The hills are alive... with the sound of PANTS!  
All for Dave the Laugh, Masimo... not so much.

I swear the Georgia is my spirit animal of me 10 years ago :')

This installment was even more funny, sad and vivid than the ones before.

It's like Georgia is becoming a real person more and more. The quirky things that keep happening to her (some self-inflicted, others by pure clumsiness, other things caused by her weird family) are hilarious at times.

Other times I feel like she's me, or one of my friends. She's not nice all of the time, even if she thinks she's funny. She's preoccupied with herself. Which is very normal for a teen girl and sooo recognizable. She's seriously gotten under my skin though, and I have to keep reading her books to find out what will happen to her. Will she be happy, and whom with?

I said it before, but these books are a must-read for teens!

*Goodreads description: Let the overseas snogfest begin!*

*Georgia and Jas are off to Hamburger-a-gogo land! Georgia plans to track down Masimo, the Italian-American dreamboat, but after a long week in America, she only succeeds in learning importantish things -- like how to ride a bucking bronco. Will Georgia reel in the Italian dreamboat? Or is she destined to live forever all aloney on her owney?*

This was hilarious. Louise Rennison never fails to make me laugh!

I am really into this series at the moment, mostly because it's short, sweet and funny. Everything I like in a book. Although I really don't like reading about teen romance as I usually find it to be childish, I like this one quite a lot.

Georgia Nicolson is a girl with many problems that don't seem that awful to you but they are first-world-

problems for her.

I like this so much because I can relate with the character. I, too, was an overreacting mess that cared about every single thing in a world, before.

I just love Masimo and I want her to be with him but I think I like Robbie a bit more so I'm hoping he comes back in the following books.

I've been flying through this series and I'm scared what will happen when I reach the last book. I really want to read another teen/middle grade series such as this one so PLEASE RECOMMEND IT TO ME in the comments down below :)

Georgia is so cringe-worthy. I spent 95% of the book silently yelling at her in my head to see some sense and:

- Write back to Robbie. He was sweet and nice and you're being an asshole, Georgia.
- Not bring so much shit with her to the States. You don't need it.
- Stop being so embarrassing. I literally can't handle anymore weird excuses for the weird things she does.
- GET TOGETHER WITH DAVE THE LAUGH. He's perfect for her and Masimo is probably going to break up with her anyway. DAVE THE LAUGH, Georgia.

Then He Ate My Boy Entrancers was PANTS! The Italian Stallion is off to hamburger a-gogo to visit his olds and marvy timing, Vati's announced the family is going to hamburger a-gogo for a clown car convention. Oo-er! That means Georgia can track down Masimo! However things don't go according to plan when she finds out he is going to Manhattan, two inches of map, away from Memphis, where she is headed!

More luuurve problems continue for Georgia when she returns back to England, as she is still hung up on Guitar Plucker Robbie, who sends her a letter and photo, reminding her of her heartbreakosity, and Pantsmeister Dave the Laugh, who finally breaks it off with Rachel and gives her a vair vair confusing confession. Blimey O'Reilly! Masimo is also a puzzle, hanging around with Wet Lindsay, the forehead-less twit.

Georgia finally decides to take the advice, full of wisdomosity, of her Mutti and give up The Horn for Masimo. We end the book with Masimo letting Georgia know that he will give it a week to think about becoming her official boyfriend! PANTS!

Ah Georgia -- hung out on the rack of love, leaving readers on the rack, too, with such a sticky cliffhanger.

Masimo? Robbie? Dave? The whole boy spectrum is covered here.

Onto the next....

4.5/5

I loved this book! In the last few Georgia Nicolson books, I felt like not a lot happened, but this one had some real plot! I'm unsure how I feel about Masimo currently, but I DO know that Georgia and Dave the Laugh NEED TO GET TOGETHER ASAP. Also, I need some more of Robbie, even though he's in another country and everything. I can't get enough of Georgia and her silly plans and I will be starting the next in the series right away!

This book is about two amazing people named Georgia and Jas. Throughout this whole book Georgia and Jas went on a journey to Hamburger which is a Go Go Land. As they were on their journey they tried to find Masimo. Masimo is their Future Boat they always dreamed for. As one 1 week full past, Georgia did not come across or succeed in getting her dreamboat. All she did was she learned how to ride a bucking bronco. It wasn't all that special but she still learned something.

