering their messages to those who are led to her threshold.

Donatella Capriani's only goal is to marry the charismatic and powerful Nick Brutelli. Willing to do anything to win his heart, she strikes a bargain with God. An extraordinary sign in the sky leads her to a modest house in the Pacific Northwest. She will be the next person to knock on Maya's door.

A well written book, although I found it a bit repetitive in places.

I received the book for free through Goodreads First Reads.

I won this book, and am very, very glad! It's well written, has a great story line, and is meaningful. I read it slowly to really absorb the meanings, and will be reading it again. This is a book that will change lives!

Thank you so much, Donna!

Cheryl says

I won this book as part of a goodreads giveaway. I enjoyed reading this book very much. It has challenged the way I think of angels though. I always thought angels were just departed loved ones looking over us and perhaps sometimes pushing us to go in a particular direction. I believe in mediums and I understand why they must have spirit guides but I never thought everyone would have guides or guardian angels in the respect portrayed in this book. It has given me a lot to think about and I may now read Donna's non-fiction book about angels to examine things further.

I won my copy of Angels and Alchemy: A Mystical Love Story from Goodreads.com a book that takes you on a spiritual quest. For quite sometime I've become intrigued with angels and the other-side, leading me on my own quest in search of answers. This book is my first venture in search of some of those answers, and the well written story has shed some light for me. The author is well informed and her knowledge of angels has opened-up a lot of questions for me, and compelled me to continue my search in hopes of finding the answers to those questions. It doesn't matter if you believe in angels or not. The book gives you time to ponder your thoughts, and to allow faith to seep in, take hold, and give some truth to what we know very little about. Yes, miracles do happen.

A spiritual journey that will cause you to take a long look at your own path. I could not put the book down. Angels and Alchemy made me take a look at choices I have made and what effect they may have on my own karma. I like books that are not only well written but give you pause to think, question and ultimately come up with new ideas that merge with your belief system or challenge it. I thank you for giving me the opportunity to re-examine some of my own thoughts and beliefs. It was a wonderful journey.

I won this book on Good reads giveaway. It is a spiritual journey for anyone of any religion. I thought it was a fantastic idea to put into a novel style for those who may want to believe or those who believe but need a little "pick me up". For those who think in terms of karma, reincarnation, and Angels, this novel form makes it easier to understand the things that can not always be seen, but are believed. Even if you do not, you certainly would have to stop and think about it. I ask myself the same questions as to why am I here, what is my purpose and what am I supposed to do. Some day I may find the answers as Donatella has. For those of us who have had their own experiences, Angels and Alchemy gives you a "time out" to put it in perspective. I found that half way through the book, I had to put it aside for a few days. I had to put some thoughts, ideas and behaviours that I had on the back burner (or in the wings if you prefer)time to resurface. I would recommend this book for all to read, even if you do not believe.

Angels and Alchemy: A Mystical Love Story tells the story of Donatella who is dating a man named Nick. He is often cruel to her, but Donatella loves him and they eventually marry. Donatella endures years of unhappiness because of Nick, but thankfully during this time she forges a friendship with a woman named Maya who teaches her about Spirit and angels.

Parts of this book were very hard to read. I felt so bad for Donatella, and the things she put up with to try and save her friendships and marriage. I was glad when she finally got the courage to make changes, and break away from these cruel people. It really bothered me that she put up with some of the things that she did, and I wasn't sure why she did so. It made sense when Maya and the angels explained everything to Donatella, and I was glad that they helped give her the strength to break free from old cycles and patterns in her life.

Without giving too much away, I have to say that I really liked the ending of the book and felt so much hope for Donatella's character. She grew and changed so much during this story, and I was happy that she found her calling.

Overall, I enjoyed this book and loved reading about Donatella's experiences. It was well-written, and will make the reader think about their own beliefs. This is the kind of book that made me stop and think a lot. It did take me a bit longer than normal to read because I found the experiences within the book really interesting. It did challenge some of my own beliefs, and I liked that it did.
