The Hunted Heart Carrie Ann Ryan

Emeline might have been alive hundreds of years, but she's never really lived. Using her knowledge and research, she helped save the Redwood Pack from devastation. However, she's never felt whole. Not since she lost her mate so long ago. Now there is a new, younger wolf, entering her life and it will take more than her nose in a book to figure out the warmth in her heart is much more than a promise of a new feeling. It's fate.

Noah has known Emeline was his mate since he first saw her, only he doesn't know if she feels the same. He's always been on the fringes of those in power in the Pack and has enjoyed it. Now he's become an integral piece and wants to find a way to bring Emeline with him. Her reluctance in dating a much younger wolf isn't the only hurdle in his way.

When he finally takes the step, he'll have to pray she finds the connection and lets fate save them both. As they find their way to a mating bond, a player from the past is out to hold them back and everything they thought they'd had might be lost forever.

This one was quite a switch. It was nice to see one of the elder females be able find love again. Now she just needs to convince herself that she deserves a new love and happiness. He is determined to make her realize just that. Of course things never go that smooth. Have to have some excitement to keep us reading as fast as possible. It accomplishes that with ease.

Elizabeth says

Short but very sweet. Shows fate has no boundaries of time and will come when ready. Em's story needed to be told to show how life is moving forward for the Jameson's. I can't wait to read more from Carrie!

Kim Otis says

Wow!

This was a great read even for a short story. I love how Em's story grew and evolves. This was a fun visit with some new people.

Noah and Emeline

Noah knows that Emeline was his mate and courted her for a year while Emeline did not even showed a hint that she knows that they are mates.

Now the two are working on how to break North's curse to bring back his eyesight.

This is sweet story that happened after the Redwood defeated the Centrals..

Melvina says

I'm a huge fan of the Redwoods so it was great to drop in on them again. This novella gives the feel of a complete fully rounded ending for the Jameson's, especially North and Lexi. We finally learn what happens to North after waiting what seems an eternity, and the part that Emeline and Noah play in it. They couldn't be more different than chalk and cheese, and seem the oddest of couples to pair up, and yet the love they share

is undeniable. A lovely end to a remarkable series.

What a series!!

This is really the final of the Redwood Series, I loved it! Noah and Emeline are such a sweet story and their goal of helping Noah get his vision back is so sweet. I love this series, it is about family, pack, love, mates, and choosing good over evil. I have loved it from start to finish and have not been disappointed, guess the Talons are up next.

Emeline has been one of my favorite secondary characters. She is strong without being in your face and her sense of serenity was a pleasure to be around. But she really isn't that serene. She has learned not to let her heartache show and being cloistered with the Elders has kept her from really living. Enter young Noah who intends to drag her (kicking and screaming if necessary) into the now so she can be who she needs to be and so he has a chance to prove she is his mate. If you have been following the Redwood Pack stories this takes place post war. We get to see how our favorite couples are doing. And we see if Emeline and Noah can find a way to save North's sight. Redwood Pack fans are going to LOVE this one.

This story was originally released as part of the Dark Fates anthology

"The Hunted Heart" by Carrie Ann Ryan. Book 7.7 in the Redwood Pack series.

Oh my gosh! I absolutely LOVED this novella!! It takes place approximately a year and a half after the final battle in book 7 "Fighting Fate". The main characters are Emeline and Noah which are both characters that have been introduced in the series.

Emeline is an elder wolf in the Redwood Pack and she was vital in helping the Jamensons defeat the Central Pack and the demon Caym. And she wouldn't be alive right now if it wasn't for Noah. Noah has been coming to see her quite often since that day and she's not quite sure why. She an old wolf, over 500 years old. He's just a pup at 28 years old. He couldn't possibly be interested in her...could he?

Noah has been slowly courting Emeline for the last year. The problem is, he's pretty sure she doesn't know it. She has shown no interest in him at all. But his wolf knows that she's his mate and he's not ready to give up on her any time soon. He'll wait for her as long as he has too.

This novella is such a beautiful story! Noah is so kind and caring and patient! Add in Noah and Emeline working together to solve the curse that was put on North Jamenson and that storyline coming to conclusion as well in this novella was fantastic.

LOVED LOVED LOVED this one!! I cannot say this enough!

Kate says

I love this series!! Thanks for all the wonderful characters and the overarching plot is interesting as well with all the twists & turns!!!

Sarah says

Been Looking forward to this book since meeting Emeline in early books. From start Noah was perfect for Emeline and I loved that hidden emotions Emeline buried can't out full front with Noah. Great short book and HEA.

Sandy says

Great book

This was a very good story, but then I knew it would be as every other one in this series was excellent. Carrie Ann keeps you reading in every one of her stories, rather they are shifters or just Hot men with great ink.

Gabrielle says

I loved this book! Em did so much for the Redwoods in the war against the Centrals, that I always wanted her to have a HEA. Noah is perfect. He has found his place within the pack, finally shrugging off being known only as Cailin's ex. I loved the growing these two did together. Great job by Carrie Ann to not leave these 2 hanging!

Simera says

The Hunted Heart is a very sweet novella about Emeline and Noah. Emeline is an elder who has been alive for a very long time but not really "alive". Noah has been helping with treating the pack since North lost his eye sight. Noah and Emeline are working together to find a cure for North to fix his eye sight. True Carrie Ann there is passion, struggles, surprises but a very nice ending to the Redwood Pack.

Emeline might have been alive hundreds of years, but she's never really lived. Noah has known Emeline was

The Hunted Heart was a really a sweet and sexy novella to read. I am happy that the character Emeline finally got her HEA