I can connect to this book because when I was on a Criuse traveling around the world. We came across a Island that was schdueled for the trip. It was called Honduras. As me and my family was their we was searching for my ancestor which I don't know the name of but his/her last name was yisagiare. We did not find him/her but I learned how to ride a Moped. A gas scooter.

I recommend this book to people who ever put their mind to something and didn't succeed to it but still got something out of the expierence. It will show you that even though you failed in your plan, you will still learn from that journey.

I'll give this book a 5 because it taught me that everything you plan to do, it won't always happen and turn out the way you planned. But you will still learn how to do something on your way to complete your plan.

I love all the Georgia books. They make me laugh histarically, mostly because she does a lot of the things I woud do(like that). I can't wait to see what she does next. She left me on the edge of a cliff last book.

Hamburger-a-gogo land and Molto, molto Masimo vs. Il Ministrone—need I say more? ;) The Miss Malaprop moments are priceless.

Favorite line:

Masimo: "Are you freddo...?"

Georgia: "Oh dear God, he wasn't going to talk about elves and hobbits, like boys did, was he?"

The cat imagery in these books is excellent. You can tell that Rennison must have had a cat: "Angus got on my knee and started doing that kneading thing they do to make you all comfy. For them. I am like a human bean bag to him."

## **Tanna Ray says**

A book written in narrative, first person style. The book itself is written as though it were Georgia Nicholson's own journal, the whole time you feel as though Louise has cut a hole in Georgia's head and installed a window. The story is all about Georgia's fight for a new "Sex God" in her life and all the beauty rituals she must go through to impress the man (men) of her dreams. She has given up on Robbie and now her main vision in her eyes of affection is Massimo (The Italian Stallion). She has a family vacation to the States (Memphis, TN) with her family and Massimo himself is in America (NYC) around the same time frame. Georgia thinks the states are all a bus ride away in distance and thinks on her vacation she will find him and they will have a wonderful time together and fall madly in love, though to her dismay she didn't get to see him; though sadly I don't think she actually learned how far Memphis was from New York City. The story is written in a nice sized sentences though with it written journal style you are never really sure where a chapter has begun or ended. Louise Rennison has a writing style that is very different from other's in my perspective, it is very repetitive with words and a lot of the words are English slang so the author (so kindly) added a glossary of all the slang so that readers could understand and learn some useless English slang. Though I love the addition it takes some reading time out by trying to look in the back of the book every few sentences to try figure out what Georgia is talking about.

These books never fail to cheer me up!

In this installment the hunt for Italian Stallion continues.

During ace gang's emergency 5-hour meeting re: dinner date with Masimo.

**6:30 pm**

*Then we got on to the snogging bit.*

*I said, "Do you think Italians snog the same as English boys?"*

*Rosie said, "I don't know if they do anything different with their tongues or what their ear work is like. You will have to give us a complete and full report. What number will you let him go up to on the first date?"*

*"I thought #6 - a kiss lasting over 3 minutes without a break suggests deep sensuality without going that little bit too far into acting like a tart."*

*Then Rosie said, "Finally, as you haven't had any snogging practice for a while, try an experimental snog on the back of my leg."*

*What???*

*Absolutely not, not a snowball's chance in hell.*

*No and three times NO.*

**6:45 pm**

*On my knees snogging the back of Rosie's leg whilst the ace gang watch me.*

*Why am I doing this?*

*Rosie was shouting instructions.*

*"Yes, yes, that's good. Good. And breathe. Too much teeth!! Too much teeth!!! A bit more sucky. Flicky tongue and... finish."*

*Good grief.*

*Have you ever snogged the back of someone's leg? Someone who is one of your mates and is wearing a false beard? Well, I hope you never have to - that is all I am saying."*

Genre: romance, make-up, boys, snogging

Summary: Georgia Nicolson is the biggest player in the world and she doesn't even realize it. Well, I think she has some awareness of it, but still, she is remarkably dense. Just hook up with Dave the Laugh already! Robbie the Sex God is Kiwi-a-gogo land still thinks about her and Masimo is just an attractive Italian. Dave is English and there and madly in love with her and she keeps yakking about other boys and he is heartbroken. Georgia has a pretty hilarious adventure in Memphis, Tennessee. Of course, they go to the most stereotypical part of the country and have funny experiences.

