Nomad's Fury: A Kurtherian Gambit Series Craig Martelle , Michael Anderle

They say that behind every great man is a great woman...But what if that woman is a Werewolf?

"Serenity and Clint Eastwood fans saddle up! This is a straight shooting futuristic story that celebrates honor and survival with a little paranormal on the side."

Settled into their new home of North Chicago, Terry and Char find more enemies than they suspected. Faced with their greatest threat, they put the FDG into action against a Forsaken who's surrounded himself with a small army of loyal humans. With Akio's aid, they go to war.

"I swear this series just gets better and better. "

"The saga of TH and Char continues as they protect the innocent and attempt to return civilization to the people. The characters and story are great as usual. I found myself more and more engrossed as I devoured the book."

Good addition

Worthy book of the series. Plenty of action, interpersonal relationships and new additions. Would be better if you have read the preceding books in the Terry Henry series, but it should be possible to pick up enough background as you read if not.

Sonja says

Enjoyed it

So, I'm a graduate student and the semester just began. What do I do now? I don't have the time to read this because school. Ugh. I guess I'll just have to read more.

Veronica says

One comes and one goes

It's fascinating following the journey of those who are leading the broken world back to civilisation. The characters keep growing, and there's a beauty to the flow of life and death.

PS: Michael, where are the kittens???? lol

Loving the Kurtherian Gambit Series and all the Sub-Series More

As a disabled Vet with PTSD, I have to say THANKS CRAIG and most of the other writer for not going Overboard on the Action section. But more on the Honor and Protecting those that can't do themselves. It not always easy to be reminded that there are people who Prey on the Weak out there and if there isn't someone to protect them we've lost. Stepping down from the SoapBox lol. I read one of the reviews on the back of this book that brought up a Great poo and the was the Individual Character Development and the Expansion of the Characters as the Series progresses. Just not Nomad but the Kurtherian Gambit Series and All the Sub-Series. Thanks Rich L.

Outstanding reading

These keep getting better and better. I like the close tie in to Bethany Ann and Michael. I am expecting Terry to meet Valeria on day. So much excitement and adventure.

Recommended

Great story, full of well developed characters. The end of a long journey for some but new beginnings for many. There are plenty of thrilling adventures for everyone.

Paige says

Great book series!

Great book series. Devoured it in 2 days. I love the humor that Char and Terry have. I look forward to reading more.

THW is a Smoke Jumper

The main character is a Smoke Jumper, I say this because if there is a fire of injustice within notice he jumps in without hesitation. He is the man with a plan, to jump start civilization, an enhanced man and previous to the Worlds Worst Day Ever one of Uncle Sam's Misguided Children, but still human and even a bit hen pecked by his werewolf wife.

He has also gathered about himself capable and talented humans in all of their variety. If I were in this universe I'd rally to the colors.

Enough said really, this is a series worth following and I think the author is improving in his craft, action stories with believable characters in a dystopian universe, what more do you need?

The continuing saga of THW & the FDG

To tell you how good this book series is I would rather read it than game or watch TV this latest installment I read in less than 18 hours which for me is pretty fast. They are fun ride

Win some

Awww Cordelia Dawn! Can't wait to see how she grows and what she'll get into. For now I'm stuck in this Kurtherian Universe and I didn't even mean to! Huge fan of post-apocalyptic reading and to mix it with KU is just awesome for me. Keep writing in this amazing series and others Mr. Martelle. Fantastic job. Just a side comment... Every character in this series I can put into a category. I love them/ I don't love them. I can't figure out why Timmons irks me so much and he won't go into any of my categories.

John O'Sullivan says

Great characters.

I don't normally read after the end of the world stories but decided to read these books because of the Bethany Anne series and I have to say WOW 5 books in 3 days and just purchased book 6.

Jonathan Wilson says

4.25 Stars

Kevin says

OK. Several twists that were unexpected.
Once again, it works and well.

Recommended.

Nomad's Fury - a review by Rosemary Kenny

There are so many great things happening in Nomad's Fury that it's impossible to praise Craig Martelle and Michael Anderle's talents highly enough.

Where to start...? Colonel Terry Henry Walton and Major and his wife Charumati ,(a werewolf) are Alphas of Char's former werewolf pack; at the end of this book Char gives birth to their first child together, daughter Cordelia Dawn. She's now their third child, as adopted son Kaeden's sister also joins their growing family. All the crusaders are finally able to reunite and welcome new inhabitants, (including a tribe of Native Indians,plus a number of young girls rescued from a predatory vampire and his recruits from New York), to the new sanctuary of North Chicago. Oh and by the way, they get a were-tiger and a Russian were-bear, (who 'adopts' and renames Hank, the group's orphan bear cub, as Bogdan) to add to the list of citizens.

With all the training, interaction, gritty and believable characters - including two Japanese aliens and their AI sidekick - let alone the all-action fight scenes, I'm sure you'll agree this brilliant story could very enjoyably have been twice the length and still not dragged/been repetitive or anything but wonderful...more please!!

George Lawson says

This series continues to grow.

The characters continue to flesh out and so does the narrative. Torn between starting the next of it reading the latest Druid book from Candy Crum but I think I'll soldier through with THW.
