Bad Santa Mina Carter

She's finally free... if she can stay alive.

Freed from marriage to a brutal pixie warlord by his death, Joy knows her life could be counted in weeks... days probably. her husband's death put a price on her head as every pixie warrior in the city plots to claim her and take her husbands place as Lord. Surviving long after that... yeah, she's not that stupid. Her only chance is to take down her late husbands criminal empire before they can stop her. Behind bars, she can make sure none of these bastards hurt anyone ever again. But for that, she's going to need some help...

Help that arrives in the form of PPA operative Nick, a panty-wetting, ripped... actually, she's not sure what he is. He's strong, ruthless and might just be her only chance at making it to Christmas alive.

Frost killed his wife, so now Nick'll take what belongs to him: His daughter.

Since the death of Mrs. Claus thirty years ago, Nicholas Claus has been hunting down Jack Frost to make him pay. The original Santa, he's not always been the guy in the red suit and working for the PPA allows his... other side out to play. The side that is far older and way more dangerous than the chocolate box image.

hen a new case drops Frost's daughter right into his lap, he can't believe his luck. All his has to do is put the girl in danger and wait for daddy dearest to show up. But Joy is different, unlike any woman he's ever known before, and Nick finds putting her in danger is harder than he thought. Posing as her lover is the easiest thing he's ever done. The hardest? Telling himself that it's all for show.

But when his enemy finally shows, will Nick take his vengeance for the woman he loved... and lose the woman he loves forever?

Holy hades is all I can say when I started to read this story. This is not a jolly old St. Nick story in any way shape or form. Nick Claus is an Alpha male that has no problem raining death and destruction on those that deserve it. He is definitely in charge of the naughty list, and not the fun one! Now he is close to being able to wreck vengeance on his arch enemy Jack Frost. Making Frost's daughter a part of the plan to take down his enemy isn't anything he has an issue with. Being attracted to mortal enemy's daughter is the issue.

Joy Krasniqi is finally free. With the death of her husband, she now controls her pixie clan and will have to make sure that she can maintain her position on top or she is dead or under the thumb of another male. Asking the PPA for help is the only thing that she can think of. Mistaking Nick for a pixie makes him the perfect bodyguard to help her. But the danger is real, and Joy not only has to deal with the deadly pixies that want her top spot, she has to deal with being a unwitting pawn in a much bigger game.

When it comes to hot as hell sexy scenes and danger peppered throughout a story, there is none better than Mina Carter. I have loved her Christmas Elves stories and the reading BAD SANTA has set totally blown my view of Santa Claus. Nick is rough and dangerous and so amazingly luscious it is hard to put into words. Joy is awesome as the heroine and she definitely is strong enough to handle Nick and anything else thrown at her. BAD SANTA has become a new favorite of mine and Nick is my newest book boyfriend!

I voluntarily reviews an Advanced Readers Copy of this book.

As always this is a naughty hot series. Read every one. This was a very enjoyable read! It was a little different than the others...darker a little bit. Nick...the REAL Santa Clause has revenge on the mind. He's been searching for his wife's killer, Jack Frost. He's angry and an agent at the Paranormal Protection Agency and he's good at what he does. He's not actively been Santa for a long time. He gets the chance of a lifetime to find Frost. In the form of his daughter Joy who herself is in a lot of danger. Her Warlord husband died and he was not a good guy. There is a price on her head but she wants to turn things around where her dead husband went wrong. Not everyone wants this to happen. Nick jumps at the chance to use her as bait to draw her real father out. Which doesn't end well. Did Jack Frost really kill his wife? Will Joy ever forgive Nick?

I really do love this series.

A very new way of looking at Santa. I don't think I will ever view Santa and his reindeer again without seeing tattooed biker dudes. I really was loving this story but then it just seemed to end because Joy forgave him within 5 seconds (okay 1 night).

Needed more grovelling or something from Nick.

What is he going to do with himself now he is no longer employed? Santa, Warlord, what?

This is my honest review if this book.

Nikki says

This was the first book in this series that I've read, but I definitely want to read more! it was a sexy twist on who Santa really is and I loved it!

Melissa Ferryman says

This is the 13th installment of the PPA series by Mina Carter and it's a good one!

Nick Claus (the original Santa) gave up being Santa after the frozen death of his human wife, Eva and has been searching for Jack Frost for many years to make him pay for his role in her death. He started working for the PPA a few years ago and with his new assignment protecting the widow (Joy Krasniqi) of the pixie warlord, who happens to be Jack's daughter, he is closer now than he has ever been.

