Bureaucracy can suck the fun out of anything, even a PsyCop meeting. Undaunted, Jacob Marks would never miss a chance to meet some of the city's most mysterious crime fighters in the flesh, since now he'll finally be able to put names to faces...if Carolyn doesn't make them miss the whole thing because she's so focused on fixing him up with a musician from Boston.

Nancy says

This is a fun little prequel to the PsyCop series and one of two stories told from Jacob's perspective. He and his partner, Carolyn, are going to his first PsyCop meeting. While he's excited about it, Carolyn is more interested in fixing Jacob up with a new man. As Carolyn is a telepath, Jacob has to be very careful what he says to her.

As much as I enjoyed this story, I think it would be better appreciated by gaining some familiarity with the characters and their world. Vic's misadventure with a jelly donut is hilarious! Start with *Among the Living* and read this free short after.

Vic & Jacob - the prequel. :)

One year, four months, and eight days before Jacob & Vic hooked up at Maurice's retirement party, they met at a work meeting.

There was jelly donut filling, wet napkins, and clipart involved.

And a precog who knew what was what...

I could've done w/o Jacob's attraction and pending relationship w/ Crash. But, I did so love the first meeting...

Kelly H. (Maybedog) says

Here's a little tip: remind yourself of the character names before reading a short that appears before the start of the series. If you forget a character's last name and the story is about police officers, who go by their last names, you will completely miss the point of the story and have to read it over again.

In this case, it was fine because the story was nice the first time and fun the second. Here we are shown how Jacob and Vic first meet and we see Vic from Jacob's perspective. We see Vic's nerdiness and discomfort with himself, see that these neuroses are such a part of him that he is completely inwardly focused and unaware of a lot of what goes on around him. We see the beginning of Jacob's attraction and how Vic is completely oblivious as usual. I particularly liked how Price presented Jacob's attraction without using words that are only about what someone looks like or that are the kinds of things girls would say, like "adorable" or "cute" or "hot" which wouldn't really fit at all anyway.

The whole scene is really adorable despite the lack of that word appearing in the text, and a delightful look at this couple from a different perspective. It's also a good intro to the series, although understandably it doesn't have the tenderness of the later works simply because they aren't dating yet.

Again, I highly recommend this story as well as the whole series.

In the timeline of the series, this is basically first.

However, having read the first two books in the series, and then reading this, you'll get a lot more out of it.

Yep, it's Jacob's point of view, and we see the beginnings of several storylines.

The sport coat. That's all I'm saying.

I'm on to read the next. :)

Well, that was way too short but I loved being in Jacob's head. I think I needed that little bit to get my head wrapped around these two. It helped.

that was a short enjoyable read im on to the next.

First book done and dusted. I'm willing myself to love this series, everyone else seems to.

I heard a lot about PsyCop series (all good) and I have to read in order. I still don't know much about the world, but I got enough from this snippet to make me want to read Among the Living.

Shurrn says

Short, Sweet, & Cute

"Please tell me you weren't thinking gay thoughts at work in a room full of certified Psychs."

"Gay thoughts?"

"Jacob..."

"Should I have borrowed a straight brain before I showed up at the meeting?"

A short story told from Jacob's POV - tells the story of the first (sort-of) meeting between Jacob & Vic.

Though, the jelly doughnut was really the star of the show...

I'll probably have to come back to this after I get deeper into the series so I can better appreciate the various references to future story lines. Re-reading won't be any hardship; this was a quickie.

UPDATE: I've officially read the entire PsyCop series (at least the books published to-date). Now that I have a better understanding of the character & relationship progression, I'd recommend reading this book after Book four or five. There's nothing wrong with reading this story at the beginning of your PsyCop adventure, but I feel readers will *appreciate* all the little things happening in this story more if they come back to it. If you want to start with this book and do a re-read later, I think that would be perfect - That's what I did. It was much more satisfying on the re-read, however.

It was refreshing to see Jacob's opinion on Vic before they became boyfriends. So we now know that Jacob always has a thing for our bad-boy attitude always scowling and awkward Vic. It was cute and interesting.

4 who knew jellies can be so erotic stars

i liked seeing Jacob POV but nothing really happened and for some reason knowing the day he noticed Vic is also the day he decided to give his number to Crash is just I don't know, but I know i didn't like it

Heather K (dentist in my spare time) says

This was a special surprise! I loved the glimpse into Vic's life before he got together with Jacob and I love anything written from Jacob's POV. It was interesting to see how and when he got together with Crash and his impressions of Vic at first meeting. A great short for PsyCop fans!

Heather C says

This was a great PsyCop short. We get Jacob's POV of the first time he lays eyes on Vic, and of course Vic is in his own little world dealing with another of his sportcoat disasters. It was really sweet seeing Vic through Jacob's eyes and him trying to figure out if Vic was gay or straight or "open-minded enough to experiment".

This was a total tease and now I'm drooling for more Vic and Jacob now, now, NOW!!!

ETA: This can be read prior to reading the 1st book, but you might not appreciate this story as much if you haven't the other books in the series 1st.

Tina says

This fun and sweet short prequel takes place one year, four months and eight days before Vic and Jacob hook up at Maurice Taylor's retirement party. It's the first time Jacob notices Vic and also the first time Jacob sees a picture of Crash.

This story is told from Jacob's point of view. It's a must read for all readers wondering what Jacob sees in Vic... :)
