THIS INSTALLMENT OF BLUE MOON CAN STAND ALONE

The Story of: HAWK, PIERCE, SHOT & FOX ALONG WITH THE OTHER BEASTMASTERS

Pierce aka Strategic Intelligence Specialist, Backhander is back to flush out some of the DEA's most notorious criminals, and he has one helluva' team backing him up. The country's most decorated Navy Seals...the Beastmasters.

Pierce is more than capable of doing his job, but he has one insanely hot distraction that continuously causes him to second guess his hidden orientation.

Dane Aramis, call-sign, Hawk. Hawk can see what most people can't, and whether his sexy Pierce wants to admit it or not, he can see the brilliant man's desire runs deep for him.

However, when Pierce and the Beastmasters are on their final assignment, the last person they expect to encounter with the opposition is rogue assassin...Omega. The man is unstoppable, and when he comes too close to what Hawk holds dear, the Beastmasters call on the only man that can control the lethal assassin. Omega's faster, deadlier brother, Alpha.

Bringing Alpha back into society may be disastrous for everyone involved. But, Hawk is willing to take that risk to keep Pierce safe.

Not impressed :( at 8% I'd heard how hot, muscled, sexy, great haired, pretty-eyed and bad arse every character is - yeah, I get it - series!

A team of tough military types who don't appear to form any cohesive plan before leaping to action. Then chapter one ends with sexual harassment. oh joy! - NOT.

Kinda weird reading about Shot after so intimately reading about his son but once again it just works.

Review by The Blogger Girls.

The Beastmasters are back! We were teased by them in Blue Moon: Too Good to be True, and while events from that book are mentioned, I believe this could easily be read on its own. As with the previous book, this one tells the stories of more than one couple.

First, we have the main couple, Pierce, aka Backhander, the brainy leader on his last few missions before retirement. Pierce is a smallish guy, without military background, who has always loved the idea of strong alpha men, but has always been too afraid of the damage they could do to pursue any type of relations, sexual or otherwise. Then, there is the mysterious Hawk, who is known as the Seer. He is one of the snipers on the team who also happens to have a sixth sense and gets "visions" that the men have come to rely on. Hawk is also extremely alpha, domineering and commanding. While this puts Pierce off for quite some time, Hawk's persistence pays off, and Pierce eventually gives in.

Then, there is the team's other sniper, Shot, and fellow teammate, Fox. These two have been carrying on a very heated "friends with benefits" hot and heavy sexual relationship for quite some time. These two are smoking hot, but they have some issues. Fox wants to take their relationship to the next level, wants to retire and have a normal quiet life. Shot suffers from PTSD and is afraid he will hurt Fox when they sleep. Therefore, he never stays over and is terrified to take the next step.

Rounding out these hot couples with issues is the captain, Call, and the smexy, mysterious assassin, Alpha. Call seems to have the same basic issues as the rest of the team. He doesn't believe he is relationship

material. Has too many demons and been doing the SEAL thing for too long. He is also reaching retirement though and it seems Alpha has taken an interest. Alpha is just that – uber alpha. He is the baddest, most lethal, assassin around. He is beyond stealthy and faster and more mysterious than anyone else. If anyone needed another story, it is these two.

This is a pretty fast-paced story. It grabs you pretty quickly and keeps you turning pages. It has a nice mix of dialog, sex and a lot of action. I love that these guys all have issues, but that we get to see them work through some of them. I also loved that these guys are all a little older. They are more experienced and still have it going on, even if they are all ready to retire to quieter, less deadly lives. I would have liked to have seen more with respect to the PTSD, but was more than happy with what we did get. Ms. Via sure knows how to steam up the pages, and the Beastmasters are definitely some badass hotties.

#### **4 stars for Blue Moon II: This is Reality**

This book is so much better than book one, and I was happy to see the writing of A.E. Via that I missed in the previous book. Blue Moon II is Hawk and Pierce 's story, with Shot and Fox also taking part of he spotlight. It has a fast paced storyline that flows, intense romance and hot sex scenes. The men are all fierce fighters, and gentle lovers. I truly enjoyed reading this story, and have moved up Hawk as my favorite Beastmaster. The ending leaves it open for Call and Alpha 's story, which I am now intrigued by. Well done A.E. Via. Another successful group of men I can eagerly get to know and love.

I DNF'd my 2nd reading at 60%and updated my rating. I was reading it again thinking I might read book 3. I won't be. This didn't have the campy, outrageous flavor of book one or the alpha-hero and humor of the characters done in the Nothing Special series.

It always amazes me the high ratings this author gets for his/her work, really it does. Blue Moon, like all the other books I've ever read from this author was garbage. From the kindergarten writing style to the highly emotional main characters to the rather nonsensical plot, everything coalesced into a big pile of unimpressive crap. Hawk and Pierce were so forgettable that I'm pressed to provide more details on what their story was about, I mean there was nothing of substance to this 100 plus pages of laughable fodder.

I knew what to expect yet I picked it anyway and that fault lies with me, so instead of me going on and on about this I'll just end it here.

I DO NOT RECOMMEND.

That is all.

WOW... talk about a story to remember! Fast paced action! Hot man-on-man love times 4!!! Hidden heroes! Mysterious appearing engagement rings! This was like four stories in one... and every single one of them was great! Eight men, all strong in their own way, who were fighting to live long enough to retire in peace, with the one that they love... \*sigh\*

#### **Another episode of kicking butt SEALS and the men they love**

Beastmasters are a collection of NAVY SEALS who are specifically working with the DEA and other agencies to rid the world of the drug cartels. They kick arses. Pearce was DEA until he retired but is back helping out along with Dane ( Hawk) who is one of the best of the Beastmasters. Isadore ( Shot) who we met when his son Angel was kidnapped is with Fox who is FBI and a member of this team. Problems exist between them because of Shot's PTSD which can make him violent at night after having nightmares. Lots of action - possibly more than a Hollywood action movie could handle! But, great writing and stellar characters.

### **3.5 stars**

This story had all the stuff I've enjoyed in the author's previous books: hot alpha men with a bit of damage, steamy sex scenes and fast-paced action. The story picks up with the Beastmasters who were introduced in the first book, but also adds two new, mysterious characters. While I enjoyed it, I didn't like it as much as the first as things seemed a bit rushed. I enjoyed the addition of Alpha and wouldn't mind seeing his story in the future.

3.5 stars. I love Via's books and have been waiting for the second in this series. I didn't love this one as much; too much action in the plot and the love stories felt too rushed. But still a good read. Recommend.

Can't stand alone.

So much of the intro to this book is missing (probably because it's a sequel) making it harder to follow. It isn't as well written as the ones before it. Feels like there are too many plots going so none of them gets the focus it deserves. Would probably have done better as three separate shorts instead of such a mixed story.
