Lost Lyrebird Darby Briar

“What he doesn’t realize is the girl he remembers doesn’t exist anymore.” –Lily

Goose calls her *Little Bird*. But the love of Lily’s life has no idea why the nickname describes her so perfectly. He doesn’t know who she really is, and that their first meeting wasn’t a happy twist of fate, but an elaborate plan that’s been years in the making.

But then lies do what they always do. They pile up, like feathers in her hands, and one by one they all fall.

As Road Captain for the Harbingers of Chaos Motorcycle Club, Goose is an expert at spotting potential danger from miles away. He’s also a living and breathing lie detector.

And yet...when a new *little bird* dances her way into his life, the vast threat she poses to his club slips right past his radar. He’s too distracted by the color of her lips, and her not so subtle curves, to see her for what she is.

A *little lyrebird*.

A ghost that’s haunted him for years.

And ultimately, his *downfall*.
