### **Renee says**

I will stop reading this series. I'm not sure why I've read 4 already. The main two characters are a bumbling, fumbling duo. The insecure nature of the main character was tiring. The books have repetitive phrases and references that get tiring. Story jump around no smooth transition. Can't recommend.

### **Barbara Hackel says**

I have enjoyed 2 other books in this series, but this book doesn't compare to those. There are editing errors that make it difficult to keep things straight, and a very abrupt ending. It just isn't up to the quality of the other books in the series. The premise of the latest case is a good one, and Maggie's side kick Dorothy is still giving Maggie funny but solid back-up. I wish this could have a reissue after another editing. So many good ideas, but not well constructed.

Very disappointing.

#### **Good book!**

What a fast paced, fun book. It was filled with laughs and funny characters. Dorothy really reminded me of Sophia from the Golden Girls. It is even set in the same city, Miami. Definitely worth reading!

#### **Sigh...**

Usually a good laugh, but I didn't care for this book. She's so naïve, I felt embarrassed for her. Example, going out on a pier to meet someone who wouldn't identify their self on the phone. Who does that when caught up in a murder case? Then stare out over the water daydreaming & end up getting pushed in to almost drown. (She doesn't know how to swim very well which would be another reason not to go!) It's one thing to bumble through situations through clumsiness but another to end up in preventable almost disasters. Sorry,

this series isn't for me.

### **Rebecca Rodgers says**

The series started out really good and was a lot of fun to read, but the last two books have fallen short of expectations. For starters this book has numerous editorial problems. It is frustrating to read a book that you are constantly editing in your head as you read. This really needs to be addressed by Rose and her publisher. As for the story, I did not find it any where as good as the series was in the beginning. The relationship between Rose and her assistant Dorothy is not as funny as it was in the past, and the chemistry between Jake and Rose has also lost its appeal. The two of them bicker more like siblings than potential love interests. I think I am done with this series.

After Maggie witnesses a boat explode on the ocean, the widow of the man who died hires Maggie to find the real killer as the police suspect her of murdering him in. Maggie and Dorothy keep finding themselves up to their eyeballs in trouble in this fast-paced book.

#### **Great read!**

I love these stories - the characters are great. Maggie & Dorothy are a hoot and Maggie & Jake are one of the best couples - I love them together. Hope you keep the series running for a long time.

### **Jan Niblock says**

Another fun mystery story from Rose Pressey. I really love how Maggie seems to get herself out of the situations she falls into. Dorothy is a real character that you just have to love and she makes a good sidekick for Maggie. I like that this book doesn't have two men vying for Maggie's attention. There is only Jake who is a very handsome detective with the patience of a saint for what Maggie puts him through. I really enjoy reading the stories where Maggie P.I. is the subject, they are fun and fast reading.

I love this series. Maggie and Dorothy have grown on me and I love each book they are in. The mystery was good and I love the antics of these two.

**Linda Paterson says****This series would make a good movie!**

I think Rose Pressey has done it again! I think any one of these books in this series would make excellent movies! There's a lot of mystery and action in this book. I highly recommend this book and any other book by one of my favorite authors Rose Pressey!

It's cute, flaky and a great fun read. I hope the series continues. I've read all 3 books in the series and am rooting for Maggie and Jake to get together. Their upcoming trip should be exciting.