Response: I can't believe there are four more books in the series. My prediction is that she will be mooning over Masimo and Dave will continue to say cryptic things to Georgia that reveal his feelings as blatantly obvious to the audience, but Georgia won't get them and continue to be a clueless ninny for FOUR MORE BOOKS.

## **Emma Hart says**

1. The reason I read this book was because it is from one of my favourite book series which is 'The confessions of Georgia Nicolson' I love this series because the books are really funny and gossipy.
2. The category this book goes under is: my own choice. I really like this category because you can choose whatever book you enjoyed. The reason I chose this particular novel out of every other novel is because I love the series because it is funny, it always keeps me entertained and I like teenage gossip.
3. My favourite quote from this book is: "What if you were really meant to be with someone? But you kept messing about and having the Horn and so on and you lost them." I like this quote because I think it is very thoughtful unlike all the other crazy things Georgia says. I also like this quote because I find it very deep and emotional, but I think this happens quite a lot because people muck about with people and it isn't till the person they love has gone that they realise they were the right person for them.
4. I didn't really learn much from this book but what I did learn was that Georgia goes to great extent to find Masimo in America.
5. My favourite character from this book is Georgia Nicolson. Georgia is an outgoing, crazy, good humoured teenager who falls in love with Masimo who is an Italian-American 'dreamboat'. Georgia, her family and her best friend Jas went to America for a clown-car-convention. While Georgia's family were busy at the clown-car-convention Georgia and Jas decided that they would try and hunt Masimo down in America. Georgia is my favourite character because she always keeps you entertained with the crazy thoughts and ideas she has.

## **Kat says**

It's off to 'hamburger-a-go-go' land! At the end of the previous book Georgia's dad announces that they're off to America for a clown car convention. So the Nicols, along with Georgia's best mate Jas, set off for Memphis. The "Italian stallion" Masimo just so happens to be in America too, but in Manhattan. Georgia apparently has no concept of American geography, because she thinks it'll be a cinch for her and Jas to hop on a Greyhound to see Masimo. She doesn't even know where he's staying and ends up calling all over Manhattan looking for him to no avail.

The sex god Robbie is still in New Zealand, and now his brother Tom is with him. Jas and Georgia spend more time together as a result of their lack of boyfriends, but they get rather stroppy with each other a lot. I suppose that's common for teenage girls. Robbie still thinks about Georgia and writes to her, but she never responds because she's hung up on Masimo, who unfortunately is hanging around Wet Lindsay.

Dave the Laugh is still a constant in Georgia's life. He continues to give her advice on how to rope in Masimo. It's clear he still likes Georgia, even though he's dating someone else.

Georgia starts to mature a bit in this book. Sure, she's still self-obsessed and makes the silliest jokes with her friends. But she starts to learn that it's helpful to listen to others. She seeks advice from Dave, Jas and even

her mother when it comes to matters of the heart (aka, is Masimo her boyfriend or not).

Lots of funny moments in this book, e.g., pet cat Gordy eating her false eyelashes and a horrific case of "shoe feet", make *Then He Ate My Boy Entrancers* another enjoyable adventure in the life of Georgia Nicolson.

Was it just me or was Georgia more of a bitch in this one??

Not quite sure why I keep reading these books because the writing style is cringe and Georgia is an annoying self-centred git but I can't stop myselfffff

### **Jackie says**

Imagine a book that you have to check out and carry home in secret, because the titles are so bizarre! I love this series of books. My fab fave part in this one was the shoes. HYSTERICAL!

### **Mindy says**

Actual rating: 4.5

This series is so fun if you're in the right mood. I had to read a book that takes place in another country and the majority of this book takes place in England. This is number 6 in the series and I think it's my favorite one so far. For me, these are laugh out loud funny. I had to take off half a star because of the cliffhanger ending. Luckily I have the next one in the series.
