## The Cook's Secret Ingredient Meg Maxwell

Stir two hearts...and let simmer

Private investigator Carson Ford specializes in finding people. Yet his latest case has him stumped—he's looking for a mystery woman who's supposed to be his wealthy, widowed father's "second great love." But the pragmatic single dad knows that's not how love works! This is an elaborate swindle...and it starts with the fortune-teller's daughter.

All chef Olivia Mack can do is confirm that her late mother's predictions were usually true. What she won't admit is that she might know who the mystery woman is—or that she's finding herself falling for the handsome, cynical Carson, not to mention his adorable son. She has always limited her "family gift" to her cooking. Now she just has to hope that her magic secret ingredient will lead to love...

# **From Reader Review The Cook's Secret Ingredient for online ebook**

## **Jess Lawson says**

In this book you get two love stores instead of one. I absolutely loved reading about Olivia and Carson as well as Sarah and Edmund. Now little Danny will have one huge family including a grandmother and bonus mom! This story was very heart felt. It may have even had a little magic

## **Amanda [Novel Addiction] says**

I read The Detective's 8lb 10oz Surprise because... well, because I had to, with a title like that. And then I somehow got suckered into read the siblings' stories. And now this one. These are cute, sure. But this is not my favorite Harlequin line by far, and I'm normally not a fan of kids in my romance novels.

But you know what, I still requested the next book from the library when I finished this one. It's like some sort of weirdo addiction. Maybe this series has some sort of drug laced in the pages, that would explain a lot....