Joy Krasniqi (half pixie and she does not know) has always been used as a pawn. First by her pixie grandfather and then by her pixie warlord husband but when her husband dies, she sees a chance to finally be free and in control of her own life. She wants to bring down her late husband's crime syndicate before she starts that new life. She contacts the PPA for help and gets Nick as a bodyguard.

This is where the story gets good. There is action, suspense, and hot steamy romance. Even though this is # 13 of this series, it can be read as a standalone. I think reading the previous books in the series makes it more enjoyable but you don't have to. You will not have any trouble following along with the story. I definitely recommend this book and series!

I volunteered to read a free arc for my honest opinion.

Leanne ~ Tales From The Heart says

I loved this story, it was so different. Nick is not your jolly fat Santa without some magic, the rest of the year he is a tattooed bad boy. Looking for the revenge of the death of his wife he falls for the daughter of his nemesis. The story was entertaining and the characters were hot together. Well done, I recommend reading this short tale.

I like the creative play on Santa's story. It was interesting to get the author's perspective. Nick was definitely not the jolly fat old man we know Santa to be. He was a sexy, alpha, tattooed badass. On his quest for revenge he falls in love with Joy. I liked her perspective. The story was very sexy but it felt underdeveloped. We went from 0 to love in no time. There were a few references to elements that didn't feel intuitive to me as a new reader to the series. Other than that, the plot was ok and the execution done with good writing. Safety: No others after they get together. No rape or abuse though the h seems to have a past history of abuse if I'm understanding correctly.

ARC received in exchange for an honest review.

Hot, hot, HOOOOT!!!

Another romantic hit from this author that you DEFINITELY have to pick up to warm you this winter season. Rest assured, by the time I put this one down, I won't be picturing Santa the usual way again. Looking forward to the next installment of this paranormal series.

My Rating: Five Sexy Santa Stars*****

My Rating: FIVE SEXY SANTA STARS*****

Oh my! Bad Santa is so naughty but oh so good! No lumps of coal in this stocking! I adore Mina Carter's writing and have been a diehard fan for several years. She always brings her A-Game and this story is another perfect example of her talent, skill and extraordinary imagination. Bad Santa is the thirteenth release in Carter's captivating Paranormal Protection Agency Series which has always been one of my favorites. Just when I think she couldn't possibly have any surprises left in her supernatural bag of tricks, she waves her super secret writer's wand (which strangely doubles as a pen or laptop) and gives her readers another magical delight! I've come to expect a lot from Mina Carter and she ALWAYS delivers. Bad Santa is well edited and beautifully written in the third person with alternating his and her perspectives. The dialogue is smart, sassy,

well executed and flows effortlessly. Yes, the covers are all beautiful and the stories exciting, well crafted, seductive and romantic but it's the characters that steal my heart every single time. They are strong, captivating, engaging, endearing, larger than life, at times totally hilarious and always sexy as sin with hot handsome alpha males and beautiful plucky heroines. They literally explode from the pages, grab your imagination and capture your heart. I never tire of the wonderful characters and worlds Carter creates for her readers. She skillfully combines every single one of these elements to craft a perfect paranormal tale filled to the brim with heart-pounding drama, heart-stopping danger, agonizing angst, heartwarming romance and a generous measure of steamy, dreamy sex. Hey, this is a Mina Carter story we're talking about and we all know she's the queen of one-liners and hot rockin' sex. I love it! So buckle up my lovelies and prepare yourself for another wild ride! And make sure you have your tissues handy because this story is guaranteed to tug on your heartstrings but never fear, Mina never leaves us holding an empty stocking. By the end of this story, you'll be grinning from ear to ear! After all, this is a Christmas story! Did I like this boo? No, I loved it! Would I recommend it? You bet, and I am but only for adult readers. This is a Mina Carter story and for anyone who doesn't already know, she writes some of the steamiest sex scenes EVER! Will I read this author again? Absolutely! Just as soon as she releases her next book! Was I entertained? Completely! Fabulous entertainment and an awesome read!

