Very Entertaining

I chose this rating because it entertained me from the beginning to the end. The characters are very likeable. The author did a very good job keeping the characters flowing from one book to the series other.

Poppy Peters won internship with famous pastry in last book. Now she is going to Paris. But Poppy bad luck has follow her too.

She found a dead body of the guy who spilled coffee on her first day, then sent her a piece of a very expensive necklace and happen to be the groom of the wedding party she assigned to help with, in his own backyard.

Poppy is an interesting characters and good baker but has no confidence in herself. It took murder and betrayal, but Poppy soldier on and come out stronger.

Very entertaining and delicious reading

This was a light hearted, entertaining mystery novel. I truly enjoyed the characters and the development of Poppy throughout the story. Poppy is so endearing a character you can't help cheering her on. Trouble seems to find her wherever she goes, but her spunk and drive propel her forward to solve the crimes.

if you are looking for a light mystery, good that wets the appetite and down home good characters then pull up a chair and curl up for an afternoon of entertainment

I love books about food, mystery and an interesting main character! Poppy Peters is definitely an interesting person with some really bad luck! She won an internship in Paris at a shop that is well known for its pastries. Le Croissant is an intern's dream job or so Poppy thought! She has a special assignment to help out with the wedding cake for an important wedding in England. It does not turn out the way she expected! What's really bad is she kind of knew the groom... Can't tell you more, don't want any spoilers!

This is a very well written book with a strong main character and a fantastic storyline. You'll be kept guessing throughout the book as to who the murder is. I haven't read the first book and had no problems with starting a series with the second book. I'd suggest this to anyone who enjoys a good mystery & good food! I do however wish that it wouldn't make me so hungry! Lol!

What a beautiful neckless!

Poppy is in for a real surprise in Paris. Chef teaches her something that only time would let her learn.

Another great one.

This is a really great series. I was hooked after book one and the second book is even better. I love that this one was set in Paris. I would love to visit one day. I really didn't see it coming when the killer was revealed. I usually figure it out. I am excited to read book 3.
