## **Latched** Lea Hart

Betrayed by her ex-fiancé, Birdie James decides a sexy fling will give her the excitement she needs without the problems of a relationship. Luckily for her, Mr. Right Now is gorgeous, interested and curls her toes with one look. There's just one problem.

Lieutenant Commander, Mark Frazier sees Birdie, and he only wants one thing. Her, forever. As a SEAL, he flourishes beneath both trials and adventure. However, changing the mission directive of this woman may be the biggest challenge of his life.

What happens when a woman whose life is based on certainty targets a Navy SEAL who thrives on the unknown? Can Mark find a way to overcome her stubborn mindset and convince her to give them a chance? Or is her heart latched against him?

### Michelle says

#### Hmmmm.....

I am not sure but ...

Ok here goes, I try so hard to see the good in every book I read, but, this book , even though I liked the story, I just had a hard time getting through it. A really hard time.

The editing was horrible. It just was. The characters, (and I really tried), had stilted conversation, it was odd for me. I wanted to quit reading.

The story had the potential to be a fabulous book, but , and I'm not an author, it just epically failed, and I can't give this book anymore than two stars.

This doesn't mean that I'm not gonna give this author another try with book two. My daughter and daughter-in-law are both published authors and , so I know firsts might not be up to snuff. But I want characters who I can get invested in, Birdie, I found I wanted to smack , I began to finally like her at end of book so Ms. Hart, I hope book two, shows you to be an author I can't wait to read.

#### The fire

WOW!!! That Mark guy can be my idea man in my fantasies. Gee I can feel the fire radiating from this book. Birdie is a strong, confident, and endearing heroine. I could not get enough of her hilarious stubborn attitude. She makes women seem a little crazy. This is definitely a book to read.

#### Latched (Coronado Series Book 1)

My late husband was career military & a large part of my family was military or law enforcement. I felt Lea Hart described their mine set well. They are never your 9:00 to 5:00 people due to their training and services. I hope she has many more books in store for us. My only compliant was an over abundance of romance. I am not a overly romantic person. .

---

### Cyndi says

I love this writer's style. I have enjoyed the Coronado Series and this book so much I have read it multiple times. If Lea Hart writes a book, I read it.

This book pulled me in from the beginning. I enjoyed the interaction between characters and found myself

laughing out loud multiple times. A great read and a book I will keep to read again and again.

### **Olivia Mattson Campos says**

#### **Redundant**

The dialogue was stilted and redundant. The characters were flat and had no chemistry. I couldn't finish the book. The storyline was good but I just could not get past how boring the characters were.

---

### **Melissa says**

Wow this book just made me angry. im the type of person who cant just stop reading a book so i had to finish it. i dont even know where to begin.

i hated birdie. she was so annoying. we get it, you want to just hook up. but you were a relationship girl before. when mark tells you he wants more then jump on it. she fought with him at every chance and everything he said made her mad. she contradicted herself many times and just overall was terrible.

mark was a wuss. i understand the author was trying to make him seem like this big tough SEAL but he was far from it. i liked him more than birdie though.

in general the writing was horrendous. everything was repeated over and over. i get it, birdie wants a fling. i get it, birdie wants to be the boss. i get it, mark hasn't dated since college. i mean really. we don't have to be told stuff 100 times. i felt like i was reading about middle schoolers because their fights were so childish and ridiculous.

to top it off, after all that, the book ended so abruptly. terrible way to end it. but then again the whole book was horrible.

---

### **Pontiki says**

I don't mind alpha male books with strong women. What was missing here was the adventure component. It was interesting when Mark went on an op, but then he was injured, and that wasn't good.

He isn't anything Birdie can't handle, I like her character especially. I also like her family and friends, especially Ana, her shy cousin.

Abrupt ending, but otherwise, a good book.

---

### **Merle says**

First of the Coronado series about active and retired SEALS centered around Coronado Naval Base and San Diego. Birdie is a CPA, who is also a florist by virtue of a bequest from her grandmother. She has developed friendships with most of the members of a team of which her cousin is a member, but hasn't encountered any of the officers. Until she meets Mark at a pre-wedding run-through. Mark is known for not dating or having relationships and is stunned when he shakes her hand - and can't let go. Birdie thinks he is the ideal candidate for her latest plan - a no-strings-attached sex fling. It's a real role reversal when Mark begins to think long-term.

Convincing Birdie of it is a long-time job, but he manages to do it. Hart also introduces the risk that servicemen in elite squads face and Birdie has to learn how to face it, too. Good one and Hart evidently has a long series planned; I look forward to all of them.

---

### **Mary Cathie says**

I loved this book.

---

### **Yasmin Vasquez says**

#### **Loved it**

I really enjoyed this book. I love alpha military men and this did not disappoint. I also loved the romance part love at first sight for Mark and Birdie. Can't wait to read book 2 hopefully they will be in that book also. Gonna be a great series.

---

### **S. R. Lewis says**

#### **Fierce, loyal, loving**

Usually I mainly read romantic suspense. This book is mainly romance. It has wonderful characters and great dialog, so I was hooked right away. The loyalty and patriotism of the SEALS was wonderfully written. Great entertaining read.

---

### **Steph says**

Cant wait for to complete the next one- loving this new author I have found.

---

### **Sandy Woods says**

I so loved this book. Birdie is hoot. Her and Mark together are scorching hot and beautiful. Right from the beginning to the end you feel their love and connection. Everyone else in the book also. Loved it front to back.

---

### **Diane Pope says**

#### **I love you more**

This had to be the most romantic story I have ever read. The way the love between Mark and Birdie developed was beautiful. I adored the way Mark kept moving Birdie toward their final destination of eternal love. The love of an honorable man and his perfect match was wonderful. This will be one of the books I read again and again to capture that true romantic feeling.

---

### **Nicole Carte says**

#### **Sweet love story, hot sex!**

Sweet love story, sex scenes were hot, the men drool worthy. Made me laugh, made me cry. What more could you ask for?
