Green Witchcraft II: Balancing Light & Shadow

Ann Moura

Green Witchcraft II: Balancing Light & Shadow Ann Moura

Green Witches are deeply connected to the Earth and the cosmic balance of light and dark. They welcome the wisdom of the light and the shadow sides of nature, the self, and the Divine to grow more whole in magic and spirit.

In *Green Witchcraft II*, hereditary Witch Ann Moura reveals how to develop a balanced practice by incorporating the powerful, dark aspects of the Goddess and the God. Guided meditations, spells, and rituals enable you to invoke the energy of the dark powers and achieve your goals through magical workings.

Use dark power herbs and hear the goddess speak prophecy Create a connection to with the four Elementals with your own elemental bottle Open the doors to past-life memories with the black mirror meditation Learn a spell to pass easily among the three worlds Gather and release the chaos energy of darkness to regenerate the Earth Work with the dark aspects of familiars, the Celtic Ogham, and the Tarot Honor the dark no less than the light...release your fear of the shadows and embrace the other half of yourself with the balancing practices in *Green Witchcraft II*.

Candace says

Very interesting take on the dark half of life, however some of the things that she convey have been done in the original Green Witchcraft book. Overall a must have on the witches book shelves.

Nicole says

Although not as good as the first one, it was worth reading. It provides excellent information on aspects of light and dark.

Siduri Moonshine says

Wish there were a, "No Star" option for this book really is unworthy of even a, "star!" There is an offensive and condescending undertone in her works which is not only obvious to the astute reader in this book, but in her other works as well. Of course it's just my humble opinion and someone else may find this book a five star plus type of book. It's all in what resonates with us. Or is it? I've read other books which the writer comes across as offensive and condescending and yet it's tolerable to read. The title does not connect to the content of the book, it's way far removed from what one wanting to know more about Green Witchery is seeking. In other words, it's NOT about Green Witchery but her experiences with the fey and the dark side. But....hey, she serves up sweet treats with the dark side! Ann shares a few recipes in the section she calls, "Dark Power Beverages and Foods!"

Yvonne says

This is the 2nd installment in her series. I really identify with this author and her books, particularly when her mother passed and the spiritual experience she had during that time. I went through something similar and it really hit home. I also really liked her meditations and the aspect of balancing the light and shadow parts of ourselves. That being said, I do wish she delved more into shadow work - as there is not a lot written about that topic (the general focus is on 'the light' so much of the time).

Brandi says

Very informative.

Charles says

it was an informative book. there were a few parts of the book that need more info on but that is by no means the authors fault the are topics that could cover a whole book on there own. the only real problem i had was she kept referring to the atheme as a knife except in one or two spots.

Amber Bingham says

I registered a book at BookCrossing.com!

Melissa says

I was actually really disappointed with this entire series.

The first book I got written by Ann Moura was "Mansions of the Moon for the Green Witch" I enjoyed it, as there are few books out that talk about utilizing the power of the lunar mansions for witchcraft. Then, I purchased "Grimoire for the Green Witch" and was slightly disappointed by the lack of detail provided for much of the information. Now, I get the entire "Green Witch" series, and what do I find?

It all appears to be the sam content over and over again.

The exact same recipes featured in Grimoire for the Green Witch are in these books, and the content of the entire series is repeated, only with some things being gone into greater depth, such as the Ogham. I'm glad I just downloaded this book and didnt pay for it.