Pixies were some of the nastiest, most evil paranormals around. Joy Krasniqi should know. She had been married off to one in a political contract negotiation by her own grandfather. She was only half pixie and the other half....who the heck knows. If her mother knew, she never told her before she died. Joy just always assumed she was half human since she didn't inherit any special powers. Her father disappeared before she was born and has been a no-show ever since. She'd always dreamed of him coming to save her but he never came and she's never heard a single word from her mystery dad. Fortunately, fate intervened and her corrupt pixie warlord husband was just assassinated leaving her alone and unprotected in the worst pixie barrow in the city. If she wants to live, she has to move quickly and decisively. Her first order of business is to take over her late husband's position in the organization, then covertly take down his corrupt criminal empire from the inside. It won't be easy, probably darn near impossible since women seldom held positions of power in pixie clans. But to assume leadership of the barrow as well as her deceased husband's dangerous flunkies, and live to tell the tale, she needed help. So who did she call? The Paranormal Protection Agency, of course! Joy seriously doubted anyone could help her much less keep her alive until she was introduced to the ruggedly handsome tatted bad boy PPA Agent who would be handling her...um...I mean handling her case. After one look at the smokin' hot leather-clad Nick, Joy felt renewed hope. She didn't know what kind of supernatural he was but one thing was immediately evident; he was huge, ruthless and downright scary. She just might make it out this ordeal alive after all, and for the first time in her entire life, gain her freedom...unless she had a heart attack first... Nick's cover just might kill her! Nick would be going in as her new live-in boy toy and lover. Oh my!

Nick Claus is not your typical Claus elf... He's the original fat man in the red suit or he was. He gave it up a long time ago when his beloved wife Eva died and the man responsible was none other than Jack Frost. He now worked as an operative for the Paranormal Protection Agency but he wouldn't rest until he had his vengeance. And as luck would have it, his latest case just dropped the means to seek his revenge right into his lap. He finally had a way to draw the elusive Jack Frost out of hiding but who knew Joy Krasniqi would be so beautiful, so irresistible, so easy to love and so his. Too bad he could never have a future with her... She could never love a man or elf who intended to kill her father, could she? Because he would kill him, right? We'll see!

Louise Nunn says

HiAn engaging, sexy, exciting to read story!

I loved this twisted little tale so much, I couldn't stop reading it. It is at times suspenseful, violent, sexy, emotional, and dramatic as well as funny. The dialogue is engaging, I loved the characters and the story is just too good to put down.

Jenny Brightman Harris says

I received this book as an ARC for a voluntary and honest review.

In this book we meet Nick Claus and Joy Krasniqi. Nick hasn't been the big man since his wife was killed by Jack Frost nearly 2 decades earlier. So he hung up the red suit and started working for the PPA. Little did he know that his latest assignment would be protecting Jack's daughter. He thinks this is finally a chance to get the man he has been search for all this time. Little did he know how much of a wallop little Joy would pack into his life. Can he have it all again or will he loose everything all over again?

Joy is finally free after her pixie mobster husband is dead. All she wants to do now is to clean up the burrow for all the woman that are still in this family. She has a greater goal and it doesn't include Nick, that is until she meets him. She didn't know what she was missing until Nick came into her life and flipped it all upside down. Now she doesn't know what to think does she follow her head or her heart? And if she does either will she loose something in the long run?

This is an amazing story that will have you hooked from the first word to the very end. Nick and Joy have many ups and downs but you wonder can they really have a HEA or will their end goals kill that before they get the chance? I would highly recommend this book to anyone and everyone.

Maura says

Nicolaus Claus is the original Santa - the Claus elf that started it all. Years and years ago, Jack Frost killed Mrs. Claus, his wife and Nick is out for vengeance. He's started working with the PPA and goes undercover as a Pixie in order to help Joy Krasniqi dismantle her dead husband's mob organization. He poses as her lover who can take on the many challenges to assume her husband's old position. When Nick learns that Joy is Jack Frost's daughter, he feels like Christmas has come early and now he finally has the bait he needs to draw out Jack so he can finally get his revenge. But he doesn't expect to fall in love with Joy, nor does he anticipate the hurt his need for vengeance will cause.

I was initially resistant to the idea of jolly old St. Nick being a vengeful, badass skinhead. It seemed all kinds of wrong, but I was able to get past it and actually enjoy this story. I do like the idea of Santa/Jack Frost being ancient beings that more or less take on the form or duties that society needs them to. Nick and Joy were a good couple and their chemistry is pretty sizzling. The angst, after Joy realizes what Nick was all about, was also pretty delicious. So this turned out to be a solid paranormal romance/erotica. There were a few plot holes that needed filling in...like how Jack even knew that Santa basically wanted to kill him, why if Nick's entire family knew that the whole thing had been an accident they didn't try to stop him and why the

pregnant Iliona's Gargoyle husbands didn't make mincemeat of Nick after his little stunt. Also, it was just a little strange that Nick's grown daughter is centuries older than the woman he is now marrying...heck, even his grandson is probably older than her. Not bad per se, but strange...but that's the result of dealing with immortals.

Pamelia Grady says

Bad Santa ?

Nick will find out - Is vengeance worth your peace and joy? Nick sets in motion a plot that he hopes will bring Frost out of hiding to protect his daughter. Joy is finally free from an unhappy marriage and with the help of PPA will bring down her late husband 's enterprise.
