Maria says

I can't get enough of this book! And neither can my 2yo and 4yo. It's actually a bit of a lifesaver at our place. I highly recommend it, particularly the ebook edition and excited there is now an audiobook version I can play in the car.

Rocio Molina says

Gané el libro en el giveaway. La narrativa es más extensa de lo que acostumbran a ser los libros infantiles, se lleva buen ritmo leyendo en voz alta y la historia es dulce y cursi. Las ilustraciones son grandes y de colores fuertes y llamativos, muy bonitas!

Kathryn says

This is a beautifully written and illustrated story for bedtime. Although it can be enjoyed at any time of day. The narration is excellent and as someone who listens to many audiobooks, it is as good as the best I've listened to. Very entertaining. As a retired teacher, I'd recommend it highly.

Michelle Moynihan says

This book is a lovely classic children's story with beautiful illustrations that engage my daughter's imagination. My daughter (3yrs) has been listening to the Dream Wonderland album since she was 11 months old so it is lovely to now have the visual aspect of the journey that the music takes her on.

James Manser says

A really good production; excellent story, voices, music and illustrations. My daughter loves it and it allows us to enjoy sleep time together. (Sometimes I don't feel like doing the reading myself.)
