Chasing Midnight Sherry D. Ficklin

Isabel Stone's life is far from normal. She's a girl with problems—vampire problems to be specific and, now, she also has one ticked-off specter on her hands. Approached by a childhood friend and medium, Isabel agrees to look into the murder of a local girl, only to wind up inhabited by the solitary witness—a centuries-old ghost who is all too happy to piggyback along in Isabel's body, and she's not leaving until the culprit is behind bars.

With the help of her partner, Shane, and her crazy family, Isabel struggles to get to the truth, unmask a killer, and deal with her growing feelings for not one, but two, of the sexy, undead men vying for her heart. Just when things are finally falling into place, a huge revelation takes her out of the frying pan... and straight into the fire.

Donne Knudsen says

Great sequel to the first book but unfortunately that's it for this series. The author seems to have lost interest in completing the series.

Jahsmyn says

With this being the second book in the series, and the first being one of the best novels I'd read in a long time, I really had high hopes. However, I can't get over bad writing decisions. I am completely for multiple perspectives from characters. I've read whole series that were written that way. What I can't forgive, however, is the change in writing type. To jump from first person perspective, to third person, is jaulting, and quite honestly, horrendous on all accounts. It wasn't a justified decision, and should have been picked up by the editing team also. I was set to read this series, but I won't be back for the third. Incredibly disappointing.

Niki Contreras says

This series is much more than your typical murder mystery. You've got a take-no-prisoners PI that doesn't take no for an answer in Isabel and an assortment of supernaturals looking for her help. It's up to Isabel and her partner (and ex-fiance) Shane to determine which are friends and which are foe.

This one focuses less on Isabel and Shane's relationship and more on Isabel's own internal conflict when she's possessed by a centuries old ghost who makes her see things from a new perspective. I loved the crime drama aspect that is tied into this paranormal romance. But I would have liked to see more interaction between Isabel and Shane. There was a lack of chemistry in this second installment. There were POV's from both Isabel and Shane, and the writing felt rushed at times.

Be warned: Books 3 and 4 aren't coming any time soon and this one left several unanswered questions.

Melissa Stiles says

One word: Awesome!

You can't help but to love the characters and the story line. I cannot wait until the next book in this series is out. I normally do not write reviews but for this series I will at least write enough of one to let readers know that this is an awesome book from the beginning to the end. A must read.

Marsha says

(3.5 Stars)

The second book in a series can really be pivotal. Sometimes we start off thinking we love a series only to be turned off by the second book. In the case of "Chasing Midnight," I find myself wondering if I like where this series appears to be heading. Why? The best answer to this question is that I've never cared for love triangles especially in adult literature. Although I reluctantly read it at times in YA books, I truly feel adults should not be that fickle. Hey, don't get me wrong, there will always be men who raise our blood pressure and peak our interest but it's like art; just because you like a painting it doesn't mean it would look good in your home!

This time Isabel goes out on a date with Vampire honcho, Xavier. He sees something in Isabel he likes and Iowa not about to walk away from getting next to her. Meanwhile, someone from her past asks for her help and when she participates in a seance, she suddenly has two people trying to occupy one body. This will lead to issues with Isabel's ex, Shane and the beginning of problems with the plot for me. A part of the problem is that in book one we really didn't get a chance to really know Shane or Xavier so I find both of them difficult to rally behind. Now, we are getting a glimpse the real Xavier and neither he or Shane are winning any leading man points with me. Besides, a relationship with either one of these yahoos is pretty predictable.

There is plenty of action and intrigue in book two. Also, I like the character of Isabel and wish the author would give us more world building in the family dynamics department and potential boyfriend background department. Hopefully, that will be coming soon. Here is one of those series that I am now on the edge with to see if I will continue with it long term. I will definitely be reading book three but will hold off my judgment on the rest of the series until then.

This is definitely worth a read, I enjoyed it. There wasn't anything in there that hasn't really been done before, but nonetheless I liked it and am hanging out for book three to be released 2016. Don't worry, no real cliffhanger.

Shannon says

Love this author!

Another great book in this series. This book was even better than the first one. I love the heroine and the other characters as well. Can't wait to read the next book in this series.

