It really makes me mad when I pick up a book, thinking it's a thriller or murder mystery, and it's really a romance novel. Don't get me wrong - romance novels have their place - but they aren't my cup of tea.

And, yes, there is a big difference between the writing style of a romance and a non-romance. It is not the same as a thriller with a love story.

Love this author, it was a quick fun read! Suspense, romance and strong family values made it an enjoyable and refreshing read.

Had to force myself to finish this book. The plot was OK, although dated details. Had to ask my tech savvy husband if we still had floppy disks 9 years ago in 2004. And a photographer who still used film?? And a few fast jumps in the plot to wrap things up at the end. The romance was lukewarm, no passion, no sex, just a couple of kisses. The guy struck me as a dip for still mooning over this girl from college. She wasn't worth

it. This was my second try with this author, and I think I have had enough.

Oh, I don't know what to say. I wasn't expecting this ending at all. Wow the person who revealed the information to the Russian Mafia was unsuspected in my opinion, I can hardly believe it. I was very attached to Jenna's character. For someone who doesn't work in the police force she is very intelligent and turned on several details. In the long run, I also learned to appreciate Frank's character. I really enjoyed this thriller.

Oh que je ne sais pas quoi dire. Je ne m'attendais tellement pas à cette fin. Wow la personne qui révélait les informations à la mafia russe était insoupçonnable selon moi, j'arrive à peine à y croire. Je me suis beaucoup attaché au personnage de Jenna. Pour quelqu'un qui ne travail pas dans la police elle est très intelligente et allumé sur plusieurs détails. À la longue, j'ai également appris à apprécier le personnage de Frank J'ai beaucoup apprécier ce thriller.

I read this book a long time ago, and for the simple fact I can't even remember the main character's name goes to show how much I didn't enjoy this book. What I do remember is a predictable story line, some bad guys, some cheesy romance, and some guys' son. Not all that great of a suspense.

This was an enjoyable romantic suspense novel. The main characters were likeable although I felt that the heroine, Jenna Meyerson, was a bit too prone to take off and try to handle things herself that were beyond her capabilities. I liked the hero, Frank Renaldi, especially his total devotion to his family. It is unusual to read about a single father with a background in law enforcement who so totally embraces fatherhood and has such a good relationship with his child. Frank was also a very loyal man who has had feelings for Jenna for many years.

Jenna Meyerson is surprised to see her ex-husband, Adam Lear, at the opening of her photo exhibit. She is not thrilled about a request he makes of her and she parts from him after agreeing to think it over. She is stunned to see the next morning that her ex-husband has been murdered. When police decide his murder is the work of a man who has been robbing people in Central Park, Jenna doesn't agree and decides to look into the death herself. Frank Renaldi was Adam Lear's best friend until Jenna chose Adam over Frank fifteen years ago.

Adam approached FBI agent turned private investigator Frank shortly before his death and hired him to work personal case. Frank and Jenna reluctantly team up to find out who was really behind Adam's murder. As they begin to realize that they want a relationship together, they, as well as Frank's family, become targets for Adam's killers. With the help of a police detective, they race to solve the murder before they become victims themselves.

This book was fast paced and interesting. It was heavier on suspense than romance. The romance aspect of the book was not at all graphic or descriptive. I would be comfortable letting a teenager read this book. This was the second book I have read by Heggan, and I enjoyed it enough to read more by her.