Rose says

The second book is still great! Does anyone know anything about the third and fourth books? I can't seem to buy them anywhere but in the book it's said that they came out in 2016 and 2017.

Courtney Shockey says

I'm in love with this series and I can't wait for more!!! GIMME!

Silver Vanus says

Great book! I read this in one night like I usually find myself doing with any Sherry Ficklin book. She grabs you fast and you are breathless until you finish the last page. Keep writing Sherry! You are so awesome!

Tina says

A solid 3 stars. Negatives first: This series always seems very rushed. Positives: Every small character, however insignificant, always ends up adding to the story. The addition of the guardian was particularly intriguing!

Melanie says

Chasing Midnight is the second book in this new Dark Of Night series and I think this would be my "must read series" recommendation of the year so far!

I have devoured the first 2 books and I sit anxiously waiting for the third one to get penned. This second installment introduces a wider range of paranormal but without taking away from the brilliance that was sparked in the first one. Not an easy thing to do!

Sequels can be a tricky business and I will admit I was a little concerned after such an impressive first outing but this is managed brilliantly and all my fears were for nothing.

An easy 5 out of 5 stars from me! V""V

Sara says

A complimentary copy of the book was provided for an honest review.

After reading the first book, Chasing Daybreak, and its introduction of Isabel, Shane, and Xavier, along with many other characters that I grew to like in the Dark of Night series debut, I knew I wanted to read the second one because of how much I found myself drawn into the story. Like the first book, this second book continues the combination of urban fantasy and paranormal romance. Ranae didn't disappoint, and I liked this book just as much if not a little more than the first one. This goes a little more in depth as far as Shane and Isabel's past, and I liked that it's told from dual perspectives. There's still a lot of tension between the two,

and I really want to read the third book in this series to find out what's going to happen next. I'm just sad I'm going to have to wait until next year. Of course, Isabel has a mystery to solve, and I found that part of the story to be incredible with what happened and the introduction of ghosts.

Over the course of Chasing Midnight, there are many times I wanted to slap Xavier. I remember saying he sort of won me over in the first book, but in this one, my viewpoint shifted. There were so many things he said and did that left me with a less than favorable impression of him, and he came across as something of a jerk. So, if there's a relationship triangle, I'm firmly in Shane's corner.

Loved this book, and easily 5/5 platypires.

jacqueline duffy says

Fantastic book

I virtually couldn't stop reading this book, she is a tough woman in a tough world... Still trying to find book 3+4

Holly says

Well, I said in my review for CHASING DAYBREAK that it would get even better in book 2, and I promise you I did not lie! I believe I actually loved CHASING MIDNIGHT even more! It was such a blast reading this book. This sequel is a bit longer than the first and we get more into the meat of the characters and their lives, since we've already been introduced to them. There was a bit more gore and action in this one (but trust me, it's NOT over the top or anything that would make you stop reading), with a great new case for Isabel and Shane (though she tries to do most of it on her own and, well, you'll see how that goes!). Isabel has a "secret admirer" of sorts, who leaves her gruesome presents at her door. And we meet a new character in Sue, who has a truly unique relationship with Isabel. I loved their push and pull and how Sue forced Isabel out of her comfort zone.

I must acknowledge The Big Event that happened....can I just say Oh My Gosh and FINALLY and YES!!! I was SO HAPPY when that happened!! Aaaaaand then.... my heart BROKE for Isabel (and for Shane) and I was like "no, no, NO!!" and "what the F#/ is going on?!?!" GAH!! Why do authors love to see us cry?? Anyway, I was at least relieved to find out that the reason behind the heartbreak was exactly what I thought it was, but I'm scared that he's gonna lose Isabel and something REALLY BAD is going to happen with the whole Richard-experimenting thing...I'm concerned this will not end well!

Needless to say, after devouring the first two books, I'm on pins and freaking needles waiting for book 3! Is it 2016 yet?! Well, at least I'll have the pleasure of re-reading these first two books when the release is impending :-) Trust me, if you like urban fantasy of any sort, vampires, strong women, swoon-worthy vamp men, or any and all of the above, you'll love this series! Check it out!

Thanks to CTP for the e-copy of this book for purposes of an honest review.
